#### the Bataurst Schools.

FREDERICTON, March 29.-Hon. Mr. Mitchell, at 2.20 o'clock this (Thursday) morning, tabled the report of Hon. Mr. Fraser in the Bathurst school question, which comprises a pamphlet of seventyfive pages. His honor concludes as follows :

I think as a general result of the evi dence I may state my opinion, formed therefrom, as to some of the questions in brief, as follows:

1st .- That no conventual schools have been established in Bathursttown or village in the direction indicated in the complaint ; that is, schools which it was sought to have ing day of the year. Telegrams are under the control of the Roman Catholic | charged with \$817.24, and telephones with church, but on the contrary that the trustees of both town and village in securing for school purposes certain school rooms in the town convent building and certain rooms in the village convent building, intended that the schools carried on in such huildings should be bona fide ard conducted in all respects in accordance with the common schools act and regulations of the board of education.

2nd .- That their idea does not establish that there has been any Roman Catholic priestly of clerical interference with the schools in the town or village, or in any of the school districts in the county of Gloucester

3 .- That the trustees in the town and ed as follows :village districts had not, up to the time of my holding the investigation in the town of Bathurst in May and Jane last, dis charged their duties as trustees as efficiently as they might have done in regard to having a satisfactory grading of the schools of the town and village not withstanding th constant for s and directions of th chief superintendent of the board of edution ' king , the west

in these in indertes it by the government. The increased exthe part of the trustees both in the town pense for the same work is only \$2,926 .and village to grant permits to Roman 20 in one year. Catholic children to attend the school rooms in the convent building in which the Sisters of Charity are teachers, to a larger extent than is consistent with the satisfactory grading of the schools in both the public school building and the rooms in the convent school buildings taken as a whole school district, and this I consider largely attributable to the desire of Roman Catholic parents to have their children placed as pupils in schools in which the sisters of charity are teachers. The directions and requirements of the chief superintendent of education as contained in his letters of the 24 h of December, 1892, to the trustees of both districts, if fully carried out would appear under all the circumstances, of population; religion and nationality to reasonably meet the requirements of the case, and be likely to pro duce a reasonably satisfactory system of grading in both town and village. 4th .- The evidence established that several of the teachers in Bathurst town and village have during the recreation hour at noon taught the Roman Catholic catechism and given religious instruction during such hour, after the dismissal of the pupils at noon and before the hour for itch, all eruptions on the face, hands, nose, &c., reassembling in the afternoon under the full belief that such hour was not part of the teaching day. While this was an infringement of the law, according to the regulation, as I have interpreted it, it was not, iu my opinion, a wilful infringement of it, inasmuch as the teachers who so taught the catechism honestly believed that the recreation hour was no part of the teaching day. 6th .- That Roman Catholic prayers have been used at the opening and closing of the schools in certain of the schools, but that they have been so used with the permission of the school trustees under the wording of school regulation 22, which permits the use of prayers approved by the school trustees, and Roman Catholic and \$1 00, at druggists. prayers have also been used in a few of the schools at the close of the morning SCROFULA session of the school and at the opening of the afternoon session, the teacher who so used such prayers being under the impression that he or she was to open or close each school session, forenoon and afternoon, with prayer, and not with any intention in so doing of violating the school law or school regulations. 7th .- That in a few, but perhaps not more than three or four schools in Gloucester county, which are all situated outside of the town and village, the Roman Catholic catechism may have been taught by the teachers in the school service, durschool hours, the instances going back to the years 1878 or 1879 and 1884. 8th .- That no Protestant child or pupil has been forced by any teacher to kneel or cross himself or herself in school. 9th .- That no Protestant-pupil was ordered by the teacher of any school to leave the same because he would not kneel in the said school with the Roman Catholic pupils nor did he leave the school under and by reason of such order. 10th .- That some of the Protestants of the town and village object to the licensing of Sisters of Chariny as teachers and refuse to send their children to any department in which the teacher is a Sister of Charity.

#### Examples of Mr. Blair's Economy-Sources of Revenue. FREDERICION, March 22.-M. S. Hall and McMurray & Co., of Fredericton, and

The government postage bill for last

year was \$1,882.77. This at three cents a

letter would mean 62,759 letters, or an

average of about 210 letters for each work-

Previous to 1863, during the life of the

legislative council, three engrossing clerks

were employed in the legislature-two

for the assembly and one for the council

-at a salery of \$300 each; in all \$900

was paid for this service each year. Last

year Dr. Pugsley was appointed law clerk

at a salery of \$1,000, and although the

legislative council had been abolished the

three engrossing clerks were still retained

and an additional assistant employed.

Two of these clerks have been given in-

creased salaries of \$400. As against the

\$900 formerly paid for this service, the

same work last year cost \$2,250, distribut-

H. Hawthorne, assistant do ..... 150

The fact that in 1892 the expenses of

the legislature, not including the amounts

harged to the legislative council, cost

\$16,801.90, and in 1893 the expenses of

the legislature ran up to \$19,875.70, is a

an sample of the rigid economy exercised

Physicians Said She Was In-curable

Wonderful Results From Taking Hood's Sarsaparilia.

Like a Miracle

Toronto, Ont.

"Four years ago while in the old country (England), my daughter Hannah was sent away from the hospital, as the doctors there could do nothing to help her, and said she would never be any better. She was in a very low condition with consumption of the lungs and bowels, and weak action of the heart. The trip across the water to this country seemed to make her feel better for a while. Then she began to get worse, and for 14 weeks she was unable to get off the bed. She grew worse for five months and

and lower part of body, and if she sat up in bed had to be propped up with pillows. She would go ten days without a movement of the bowels. All medicine seemed to do her no good. She would have spells when her heart would pain her, and then, with the outside door open in mid-winter, would faint away. Thysicians, after holding a consultation.

and wanted me to send her to the 'Home for

### Since Last September I have not spent one day without intense suffering until I obtained a bottle of SCOTTS CURE
