

PULP WOOD.—Large shipments of pulp wood are being made this fall from Bear River to Baltimore. The American schooner Geo. H. Mills loaded 200 cords last week.

COUNTY COURT CHAMBERS.—Yesterday morning the matter of Robertson vs. Storer (Kent County) came up for judgment at chambers before Judge Wells. This action was tried at the last term of the Kent county court and a verdict found for the defendant. A new trial was moved for. Among the many grounds was the improper reception of evidence under a commission to take evidence in the United States. A new trial was granted without costs. J. D. Phinney, Q. C., for plaintiff and R. B. Smith for defendant.—Times.

C. M. B. A.—A Branch (No. 155) of the Catholic Mutual Benefit Association was organized in Richibucto on Saturday evening last, by Dr. L. N. Bourque, of Moncton, N. B. District Deputy. The meetings will take place once a fortnight, on Tuesday evenings. The following officers were appointed:—

President, Dr. Thos. J. Bourque; 1st Vice-President, Arthur E. O'Leary; 2nd Vice-President, Basil E. Johnson; Financial Secretary, R. O'Leary; Recording Secretary, Ed. McInerney; Assistant Recording Secretary, David Daigle; Treasurer, Auguste Leger; Marshal, Fred O'Brien; Guard, James Legoo.

BURNED TO DEATH.—A very sad accident attended with fatal results, occurred at Edmunston, N. B., on Monday night last. The 12 year old daughter of Mr. Thos. Chasse went upstairs to prepare for bed on the evening referred to. She carried in her hand a medium sized lamp, which exploded the moment she entered the bedroom. Her clothing being saturated with oil she was immediately enshrouded in flames, and her father who heard her screams rushed to her assistance and disrobed her but not before she had been almost burned to death and his hands and arms so badly scorched that the skin all blistered and the nails dropped from his fingers. She died shortly after.

EQUITY COURT.—James D. Irving vs. Thomas McWilliams was taken up Tuesday afternoon. This is a dispute as to timber license between the parties, who are millowners in Kent county. Mr. Teed and the Attorney General for the plaintiff and J. D. Phinney, Q. C., and A. A. Stockton, Q. C., for the defendant. The plaintiff alleges that he and the defendant went to Fredericton to attend a sale of the right to cut lumber, etc., on the crown lands in dispute in 1893; that both desired these particular lots; that they entered into an agreement whereby the defendant was to purchase the right to cut in his own name, take out the license, and that the said lands should be divided between them, each paying a share of the license fee, but that the defendant refused to carry out this agreement. The defendant disputes this agreement. He admits that a certain agreement was made, but the agreement as he puts it is different from the plaintiff's.—Globe.

BRITISH LUMBER MARKET.—The London Timber Trades Journal of Sept. 7th says that at the Surrey Commercial Docks spruce presents a favorable position, the present stock of deals being less than it was a month ago by 34,641 pieces. Ends, however, have increased by 132,072. With regard, however, to the diminution of deals there is, it adds, a large overside delivery of spruce, consequently the dock figures do not index truly the state of the supply of whitewood. At Cardiff trade was quiet, recent arrivals noted being the Arracan from St. John and Joseph Rane, from Miramichi. The Liverpool situation is thus summed up: "The slight improvement in business we have recently experienced in our trade here, and which has been noted in our columns from time to time, still continues. We are gratified to find that this note is received in some of the Liverpool brokers' circulars. The monthly statistics show with a few exceptions what a steady demand has existed during the present season. The import has, however, been more than sufficient for the wants of the market, and stocks generally are ample."

—Retail merchants frequently get the idea in their heads that because they sell things that the public must have and sell on a low margin, advertising would not help them any. There never was a more erroneous notion. Judicious advertising will increase any legitimate business and the grocer, the dry goods merchant, any one who has anything to sell, and who does not use his local paper and in other ways keep himself before the public, is neglecting one of the most powerful aids he can find in his efforts to attain success.

—S. Kerr & Son, proprietors of the well known St. John Business College and Shortland Institute, have issued a neat and interesting catalogue for 1895-96. This college has a substantial reputation as having sent out numerous young men perfectly competent in the courses provided. The course of study is as full and broad as any other college in Canada, and the sole aim of the proprietors is to give the students a thorough conception of every detail in business life. The method followed embraces both theory and practice both essential to success. In addition to class work instruction is largely individual and any student who desires a thorough business training would do well to peruse the catalogues circulated, or which can be obtained on application. See advertisement in this issue.

—There are men in every town who do not advertise. You may not know them. Very few do. They call themselves business men, but they are not. Everybody who is in business is not a business man by any means. You find the man who does not advertise in the dark side street, with dingy surroundings and a general air of dilapidation hanging about him. He is not really in business. He is only hanging to the ragged end of the business world. A great many men who spend money for advertising do not make it pay. They would not buy a farm and dump a lot of wheat or corn on its uncultivated surface with the expectation of reaping bountiful crops but they treat the advertising space they buy in just that way, and then wonder why the harvest doesn't come.

—A public meeting of the parishioners of St. Marys Episcopal church will be held in the parish church, Tuesday evening 8th October for the purpose of electing a Rector for said parish.

—Mr. Schilde, the pulp mill expert, has been in town for some days looking over the ground. Canadian Cheese.

TORONTO, Sept. 12.—The following is the "Evening Telegram's" special cable, dated London, Sept. 11: "Several morning newspapers to-day contain an authorized statement from the Canadian Government that the statement published in the North British Agriculturist that a portion of the Canadian cheese shipped to the Old Country market is made of oleomargarine, is absolutely without foundation. At Warrington, which imports about one-fifth of the Canadian cheese exported to Great Britain, it is affirmed that they have never found a box of filled cheese in all their consignments. Importers there urge closer supervision of all through shipments of cheese from the United States as a remedy as the filled cheese to which the North British Agriculturist refers, is supposed to have come from the United States via Canada."

The "Bicycle Face."

The serious expression noticed on the faces of wheelmen may be easily accounted for. While the pastime is most exhilarating and delightful it cannot be denied that it is attended with constant liability to accident, augmented by the almost criminal indifference to the rights and privileges of bicyclists on the part of the general public. Drivers, pedestrians, small boys and other evilly disposed persons in city and country manifest an unaccountable aversion to the wheel and its rider, and for this reason he is on the alert and constantly anxious lest he should be the cause of harm to others as well as himself.

A Fine Point.

A man has been fined \$3 for throwing a kiss at a woman who did not care for it. It would be a nice question in law if she really got it, and if she did not get it why should the man pay for it? And if \$3 is the price of a thrown kiss, what is one worth at short range, with the usual squeeze added?
