MARCH, 31.—Plenty of wild fowl, and if the weather was not so very, very cold, 36c. the sportsman could enjoy himself.

Robertson & Co. have removed their lobster traps, boats, etc., from the South Beach to their factory at New Gully. We understand they will not can lobsters at their factory on the South Beach this season.

Checkers seem to be the chief sport with our young men at present. Among the fair sex there are quite a number of would be players. What is the matter with a checker club, boys?

Rumor has it that some of our ladies think they are slighted by your correspondent from this community. One AT' in particular who, we understand is a strong advocate of Women's Rights, says our notes are not worth reading, for we never tell anything the ladies are doing. MARCH 31.—News is scarce this week, as Moccasin Moose wrote all that happened for the last month and a week to come. I think Moccasin Moose must sleep all day, when he did not hear the honk of 95c.

I hope when the lunatic asylum bill is returned next fall, that the county treasurer will have funds enough left to furnish an asylum on the south side, for if there are any more on this side of Vida's stamp, we will be in great need of one by that time.

If Moccasin Moose doesn't look out, Anthony will use the soles of his boots on him. It was an unmanly track that was

played on Anthony. I thought I knew all the Indians on the South Side, but Moccasin Moose must be a new addition. I thought there was some lee all Whiter,
