AT SOUTH AMERICAN THE

The Most Astonishing Medical Discovery of

the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Wilk. This wonderful Nervine Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the

general public. This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nervine tonic qualities partment of Agriculture, has analysed the which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares into four lots. In the first one of these with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten

Consumption of the Lungs, Catarrh of the Lungs, Bronchitis and Chronic Cough, Liver Complaint, Chronic Diarrhœa, Delicate and Scrofulous Children,

Summer Compiaint of Infants. All these and many other complaints cured by this wonderful Nervine Tonic.

WELVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonie, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not con- there is a difference in the value of land tain a sufficient quantity of the kind of nutriment necessary to repair in favor of the manufacturing counties, the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous de-

CRAWFORDSVILLE, IND., Aug. 20, '86. REBECCA WILKINSON, of Brownsvalley, Ind.,
To the Great South American Medicine Co.:

DEAR GENTS:—I desire to say to you that I
three years from Negrousness, Weekness of the have suffered for many years with a very serious disease of the stomach and nerves. I tried every Stomach, Dyspepsia, and Indigestion, until my medicine I could hear of, but nothing done me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using a stomach and the stomach and several bottles of it I must say that I am sur- good than any \$50 worth of doctoring I ever prised at its wonderful powers to cure the stom- did in my life. I would advise every weakly perach and general nervous system. If everyone son to use this valuable and lovely remedy; a knew the value of this remedy as I do you would for bottlest of it has cured me completely. few bottles of it has cured me completely. I

not be able to supply the demand.

J. A. Harry Ex-Treas. Montgomery Co. consider it the grandest medicine in the world." A SWILD'S COME FOR ST. VITAS' DANCE UR CHUREA.

CRAWFORDSVILLE, IND., June 22, 1887. My daughter, eleven years old, was severely afflieted with St. Vitus' Dance | manufacturing counties \$17.14. In the or Chorea. We gave her three and one-half bottles of South American Nervine and she is completely restored. I believe it will cure every case of St. Vitus' Dance. I have kept it in my family for two years, and am sure it is manufacturing counties and \$8.27 in the the greatest remedy in the world for Indigestion and Dyspepsia, and for all other counties. These figures certainly forms of Nervous Disorders and Failing Health, from whatever cause. JOHN T. MISH. State of Indiana, Montgomery County, 88:

Subscribed and sworn to before me this June 22, 1887. CHAS. W. WRIGHT, Notary Public,

INDIGESTION AND DYSPEPSIA. The Great South American Nervine Tonic

Which we now offer you, is the only absolutely unfailing remedy ever cians, but the home market according to reputable drug-store. 25c. for a large discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the one and ONLY ONE great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

HARRIET E. HALL, of Waynetown, Ind., says: Mrs. Ella A. Bratton, of New Ross, Indiana, Nervine. I had been in bed for five months from the effects of an exhausted stomach. Indigestion, Nervous Prostration, and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doc-tors, with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cared me entirely. I believe it is the best medicine in the world. I can not recommend it too highly."

I owe my life to the Great South American says: "I cannot express how much I owe to the Nervine Tonic. My system was completely shattered, appetite gone, was coughing and spitting up blood; am sure I was in the first stages of consumption, an inheritance handed down through several generations. I began taking the Nervine Tonic, and continued its use for about six months, and am entirely cured. It is the grandest remedy for nerves, stomach and lungs I have ever seen."

No remedy compares with South American Nervine as a cure for the Nerves. No remedy compares with South American Nervine as a wondrous cure for the Stomach. No remedy will at all compare with South American Nervine as a cure for all forms of failing health. It never fails to cure Indigestion and Dyspepsia. It never fails to cure Chorea or St. Vitus' Dance. Its powers to build up the whole system are wonderful in the extreme. It cures the old, the young, and the middle aged. It is a great friend to the aged and infirm. Do not neglect to use this precious boon; if you do, you may neglect the only remedy which will restore you to health. South American Nervine is perfectly safe, and very pleasant to the taste. Delicate ladies, do not fail to use this great cure, because it will put the bloom of freshness and beauty upon your lips and in your cheeks, and quickly drive away your disabilities and weaknesses.

Large 16 ounce Bottle, \$1.00. EVERY BOTTLE WARRANTED.

Diversity of Industry.

History does not offer an example of what feeds the artisan and his family. We a purely agricultural people who were leave it to the Canadian farmer himself great and prosperous. Diversity of in- whether he is prepared to say that this dustry must come before lasting prosperi- yearly wage shall cease. Supposing that Washington discussing the question of and propose to erect here a factory and better trade relations with the people of start an industry which would employ 50 the United States, Mr. Blaine declared or 100 men. This town would be in a that the United States would gladly sup- state of excitement, the people in the town ply Canada with all the manufactures that and the farmers in the surrounding country she needed, "and," added he, "Canada would be very willing to grant a bonus to would then be like many of our States, a be paid out of their own pockets and to great agricultural and pastoral country." relieve the promoter of such works of Mr. McCarthy, in his recent speech in the municipal taxation no doubt for a number House of Commons, gave utterance to of years. In other words we should be words in the same direction. In his great glad to give every form of encouragement mind there seemed to be a conviction that possible to any man who will employ a Mr. Blaine was right. Fortunately, how- large number of people. Why then should ever, the Canadian ministers did not hold we be so silly as to adopt any policy that the same view. In view of the facts we would destroy the industries which are have referred to it is very interesting to scattered over Canada from its extreme look at the evidence of the value of a east to its extreme west? The people of variety of industries as presented by the Canada will never do it. census of the United States. Mr. Dodge, Statistician of the U. S. De-

census of 1881. He has divided the states lots eighteen per cent. only of the people are engaged in the pursuance of agriculture, and in that lot land is worth \$38.65 per acre. In the second lot 42 per cent. of the people are engaged in agriculture, and the land there is worth \$30.95 per acre. In the third lot 58 per cent. of the people are engaged in agriculture, and the land is worth \$13.53 per acre. In the fourth lot 77 per cent. of the people are engaged in agriculture, and the land is only worth \$5.18 per acre. These figures are certainly very instructive figures. sunken eyes, surrounded with LEADEN They show undoubtedly that the presence of manufacturing industries in any particular section of the country by creating force having lost its tension every funca market for the produce raised upon the tion wanes in consequence. Those who farms of that section of country, increases the value of these farms. The people of the fourth lot that we refer to above may be called to adopt the language of Mr. LUBON, 24 Macdonnell Ave, Toronto, McCarthy "a pastoral people." Out of Ont. every 100 people, 77 are engaged in far.ning, and only 23 engaged in other occupations; those 23 being people engaged in those trades and callings made necessarily attending upon a farming population. Manufacturers do not exist at all. It may be said, however, that these figures are not so conclusive as we make appear above. It may be pointed out that necessarily the fourth lot that we have referred to contains most of the States west of the Mississippi, where the great prairie lands are situated and where land could not be expected to reach anything like the value that it has attained in the Eastern States of the Republic. But the following figures do away with the objection that we mention. It is shown further by the analysis of Mr. Dodge that not only is land more valuable in those States in which manufacturing industries are established, but it is also shown that land is of much greater value in the manufacturing counties of those States we refer to. It cannot resort. But they were charmers-no missurely be accidental that in every state take." and it certainly is true that where there is little manufacturing there is scarcely any difference between the value of these lands and the value of lands in non-manufac- hysterics. And such kisses-waow! We turing States.

Now take the figures. Take the first group for instance, in the manufacturing counties of that group the land is worth \$71.85 per acre, and in the non-manufacturing counties of that group the land is worth \$40.33 per acre. In the second group the land in the manufacturing Jove!" counties is worth \$43.54, and in the nonmanufacturing counties it is worth \$32.03. In the third group in the manufacturing counties, land is worth \$32 90, and in nonfourth group land is worth \$21.95 in the go undoubtedly to show that in order to be prosperous the farming population farms. Now let us look at the position in the very best statistics that can be gotten bottle. is a mest valuable market The statistics show that the Canadian farmers raise each year produce to the value of \$500,000,000. Of this produce \$8,000,000 worth is exported to the United States. \$42,000,000 worth is exported to Great Britain, or a total of \$50,000,000 worth exported from Canada. The balance of \$350,000,000 worth is consumed at home. The policy of the Liberal party says that we shall not seek to encourage industries, in short, that every vestige of production shall be removed from the tariff.

The experience of every other country which has tried such a policy until their industries were made immensely strong by centuries of protection certainly demonstrates beyond a doubt that the fact of the removal of "every vestige of protection" would be to destroy our judustries at home and make us consumers of the production of foreign labor. Now what do our industries amount to? Leaving aside the amount of money invested in them, let us not forget that these industries pay the laborers and artisans each year the immense sum of \$99,000,000 in wages. A great share of this \$99,000,000 goes into

the pockets of the Canadian farmer for When the Canadian ministers were at some capitalists were to come to this town

All Men Young, old, or middle aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of vitality, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on DRY the face and body, itching or peculiar sensation about the scrotum, wasting of the organs, dizziness, specks before the eyes, twitching of the muscles, eyelids, and elsewhere, bashfullness, deposits in the urine, loss of will-power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, CIRCLES, oily looking skin, etc., are all symptoms of nervous depility that lead to insanity unless cured. The spring of vital through abuse, committed in ignorance, may be permanently cured. Send your address for book on diseases peculiar to man, sent free, sealed. Address M. V.

The Same Girl.

"Hello, Jack, old boy! Haven't met you in a month."

" No: I just returned from the country with my bride."

"Really? Shake; my congratulations. Come-I'll open a small bottle in her honor. She wasn't a Squedunk girl,

where we summered last year, was she?" "Exactly. You left in July; I lost my heart in August."

"Ah, you old rascal! Well, here's to the bride! Drink hearty. Great town, that Squedunk; full of awfully jolly girls; some of them great flirts, too."

"At least, I found them so. I had no end of fiancees, so to speak, sometimes meeting two or three on the same evening by appointment. It was great sport. You see, a man has to go a long way around among so many girls at a summer

"Yes, I found them so."

"And so deuced sentimental, too, by Jove! I remember one in particular—a hazel-eyed blonde, with a bewitching air. Gad! She would actually hug herself into used to wander over the lonely mountain paths by moonlight till midnight. A dear girl, too ; forgotten her name. Guess you didn't meet her. Let me see-it was a Lottie some-body-"

"Not Lottie Huggus?"

"That's the girl-the very same, by

"She's upstairs now."

"Gad, you don't say !" "Fact! She's on her honey moon."

"Waow! Who's the poor devil?" "I am."-Boston Herald.
