To Any One Who Tries Dr.

Chase's Ointment for

Itchy Piles

Saying, it Will Not Cure or Relieve.

Itching piles is an exceedingly painful and annoying affliction, found alike in the rich and poor, male and female. The principal symptoms are a severe itching which is worse at night when the sufferer becomes warm in bed. So terrible is the itching that frequently it is impossible to procure sleep. Often the sufferer unconsciously during sleep scratches the parts until they are sore, ulcers and tumors from excessive moisture is exuded. Females are peculiarly affected from this disease, causing unbearable irritation and trouble. These and every other symptom of Itching Piles or irritation in any part of the body are immediately allayed and quickly cured by Chase's Ointment. It will instantly stop itching, heal the sores and ulcers, dry up the moisture.

Spring.
At length the winter's surly blasts are o'er;
Array'd in smiles the lovely spring returns;
Health to the breeze unbars the screaming door,
And every breast with heat celestial burns.

Again the daisies peep, the violets blow;
Again the tenants of the leafy grove,
Forget the pattering hail, the driving snow,
Resume the lay to melody and love.

In the Spring
Nearly everybody needs a good medicine. The impurities which have accumulated in the blood during the cold months must be expelled, or when the mild days come, and the effect of bracing air is lost, the body is liable to be overcome by debility or some serious disease. The remarkable success achieved by Hood's Sarsaparilla, and the many words of praise it has received, make it worthy your confidence. We ask you to give this medicine a trial. We are sure it will do you good. Read the testimonials published in behalf of Hood's Sarsaparilla, all from reliable, grateful people. They tell the story.

A SWORN STATEMENT.

MR. G. H. KENT SWEARS TO THE DETAILS OF HIS RECOVERY.

An Interesting Document—A Complete and Concise Description of His Trouble—Rumors Discredited—His Story Thoroughly Confirmed—A Remarkable Cure by Valuable Agency.

From Ottawa Free Press.

Owing to the fact that a certain amount of discredit has been thrown on the statements recently published in the Free Press with regard to the recovery of Mr. G. H. Kent from death's door through the agency of Dodd's Kidney Pills, a representative of the paper has obtained from Mr. Kent a sworn statement with regard to the particulars of his disease and recovery. The facts are sufficiently startling to warrant this additional substantiation. Following is the document:

114 Cambridge Street,
Ottawa, Ont., March 2, 1895.

I, George Henry Kent, resident at 114 Cambridge street, Ottawa, and employed as a printer in the British American Bank Note Printing Company, in the said City of Ottawa, do solemnly declare that I consider it a duty to myself and to my fellow men generally to make a declaration as to the efficiency of Dodd's Kidney Pills.

1. That I found them in my terrible case of Bright's Disease from which I suffered for almost one year of the greatest medical value. I can say confidently and assure anyone interested or a sufferer, that I positively owe my life and present excellent health to the results brought about by their use. I was taken sick and confined to my bed on December 28th, 1893, and was successively treated for La Grippe then Pleurisy, followed by Kidney trouble and latterly Bright's Disease. I lost the use of all my limbs, my entire body became swollen to a terrible size, and my skin became as hard and similar to leather, the pores all having closed up, and I suffered the most agonizing pain. I was subject to periodical spells of utter prostration and insensibility to a state of absolute coma. I was also a victim of dangerous convulsions, in which my facial expression and other muscles would become severely contorted and tense.

2. My regular physician attended to me and though medical consultations were held over my case by two city doctors, nothing could be done. My case grew gradually worse, and latterly was given up as hopeless. My wife, friends and neighbors were certain from what they saw and were told by the visiting doctors that I should die in a very short time.

3. My wife was casually reading a newspaper about this time and saw a description of an exact similar case in which a patient gave testimony of the relief and cure that had been effected on him by Dodd's Kidney Pills. I started to take them right away, and from the first pill I discovered a change for the better. After the first box I was wonderfully improved, and at the end of the fourth I was sure I was to get well again. I continued taking them until the seventeenth box, and I can now positively declare that I am perfectly cured and able to do a day's work with any of my comrades in the shop, and Dodd's Kidney Pills undoubtedly cured me, because from starting to take them I took no other medicine whatever.

And I make this solemn declaration conscientiously believing the same to be true and by virtue of the ACT RESPECTING EXTRA JUDICIAL OATHS.

DECLARED before me at the city of Ottawa, in the county of Carleton, this 16th day of February, 1895.

—“Do you know,” said the Cheerful Idiot, “that it is the easiest thing in the world to tell whether a man is going out on a journey or returning by the way he carries his valise?”

“I never thought of that,” said the youngest brother. “What is the difference?”

The Cheerful Idiot settled himself a little firmer in his chair and gloated for a moment before answering.

“It is just this way,” he went on, “When a man is going away he carries his valise toward the railroad station, and when he is coming back he carries it in the other direction.”

The torpedo boat is the most destructive weapon of modern naval warfare. Great Britain has one that makes thirty miles an hour and the largest and strongest vessel in the world would be a mere toy in its hand. The work of torpedo boats in the harbor of Wei-Hai-Wei shows how destructive the boats can be made, and how almost impossible it is to guard against their attacks.

“You say you think your sister is interested in me, do you?” said the caller, delightedly. “Now what makes you think that?”

“I heard her last night,” answered sweet little Ellen, “telling me she wondered where your manners were.”

That nursery tale which has charmed generations of children and their elders, known as “Blue Beard,” was written by a French author. The original of the character of Blue Beard was a Marshal of France, who lived in Brittany, and who was charged with murdering several wives and over 100 children. Being convicted of sorcery, he was burned. A singular peculiarity of his hair and beard was its inky glossiness, which in certain light appeared of an indigo tinge and so won him the appellation which has rendered him immortal.

Miss (angrily)—Bridget, I find that you wore one of my décolleté gowns to the Hack-Drivers' ball last evening. It's the worst piece of impudence I ever heard of. You ought to be ashamed of yourself!

Bridget (meekly)—O! was, mum; O! was!—and me young mon said, a-if O! iver wore sich an indecent dress in public agin, he'd break our engagement.

Mrs. Scribbler (impressively)—“Whatever you do, never, never marry a newspaper man.”

School Chum—“Why not?”

“I married one, and I know. Every night my husband brings home a big bundle of newspapers from all over the country, and they most drive me crazy.”

“The newspapers?”

“Indeed they do. They are just crammed with the most astonishing bargains in the stores a thousand miles away.”—New York Weekly.

Coroner Maerr was summoned to No. 45 Baum street, Cincinnati, Wednesday morning. He and Constable McNight entered a bedroom in the house where a young woman stood leaning with both elbows on a dresser looking at herself in the mirror. They spoke to her, asking her where they would find the corpse, but a neighbor who accompanied them said: “She is the corpse.” The woman had gone to the mirror, and while looking at herself, had suddenly stiffened in death. Her name was Annie Shannon. She was twenty-three years old and heart disease was the cause of her death. A four-year-old boy was playing on the floor when the coroner arrived.

GRIPPE IS WITH US.

SEVERAL FAMILIES IN THE CITY ARE AFFLICTED.

Some Pointers as to the Manner in Which it should be Treated.

There are numerous cases of La Grippe in the city. There are some individual cases, and cases where whole families are afflicted. Every day or two one misses a familiar face and is told that the person is laid up with Grippe.

This disease should be grappled with from the start. It is of an epidemic nature and is readily contracted by those in a weak or debilitated condition. One of the worst features is that it leaves its victims, those who survive, in very many cases so prostrated that they easily fall a prey to other forms of disease. This is true even where a person has only a slight attack of grippe. Of course much depends upon the care that is taken. Unnecessary exposure and the failure to take proper steps to restore the system to health are chiefly responsible for the ills that follow. As soon as the symptoms appear the patient should take a dose of Hawker's Liver pills and continue taking them from time to time as directed. Hawker's balsam of tulo and wild cherry should be freely taken to break up the cold, soothe irritated throat and chest and relieve the cough. These simple remedies, with ordinary care would cure the grippe. Hawker's balsam of tulo and wild cherry is especially helpful in the case of children, who are very fond of it and take it freely.

For persons who may have had a bad case of grippe and are badly run down, nervous and depressed, there is no remedy can surpass a course of Hawker's nerve and stomach tonic and Hawker's liver pills to restore the system to its former vigor. Sufferers from La Grippe will notice that the tongue is furred and coated, indicating debility and a disturbed state of the stomach and liver.

It is essentially necessary therefore before commencing tonic treatment, in order to obtain its full beneficial results to regulate the stomach and liver by the use of Hawker's liver pills, which are unequaled as a stomach and liver regulator. Hawker's nerve and stomach tonic is a certain cure when faithfully used for all diseases arising from nerve exhaustion, weakened or impaired digestion, or any impoverished or impure condition of the blood, such as nervousness, weakness, nervous headache, sleeplessness, neuralgia, loss of appetite, dyspepsia, hysteria and the prostrating effects of La Grippe or any nerve weakness of heart or brain arising from worry, overstrain of mind or body, or excesses of any nature. Hawker's nerve and stomach tonic and Hawker's liver pills can be obtained from all druggists and dealers. Tonic 50 cents a bottle or 6 bottles for \$2.50. Pills 25 cents a box. They are manufactured by the Hawker Medicine Co. Ltd., St. John, N. B., and New York City.

The Disease Disappears in Three Weeks by the Use of "B.B.B."—Letter from Manitoba Fully Describing it.

DEAR SIRS,—During the winter of 1892-93, I was covered with Pimples on the inside of my right leg between the knee and the ankle. As I never had anything of the kind before I was anxious about it, and sought medical advice, but getting no relief from the doctor I tried a bottle of B.B.B., applying some of it to my leg as well as using it internally, and to my surprise the nasty disease, whatever it was, disappeared within three weeks, and I am thankful to say it has never reappeared.
