That, having regard to the prosperity of Canada and the United States as ad- to speculators, upon reasonable terms of joining countries, with many mutual interests, it is desirable that there should be the most friendly relations and broad and liberal intercourse between them ; That the period of the old reciprocity

treaty was one of marked prosperity to the British North American colonies; That the pretext under which the Gov-

That no sincere effort has been made by them to obtain a treaty, but that, on the contrary, it is manifest that the present Government, controlled as they are by monopolies and combines, are not desirous of securing such a treaty;

That the first step towards obtaining the end in view is to place a party in power who are sincerely desirous of promoting a treaty on terms honorable to both countries;

A CURIOUS PROPHECY.

Over 40 years ago an old German hermit published in a Bavarian paper a curious prophecy. In it he foretold the Austrian Russian and the Franco Prussian wars, the death of the Pope Pius and the his host and vouched for its correctness in Turco-Russian debate at arms. He said that Germany would have three emperors in one year before the end of the century and indicated the death of two United States presidents by assassination. All these things have come to pass.

In the same article he said that when medical man of high standing and extensive the twentieth century opens great seismic disturbances will take place which will the mind may be made once more cheercause the submersion of New York city and the western half of the city of Havana Cuba is to break in two, while Florida and Lower California are to suffer total extinction. SPRING HAS COME.

What a feeling of relief comes over me to realize that the winter is past.

NO. 37

"May is here, the world rejoices."

Says the old school song, and our hearts echo the words. But all are not able to rejoice. Some have met with sorrow in the dismal winter days, and the memory clings to them. Others have lost health and are therefore unable to "rejoice with them that do rejoice." For the winter and early spring tell upon the health, and there is need of something to cleanse and invigorate the physical system, and that ful and hopeful and strong to grapple with life's problems and duties. In Hawker's nerve and stomach tonic and Hawker's. liver pills is found the most effective combination for cleansing and toning up the vstem. They form the best of all spring medicines. But when I rose with courage frail, The goat had vanished, head and tail; And I was styled by one and all The liviliest Mason in the hall.

### LIBERAL PLATFORM.

### Adopted by the National Liberal Convention, Ottawa, June, 1898.

We, the Liberal party of Canada, in convention assembled, declare :

1.-FREER TRADE-REDUCED TAXATION.

That the customs tariff of the Dominion should be based, not as it is now, upon the protective principle, but upon the requirements of the public service ;

That the existing tariff, founded upon an unsound principle, and used, as it has been by the Government, as a corrupting agency wherewith to keep themselves in office, has developed monopolies, trusts and combinations;

It has decreased the value of farm and other landed property ;

It has oppressed the masses to the enrichment of a few;

It has checked immigration ;

a member of the Government, with one It has caused great loss of population ; It has impeded commerce ; with the other.

It has discriminated against Great Britain.

In these and many other ways it has occasioned great public and private injury, all of which evils must continue to grow in intensity as long as the present tariff system remains in force.

That the highest interests of Canada demand a removal of this obstacle to our country's progress, by the adoption of a sound fiscal policy, which, while not doing injustice to any class, will promote domestic and foreign trade, and hasten the return of prosperity to our people;

That to that end the tariff should be re-

3 .- AGAINST THE GERRYMANDER-COUNTY Scotland Yard force to assist them, and by lic. BOUNDARIES SHOULD BE PRESERVED.

That by the Gerrymander Acts, the electoral divisions for the return of members to the House of Commons have been so made as to prevent a fair expression of the opinion of the country at the general elections, and to secure to the party now in power a strength out of all proportion greater than the number of electors supporting them would warrant. To put an end to this abuse, to make the House of Commons a fair exponent of public opinion, and to preserve the historic continuity of counties, it is desirable that, in the formation of electoral divisions. county boundaries should be preserved, and that in no case parts of different counties should be put in one electoral division.

9.-THE SENATE DEFECTIVE-AMEND THE CONSTITUTION.

The present constitution of the Senate is inconsistent with the Federal principles in our system of government, and is in other respects defective, as it makes the Senate independent of the people and uncontrolled by the public opinion of the country, and should be so amended as to bring it into harmony with the principles of popular government.
