According to the Scotch Unionist press, Conservative, Unionist and Liberal election agents have been warned that a dissolution of Parliament will without doubt occur within thirty days, and instructions have been given to make preparations for a new election. It is also said Gladstone will probably not stand for re-election, in which case Sir James Carmichael will doubtless be the Liberal candidate for the Midlothian seat occupied by Gladstone since 1880.

HENRIETTA.—(Named in honor of the gay and brilliant Henrietta Maria, Queen of England in 1624.) A dress fabric, which notwithstanding the revival of its popularity during the last few years, dates its origin well back into the 17th century: though the prominent position fashion has at present given it among fine dress goods would lead many to imagine it a new-comer. Formerly, Henrietta cloth was a superior black dress fabric of silk warp and the finest of worsted weft, but at present it is to a large extent made of all wool. It is woven with a twilled face and a plain back and is like cashmere in all other respects except the finish—being more lustrous. This lustre is due to the elaborate process of "finishing" which Henrietta undergoes after leaving the loom, consisting first of scouring with hot soap suds and stretching it on a frame to dry; then the whole web is carefully examined for burs and knots, which are carefully removed by hand. Next, the cloth is sheared or cropped, to remove the tips of projecting fibres which were unavoidably raised in weaving and scouring. To produce the lustre, it is now wound tightly around a huge drum and boiled for three hours in water, heated at a temperature of 180 degrees "F." It is then unwound and the ends reversed and again boiled for three hours. Finally it is pressed in a hydraulic press in which the cloth is heated by inserting iron plates between the folds or by forcing steam through it while in the press; the last process adding to the smoothness and developing the lustre characteristic of well finished Henrietta cloth. The fabric is known to the trade as "silk-warp" and "all-wool" Henrietta. Read Daniel & Robertson's advertisement.

I Believe in Hood's Inherited Scrofula Cured
Read the Statement of a Popular Teacher

Mr. Geo. A. Zirkle
Mt. Horeb, Tenn.

The statements in the testimonial below are familiar facts to the immediate friends of Mr. Geo. A. Zirkle, school teacher, of Mt. Horeb, Tenn., very well known throughout the county, where he was born and has always lived. Read it.

"Dear Sirs:—I believe in Hood's Sarsaparilla. I will tell you why. I have suffered from inherited scrofula from childhood. When 37 years of age, my eyes became strangely affected. I could not read after sunset, and when I would close my eyes, I could not open them; but on whichever side I lay, on that side I could open my eye. This condition continued about two years, and was succeeded by

An Intolerable Itching all over my body and limbs. I had to have my little boys take shoe brushes and scratch me. It was dreadful. It continued a month and was followed immediately by a tumor in the right side of my neck, as large as a small egg. I at once commenced taking physicians' prescriptions and continued till I lost hope. In the meantime the tumor changed its place to the immediate front of my neck, suppurated and was followed by others, till six had formed and broken.

"Finally, three years ago, another large tumor seated itself on the point of my collar bone and in six months another-half way back on the bone. Both of them soon began to discharge and continued to do so till about seven months ago. I tried everything, including prescriptions. I was often so weak that

my mind was so confused that I could scarcely attend to my business (school teaching). I was utterly discouraged. And now my story draws to a close. I began the use of

Hood's Sarsaparilla Cures
Hood's Sarsaparilla a little less than a year ago, and took five bottles. When I began I had no faith in it. In less than three months both the sores on my shoulder were healed; I was cured of a troublesome catarrh; and scrofulous habit has steadily grown less apparent. I weigh more than I ever did in my life, and am

considering my constitution. Do you wonder that I believe in Hood's Sarsaparilla? I can do no less than recommend it everywhere and every way." GEO. A. ZIRKLE, Mt. Horeb, Tenn.
