By No Means Convinced,

A patient in an insane asylum imagined himself dead. Nothing could drive this delusion out of the man's brain. One day his physician had a happy thought, and said to him: "Did you ever see a dead man bleed?" "No," he replied.

"Did you ever hear of a dead man bleedin ?" "Do you believe that a dead man can bleed?"

"Well, if you will permit me, I will try an experiment with you and see if you bleed or not." The patient gave his consent, the doctor whipped out his scalpel and drew a little blood. "There." he said, "you see that you bleed; that proves that you are not dead."

"Not at all," the patient instantly replied, "that only proves that dead men can bleed."
