

THE GREAT SOUTH AMERICAN NERVINE TONIC AND Stomach and Liver Cure

The Most Astonishing Medical Discovery of
the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar.
It is Safe and Harmless as the Purest Milk.

This wonderful Nervine Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the general public.

This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nerve tonic qualities which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous derangement.

CRAWFORDSVILLE, IND., AUG. 20, '86.
To the Great South American Nervine Tonic Co.:
DEAR GENTS:—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing done me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at its wonderful powers to cure the stomach and general nervous system. If every one knew the value of this remedy as I do you would not be able to supply the demand.

A SURE CURE FOR ST. VITUS' DANCE OR CHOREA.

My daughter, eleven years old, was severely afflicted with St. Vitus' Dance or Chorea. We gave her three and one-half bottles of South American Nervine and she is completely restored. I believe it will cure every case of St. Vitus' Dance. I have kept it in my family for two years, and am sure it is the greatest remedy in the world for Indigestion and Dyspepsia, and for all forms of Nervous Disorders and Failing Health, from whatever cause.

INDIGESTION AND DYSPEPSIA.

The Great South American Nervine Tonic

Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the one and only great cure in the world for this universal destroyer. There is no case of unamalgamated disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

HARRIS E. HALL, of Waynesburg, Ind., says: "I owe my life to the Great South American Nervine. I had been in bed for five months from the effects of an exhausted stomach, Indigestion, Nervous Prostration, and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors, with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I cannot recommend it too highly."

No remedy compares with SOUTH AMERICAN NERVINE as a cure for the Nerves. No remedy compares with South American Nervine as a cure for all forms of failing health. It never fails to cure Indigestion and Dyspepsia. It never fails to cure Chorea or St. Vitus' Dance. Its powers to build up the whole system are wonderful in the extreme. It cures the old, the young, and the middle-aged. It is a great friend to the aged and infirm. Do not neglect to use this precious boon. If you do, you may neglect the only remedy which will restore you to health. South American Nervine is perfectly safe, and very pleasant to the taste. Delicate ladies, do not fail to use this great cure, because it will put the bloom of freshness and beauty upon your lips and in your cheeks, and quickly drive away your disabilities and weaknesses.

Hen Nests.

How shall we make our hens' nests is, nowadays, a question much discussed by poultrymen. A great many humbugs have been invented—wire and cloth, or sack nests, etc.—each one recommending his or her invention, but none are as good as the old box nest. Fill well with new straw or fine hay. Keep them so they are tempting to the biddies. Wood is a great protector against uncleanliness, of which cloth is not; wire is very good. No matter what kind of nests you use, always keep them clean. There is no part of the hen house worse to breed vermin than the nest is.

The hen wants warmth to the nest in winter, which is what will draw the vermin. Never allow one lot of straw to remain over two weeks, unless the hen is sitting, then it is a good plan to throw in sulphur and lime mixed equally. It is a great enemy of lice and will not hurt the eggs at all; put this in twice during the three weeks of sitting. Do not let the pest get the best of you. One hour of work now will prevent 10 days when the warmer weather comes on. When you take old straw out of the nest always burn it.—Ohio Farmer.

Abrogating the Fees.

Mrs. Pigg, a very charming and vivacious widow, called recently on a legal friend of hers to consult him on a matter of interest to her.

"You know, sir," she said to him, "that when the late Mr. Pigg died, he left me all his fortune, much to my satisfaction, of course, but he handicapped it with the name of Pigg, which I must say I don't like."

"Well," ventured the attorney, "I presume a handsome woman isn't especially complimented by being left a Pigg."

"I should say not," she laughed, "now what I wanted to see you about was whether or not I must apply to the legislature to get it changed."

"Um—er," he hesitated as if wrestling with a great legal problem, "um—er—yes; but an easier way is to apply to a parson, and I'll pay all the expenses myself."

It was sudden, but a widow never caught napping, and she appointed that evening for another consultation.—Detroit Free Press.

A Serious Complaint.

People make light of coughs, colds and la grippe, and often neglect them. This should not be done. Dr. Wood's Norway Pine Syrup is a sure cure for all these diseases. It soothes and heals the throat and lungs.

When the Queen was Young.

The marriage of Queen Victoria, then only 20 years of age, to Prince Albert of Sax-Gotha was, it is well known, a veritable love match, but for some years the royal lady found some difficulty in reconciling her sense of dignity with her wifely affection. The story goes that one day, after a little disagreement, Her Majesty having expressed herself in rather a despot tone, the Prince, whose manly self-respect was smarting at her words, sought the seclusion of his own apartments, closing and locking the door after him.

In about five minutes someone knocked at his door.

"Who is it?" inquired the Prince.

"It is I. Open to the Queen of England!"

There was no reply. After a long interval there came a gentle tapping and the low spoken words:

"It is I, Victoria, your wife!"

And then the door opened, and the young bride was clasped in her husband's arms.

Cart.

A man absorbed in his work is apt to be curt, and may not mean to be ill-mannered. Here, possibly, is a case in point.

A venerable and dignified bishop was recently having his portrait painted by an eminent artist. After sitting steadily for about an hour in silence, his lordship thought he would like to break the monotony with a remark. Accordingly he said to the artist, "How are you getting on?"

To the astonishment of his sitter, the knight of the palette, absorbed in his work thus replied: "Move your head a little that way, and shut your mouth!"

Not being accustomed to be spoken to in this fashion, the bishop said: "May I ask why you address me in this manner?"

Artist (still absorbed): "I want to take off a little of your cheek." Collapse of the bishop.

Soap as an Adulterant.

A French chemist has recently discovered that the confectioners of Paris are using soap for their charlotte-russes and cream cakes instead of real cream, and no one ever knows the difference. A quantity of soap is dissolved in hot water, and when cold is beaten to a stiff foam, with a few drops of oil of poppies, until it is stiff and just like whipped cream. It is then sweetened and beaten again and used like real cream. It is not very healthful, and so the Paris Board of Health has ordered that it be stopped, and the chemists are busy finding all the confectioners who use the soap mixture in their candies and cakes.
