

Tes and Coffee Drunkards.

use of tea and coffee often develops a

which are evidently the result of chronic

poisoning. Dr. Arlinge, an English phy-

sician, reported a number of years ago,

that there were thousands of tea-drinkers

in the British Islands. An Australian

physician has made the same observation

with reference to the people of Australia.

Dr. Kimball, an intelligent practitioner of

New Hampshire, reported an epidemic of

a strange neurosis among the factory girls

employed in a large factory of which he

had the medical supervision, which upon

thorough investigation was shown to be

due to tea-chewing, which had become al-

most universal among the girls. Many

of them were disabled from duty by

strange mental and choreic symptoms, but

them to a most careful examination each

day, when they entered the factory, to

prevent their continuing the habit. Two

few years ago, for being drunk and dis-

that they had taken no alcoholic liquors

of any sort, but were addicted to tea-

The "Standard" Delineator has become so familiar that it hardly seems necessary to do more than indicate the ly illustrating the conclusion that many good things to be found in its pages. It medical men are fast reaching regarding celebrates the New Year by an unusually tea and coffee, which is well expressed by interesting number. The colored plates Modern Medicine when it asserts that "tea are a fine example of what can be done in and coffee are medicines, not foods, and, lithography when directed by a real artist. if used at all, should be used as drugs in Stories abound, and brightly written pages definite and carfully prescribed doses, and are devoted to Dancing, Furs, Fancy-Work not as common beverages." We quote Home-making, and New Year customs the an article in the magazine just mentionworld over ; chatty editorials amuse the ed some facts that go far to uphold this readers of "Among Ourselves," and Flori. view : culture is, as usual treated by the master | "An eminent Chicago physician recenthand of Mr. Eben Rexford. There are ly remarked to the writer," 'Thousands pages of Fancy-Work for Little Fingers, of persons are unconsciously suffering from and others for big ones, including a further the pernicious effects of the use of tea and number on Leather Work. Dainty calen- coffee.' The investigations made by Mordars are described and illustrated and in ton, of Brooklyn, and a number of other the pages on 'How to be Beautiful" the neurologists have clearly shown that the hygiene of the skin is discussed. In addition there are some fifty pages of new special form of neurasthenic symptoms designs for my 1: dy's wardrobe, and excellent articles on Millinery and Cookery.

THIS ONE THING I DO

South American Kidney Cure will **Relieve Distressing Kidney Trouble** in Six Hours.

The symptoms of kidney trouble are so manifest and painful that no description of them is needful in the public print. All who are afflicted know how much distress and inconvenience is caused them. The important matter is to know how to secure relief and a radical cure. The particular work of South American Kidney Cure is to give the needed relief. It dose not undertake to do anything else, but no Medicine has been discovered that so completely and quickly cures kidney disease of what ever kind. The world they had become so addicted to tea-chewhas reason to be joyons that the discover- ing that it was found necessary to subject er of this great remedy saw the light of day. Sold by W. W. Short.

LONDON, Dec. 14 .- A telegram from Odessa reporting the enlargement of the formidable Russian Black See fleet and orderly. On investigation it was proven the making of it ready for any contingency of war lends interest to an interview that is published here with an English engineer chewing. who has long been supervising Russian "Professor Virchow, of Berlin, is crewarships in the Black Sea. When asked dited with saying: "We have at last atsians do not know their work. They spoil weak machinery, are unable to make repairs and allow the steering and other gear to rust. He added that if the Russian navy had really to fight it would go to pieces, the engineers not understanding the machinery of which they have charge. The Black Ses fleet is rotting for want of paint. The officers steal the money that is supposed to be expended for paint, and the bottoms of the ships are badly corroded. The water of the Black Sea has a reculiar corroding action on copper. The vessels ought to be painted periodically. but as a matter of fact they are seldom so treated. It takes four years to fit out a Russian ship after she is delivered, the Russians are so slow and such thieves. It is to nobody's interests to hurry. The Black Sea fleet is formidable only on paper, and is not fit to go anywhere.

We have quoted several extracts recent-DEC. 17 .- Mrs Thos, McPherson and her two daughters, the Misses Jennie and Edna, were to Mortimore a few days last week, while there they were the guests of Mrs. McPnerson's parents, Mr. and Mrs. Thomas Atkinson,

Christians in Turkey.

A little historical resume is perhaps useful in helping one to arrive at a due appreciation of the present difficulties, writes the correspondent of the London News from Beyrout : The Druses, while hating the Christians, have always fretted under and resented the Turkish rule. The knowledge the Porte was in a shaky condition prompted them to rise once more, and for a time, at any rate, they have succeeded in driving the Ottoman authorities out of the Hauran. A war of extermin-Mr. Hiram Legoof returned from ation is now being waged against them. They will fight bravely, tenaciously, but they will be overcome by mere numbers. It is difficult to get any authentic information about what is happening in the interior. The Arabic press dare publish nothing, and it is unwise to discuss the situation with the Syrians. All that is general knowledge is that there is revolution in the Hauran, and that soldiers are being sent to quell it. I have had an opportunity of gaining the opinions of men with a long experience of Syria and Turkish government, and although it would be foolish to say anything likely to create ward Warman, got his foot hadly cut last | a panic, the fact is not to be ignored that Europeans throughout Syria and Palestine We were sorry to hear that Miss Lizzie are fully convinced the drafting of so many troops into the country has a purpose besides the subduing of the Druses. Ever since the trouble about Armenia commenced, Turkish soldiers have been sent into Syrian towns. As the erisis became acute, more and more were sent. Then came the order for the calling out of reserves and the press-ganging of the people from the hillsides and the plain. A fortnight ago all this commotion was,

why Russia was obliged to employ large rived at the truth that caffein (the active numbers of English engineers, he said Rus- principle of tea and coffee) is nothing more or less than a strong stimulant, and, taken in large quantities, a poison, like brandy." Roberts, of England, has shown the pernicious effects of tes and coffee upon both starch digestion and digestion of proteids."

The latest study of the subject, and a most careful one, has been made by two French physicians, Drs. Gasne and Gilles de Tourette, whose report on the subject to the Society of the Hospitals of Paris describe at great length and in detail the symptoms of what they term "chronic intoxication" by coffee, We quote a few paragraphs from a translation in The Mettical Week:

"Caffeic dyspepsia resembles closely alcoholic gastritis, being characterized by phiegm in the morning, pain in the epigback, coated tongue, distaste for solid CHRISTMAS AND astric ragion, with radiation toward the food, etc.

"The most important symptoms, however, involve the nervous system: there is insomnia, or sleep is accompanied by issued by all Agents of this Railway from frightful dreams; when the patient stands unright he suffers from a sensation of emptinese of the head, and frequently mencing not later than 7th January 1896 from vertigo.

and thigh are affected by painful attacks of cramps, especially at night, which contribute towards making sleep inpossible?" The authors add that with cessation of the use of coffee the symptoms subside. being much less persistent than those of Railway Office Moncton. alcohol-poisoning.
