

## A Mother's Beautiful Child

Dragged Nearly to Death's Door by Severe Nervous Disease—Suffered Extreme Pain in the Head—Doctors Could Do Nothing—South American Nervine Called in at the Eleventh Hour and Restores to Health Little Annie Joy, of West Toronto Junction—The Great Remedy is Reducing the Death Rate of All Canadian Cities.

MISS ANNIE JOY, WEST TORONTO JUNCTION.

A bright little lad, or golden-haired girl, is the delight of your home. Whether you revel in riches, or know something of the privations of poverty, that child is all the world to you. It is no wonder that mother and father become anxious when sickness overtakes the little one.

The remedy, fathers and mothers, is near by. South American Nervine has been the means of giving back the bloom of youth to thousands of suffering little ones. It is not a medicine that buoys up the parents' hopes, only to have them in a short time dashed down again lower than ever. Whether with child or adult, it promptly gets at the seat of all disease, which is the nerve centres. From this fact it is peculiarly efficacious in the treatment of nervous diseases of man, woman or child.

A recent case is that as told by Mrs. M. A. Joy, of West Toronto Junction, whose little daughter Annie, aged 15 years, had been a sufferer from severe nervous depression for about two years. As with all mothers, no trouble and expense was spared in the effort to bring relief to the child. The little one suffered extreme pains in the head, so

distressing at times as to render her completely helpless, sapping all her strength. The best skill of the most skilled physicians was called in request, but little Annie steadily grew worse. Becoming more hopeless and discouraged as the weeks went by, Mrs. Joy decided on trying South American Nervine as almost a last resort. Employing her own words she said: "I determined to give it a trial, although I felt it was useless."

To-day it is all happiness around that home, for before one bottle of the medicine had been taken, the mother tells us Annie commenced to show decided signs of improvement. The child has taken three bottles and has practically regained her natural health and vigor. There is nothing surprising in the fact that Mrs. Joy cannot speak too highly of South American Nervine.

Much was at stake, but this wonderful discovery proved equal to the emergency, and so it does in every case. Thousands of letters on file from well-known citizens prove this. For nervous diseases of young or old, from whatever cause, it is an absolutely infallible cure.
