THE QUINN FARCE.

The amendment moved by Mr. Powell that Mr. Pitts be hanged, Dr. Stockton drawn and Mr. Phinney quartered, was a fitting conclusion to the comedy presented in the legislature last week. The amendment was in keeping with the previous proceedings and served to convince even the most servile followers of the government of the unenviable and ridiculous position in which they had been placed. The spectacle of a committee appointed by Mr. Blair sitting in judgment on a charge preferred by Mr. Blair against Mr. Blair, was enough to convince the public that the whole affair was simply a burlesque. The whitewashing of Mr. Blair was an act that every one anticipated. Had the play ended there, the public would have been satisfied that a pretty good farce had been presented. The whitewashing of Mr. Wilson, however, and the vote of disapproval of the conduct of Messrs. Stockton, Phinney and Pitts were acts that were not anticipated, and the concluding farce presented by Mr. Powell awakened Mr. Blair and his followers in the House to a sense of their ridiculous position. It is amusing to note the tone of indignation assumed by the attorney general at the insult to which the speaker of the House had been subjected by Mr. Powell's amendment. Mr. Blair must feel keenly the ridicule and derision which he has called down on himself by his conduct in this matter.

THE LUNATIC ASYLUM BILL.

In his letter to the municipal authorities of the different counties withdrawing the lunatic asylum charges for last year, Mr. Blair sought to throw upon the opposition a portion of the responsibility for the passage of the Act. The Act in passing, he declared, "received the unanimous approval of members of the Assembly." The attorney general was well aware that this statement was untrue, but with characteristic dishonesty he sought to lead the public to believe that the opposition members were accessories to the passage of the Act. It is true a division was not called for when the bill was pushed through at the close of the session. Several of the opposition members, however, spoke against the measure, and against the policy of the government in unloading provincial charges on the municipalities. During the discussion on the government's amendment to the act last week, Mr. Blair again sought to leave the impression that the opposition had not opposed the measure, but Mr. Hill, of Charlotte, a supporter of the government took occasion during his remarks to correct the attorney general. Mr. Hill said that last year he had been opposed to the lunatic asylum bill and thought he had made an address on the subject which was not reported. His recollection was that several members of the opposition spoke against the bill. He asked a prominent member of the opposition if they proposed to divide the house, and he said no, it was late in the session and it was not worth while. As he did not appear on the record last year he wished to appear this year, and would therefore vote in favor of the amendment of the leader of the opposition.

The leader of the government evidently does not intend that the municipalities shall get clear of contributing to the support of the pauper insane this year. An amendment to the act was introduced and forced through the house, Thursday, which provides that in case of pauper lunatics who may be in the asylum when this act comes into operation, or shall thereafter be admitted, and who are liable to be charged upon any municipality under the provisions of the act of last session, it shall be the duty of the medical superintendent of the asylum to notify the secretary of the municipality chargeable in respect of any such pauper lunatics, and the secretary in such municipality shall thereupon forthwith notify the overseers of poor or alms house commissioners of the parish, town or city from which such pauper lunatics have been sent to the asylum, and the overseers of poor of such parish, town or city may within thirty days after receiving such notice withdraw such pauper lunatics from the asylum, and in case of such withdrawal such municipality shall not be chargeable with any expense for maintenance of such lunatic under said act prior to such withdrawal. The opposition moved in amendment that the Act be repealed. The amendment was voted down Messrs. Hill and Russell, of Charlotte, Smith of Westmorland, and Goggin voting with the opposition.

A short time ago the local government

organs were endeavoring to lead the public to believe that the provincial finances were in a most healthy condition under the management of Premier Blair. Mr. Blair however, does not take this rosy view of affairs. In speaking on the amendment to the lunatic asylum act, he begged for the co-operation of the opposition to help the government to raise a sufficient income to meet the increased expenditure. He said it was the cheapest clap-trap to say that the province should continue to support the insane and to meet other charges which he has placed on the municipalities. It was not possible for the government to spend \$2 when their income was only \$1. Dr. Stockton in reply said Mr. Blair had made an extraordinary admission as to the deplorable state of the finances, when only a short time ago he said the public sources of revenue were so ample that he could reduce it by \$20,000. If it were necessary to call upon the municipalities to contribute, let the collection and expenditure of the money be controlled by themselves.

The St. John Globe, a former supporter of the local government, makes the following sarcastic reference to the Quinn resolutions:—"Resolutions which passed the House of Assembly this morning on the Quinn matter will have little influence on public opinion. But anyone benefited by them must have his heart warmed by the generosity and strength of the friendship which secured their passage."

I AM GLAD in the interest of any, who may be suffering from Dyspepsia, to bear testimony to the fact that I have been greatly benefited by the use of K. D. C., when other medicines prescribed as remedies afforded no relief.

Main River.

No doubt, many of our friends in the surrounding settlements wonder what we are doing these bleak days. The fact is, we are not doing much. Some cutting a little wood, others endeavouring to haul some; but the deep snow in the woods, under which there is no frost, makes it very disagreeable work, to say the least.

We were pleased to welcome our returning friends, Messrs. F. G. Graham and E. Ferguson, after their winter's sojourn in the lumber woods of Tabusintac.

The absence of two of our most popular young men makes quite a vast difference in the responsibilities devolving upon those that remained at home during the winter. We know of one in particular, who had so much driving to do, in consequence, that everyone in the neighbourhood became so familiar with the sound of his sleigh bells, passing to and fro in the evenings, that he found it necessary to remove them and use a new set. The thought was a brilliant one. Now, no one knows where he goes or when he comes.

Our teacher, Miss J. L. Steeves, spent Saturday night and Sunday with her friend, Miss L. Morton, West Branch, going by "accommodation," and returning by "special" on Sunday.

We are pleased to note that Mr. Selkirk Murray has given up the idea of going to the United States. There are greater attractions nearer home at present.

Although the travelling is still bad, owing to the backward weather of the past few weeks, I have no doubt that if the young man from R— who made the vain attempt a few weeks ago to visit certain friends in Main River, were to try again, he would be more successful.

There is a good attendance at our school this term, and the pupils are improving under the charge of their energetic teacher.

Anyone wishing to secure a fine maltese cat, can get one by applying to the postmaster, W. W. Graham, who has five on hand at present.

WOODPECKER.

APRIL 18th, 1894.—Not seeing any notes in your paper of late, from this locality, by your kind permission I send a few.

Death pays us a visit occasionally, taking one here and another there to remind us that we should have our house in order, as he is likely to call at any time.

We have had a very severe winter, having stormy, cold and disagreeable weather since the first of November. I question if the oldest inhabitant ever saw as much snow on the ground the last day of February as we had this season. March came in like a lamb and for the first two weeks we had delightful weather.

Many of our farmers predicted an early spring, but according to the old saying, it went out like a lion, and has been like one ever since.

Mud digging has been a complete failure with all the farmers on this river except Hugh McGraw, who has been piling it on his land at a great rate. I think he has accomplished what no other farmer has ever done in this county, having hauled three hundred and five loads (span loads) with one team of horses in twelve days.

Despite the backward spring the farmers are not idle. They are hauling out a great quantity of fence poles and fire wood.

If crows and night-hawks are any indication of spring we will have it in a few days, as they are very numerous. The former live on dead animals, the latter on the living. Any person having oats stored away in his barn or out houses had better keep powder and lead handy, as it is said they are the best for the kind of hawks that can open barn doors and fly away with ninety or a hundred pound weight on their backs.

REV. HENRY POPE, D. D.

ONE OF THE FATHERS OF METHODISM IN THE LOWER PROVINCES.

And one of the Most Eloquent Preachers of His Time.

Few men have a warmer place in the affections of the Methodists of the lower provinces than Rev. Dr. Pope, who after an arduous life in the ministry, to which his father also belonged, is now on the supernumerary list and a resident of the city of St. John. During his active ministry his ripe scholarship, and fine gift of eloquence made him a popular preacher, while his clear judgment and wide knowledge of Methodist polity and church history have always made him a most valuable man in the councils of the church. He is still frequently heard in public in St. John, where the members of all the evangelical churches hold him in the highest esteem, his cordial sympathy and aid being ever at the service of every worthy cause. Rev. Dr. Pope attended the great Ecumenical Council in London some years ago, and his brilliant address there, was widely quoted and highly appreciated by the leaders of Methodism in the mother lands. When such a man lends his voice and influence to anything it must at once be taken for granted that sound reason and a profound conviction form the basis of his action. Hence what Rev. Dr. Pope says in the following letter will be accepted by every reader as establishing beyond question the wonderful curative powers of two of the famous Hawker standard remedies. Writing to the Hawker Medicine Co., under date of March 21, 1894, he says:—

"For several years I have suffered, almost continuously, many of the distressing ills resulting from sluggishness of the liver, realizing from various medicines but partial and only temporary relief. Nine months ago I determined to test the efficacy of Hawker's liver pills. To-day I am happy to inform you of the great benefit I have derived from their use. In my case they have proved a decided success.

"During this winter my family and myself had a visitation of la grippe, which left us in a generally enervated condition. We obtained your Hawker's nerve and stomach tonic, and after using it for a few days, as prescribed, so sensibly and manifestly did we regain our strength and energy that I can and do confidently recommend it as one of the surest and best invigorators of the age."

Wishing you the largest success in your laudable enterprise, I am gratefully yours, HENRY POPE.

The success which has attended the Hawker Standard Remedies since their introduction to the public is without a parallel in the history of the cure of the diseases of humanity.

Hawker's nerve and stomach tonic is a certain cure when faithfully used for all diseases arising from nerve exhaustion, weakened or impaired digestion, or an impoverished or impure condition of the blood, and the prostrating effects of la grippe or any nerve weakness of heart or brain arising from worry, overstrain of mind or body or excess of any nature. Hawker's nerve and stomach tonic and Hawker's liver pills are manufactured by the Hawker Medicine Co., St. John, N. B., Canada, and can be obtained from all druggists and dealers. Tonic fifty cents a bottle or six bottles for \$2.50. Pills twenty-five cents a box.
