A Tragedy Recalled.

THE STORY OF A WOMAN WHO HAS SUFFERED DEEP AFFLICTION.

Intense Mental Strain and Sleepless Nights Brought Her Almost to the Verge of the Grave—Help Came When Hope Had Almost Fled.

Mrs. Sarah Wood, widow of the late Alex. Wood, of North Elmsley, Lanark Co., has had more sorrow than usually falls to the lot of human beings, and it is no wonder that, under the intense mental strain, she was completely prostrated, and her friends are rejoicing with her that she has again been restored to health. To a reporter she told the following story:—"Until about three years ago I had always been in good health, except for occasional spasmodic headaches which had bothered me for some years. I am now sixty-three years of age, and my troubles came as much by mental anguish and sleepless nights as by overtaxing my physical system. Two years ago last August my son, W. J. Wood was killed on the C. P. R. in a collision, and his lifeless, mangled body was brought home. Six weeks later my sister, Mrs. Lucky, of Kitley, was foully murdered. During those days I was taking care of my youngest daughter, Mrs. O. Bissell, near Merrickville, who was ill with consumption and who died four months later. Few people have been called upon to undergo so much affliction, and with sleepless nights and days of labor, I became reduced almost to a living skeleton. In the fall of 1894 I was obliged to take to my bed, where I lay for several weeks hovering between life and death. During this time I was under the care of a doctor, but his treatment did not help me much. My head now continually troubled me and a severe pain in my back, just above my left hip, caused me great agony. I had heard a great deal about Dr. Williams' Pink Pills and determined to give them a trial. Before the second box was entirely gone my headache disappeared and I found myself growing stronger, and after taking the pills for a time longer, the pain in my back disappeared also. I then felt so well that I decided to visit another daughter who lives near Merrickville, determining to continue taking the Pink Pills until thoroughly restored. In passing through Smith's Falls, I procured more pills, but found afterwards they were a counterfeit, as I did not then know that they were not sold in bulk. The result was that my old infirmities began to return and I began to mistrust that the pills were not genuine, and sent into Merrickville for more. A comparison soon showed that, while both pills were colored Pink, the ones I had got in Smith's Falls were spurious, for they were not exactly the same shape and did not look the same when the two were compared. As soon as I began the use of the genuine Pink Pills I began to grow better and after the use of a few more boxes, found myself entirely cured, and I am now enjoying as good health as ever I did in my life. I believe that if it had not been for Dr. Williams' Pink Pills I would have been in my grave, and I am glad to give my testimony, hoping that some poor sufferer may be made well as I was.

Mrs. Wood's unfortunate experience with imitation Pink Pills make it necessary to again impress upon the public that Dr. Williams' Pink Pills are never sold in bulk, by the dozen, hundred, or ounce, or in any shape except in the company's boxes, every one of which is enclosed in a wrapper printed in red ink, bearing the full trade mark, "Dr. Williams' Pink Pills for Pale People." If these Pills are offered in any other form, even if pink in color, they are imitations and should be promptly refused. Dr. Williams' Pink Pills cure when other medicines fail. Imitations are worthless and may be dangerous to health.

Killed by Tobacco.

The Halifax Herald says: Word has been received from Central Grovet, Long Island, of the sudden death of Benjamin Powell. Mr. Powell had been enjoying his usual health and was working about his place all day Saturday and at 6 o'clock started to bring his cows from pasture; not returning at dark a search was made and his body was found about 40 rods back of the house. He was lying partly on his face with his arms extended as if he had fallen and never moved. The coroner's jury rendered the following verdict: "The deceased came to his death from heart disease which to our minds was due to the excessive use of tobacco." Mr. Powell was 56 years of age and had been an excessive user of the "weed" for a great many years. Of late years he has been smoking a half pound a week of the variety "Napoleon." Realizing a few months ago that it was hurting him, he tried to break off the habit, but was unable to abstain for a very long period.

JEALOUSY THE CAUSE.

A German Shoots a Thirteen Year Old Girl While en route to school.

OSTERVILLE, Mass., June 10.—Lizzie, the thirteen year old daughter of Wm. Coleman, and a bright school girl of this place, was shot and instantly killed by Henry Lodtko, a German laborer, to-day. Her brother, aged fourteen years, who attempted to protect the girl, was fired at twice by the murderer, but both bullets went wide. Lodtko then placed the revolver which he had used against his own temple and fired, killing himself instantly. Jealousy on the part of the man, who was about forty years old, for associating with lads of her own age, is thought to have prompted the act. Lodtko has been employed in this vicinity for about three years and has always been on friendly terms with Mr. Coleman, a hard working farmer. The German had shown a great liking for Lizzie Coleman, but recently had noted signs of displeasure at some slight attentions shown the girl by her boy school mates. This became especially marked, when, not long ago, Lodtko threatened to shoot a thirteen year old lad living near the Colemans, because he had walked home from school with Lizzie. At this, not only Mrs. Coleman, but her husband and the girl herself became alarmed, and it was decided that Charlie Coleman, her brother, should accompany her to and from school.

In pursuance of this plan brother and sister were together this morning. They had reached a point about 500 yards from the house, when Lodtko suddenly appeared before them and came threateningly towards Lizzie, and pointing a revolver directly at her, fired. The girl had tried to shield her face by holding her hands before it. The bullet passed through both hands and inflicted a flesh wound in the face. Charlie bravely stepped between his sister and Lodtko, which so enraged the latter that he fired twice, almost point blank at the boy, but neither shot was effective, and the lad and his sister started to run towards home together. Lodtko sprang forward, and rushing up behind the girl, he sent a bullet into the back of her head, killing her instantly. He then placed the smoking muzzle to his own head and discharged the remaining bullet into his brain, falling dead in his tracks.

Mushrooms.

There is a French story of some travelers in Africa who, while on an exploring expedition, ran out of supplies. By chance they came upon a native hut, but it was empty and the only visible edibles in it were several strings of mushrooms suspended from the rafters to dry. For lack of anything better or more substantial, they stewed these and made a meal of them. After a while the owner of the hut, who was a powerful native chief and warrior, returned from a hunting expedition and having greeted the explorers in a friendly manner, set up a wild howl of despair.

"What is the matter?" asked the explorers.

"They are gone! My evil spirits have stolen them," wailed the chief.

"What are gone?"

"Those! those!" shrieked the chief, pointing to the cut cords on the rafters.

"Why, no evil spirit took them," said the explorers. "We ate them."

The chief seized his stomach in both hands and rattled the bones inside the skin. "Ate what?" he gasped.

"Those dried mushrooms,"

"Oh! suffering Mahomet," roared the warrior, or words to that effect; "why, you fools, you've eaten the ears of all the enemies I killed in battle!"

ANOTHER DISCOVERY.

Of Interest to Bicycle Riders.

A well known bicycle rider has made a discovery that will be good news too all who locomote on the wheel. He says: "Since I first began to ride a wheel, which is several years ago, I have been subject to more or less chafing and irritation. Sometimes when heated the itching inside my legs would be so severe that I would feel compelled to forego riding for a time. Nothing that I tried did any material good until my attention was drawn to an advertisement of Dr. Chase's Ointment for all itching of the skin. I tried it and almost from the moment it touched the skin the itching stopped. I also find its occasional use prevents chafing. Further evidence of the efficacy of this preparation is given by Chas. Roe, foreman, Central Press Agency, Toronto, who was troubled with Itching Skin of the most aggravated kind. When the skin became heated during sleep from too much clothing, would wake up with absolute pain from digging into the flesh with his nails. Chase's Ointment gave relief from the first application and permanently cured. Price 60c."
