RICHIBUCTO, N. B., JUNE 27, 1895.

DEATH OF SENATOR BURNS.

It gave a severe shock to a wide circle of personal and political friends to learn of the demise of Hon. K. F. Burns, which occurred at Bathurst on Sunday afternoon. The deceased senator was yet in the midst of activity and usefulness when his career was thus cut short. He was born at Thomastown, Tipperary, Ireland, 8th January, 1842. He spent his early boyhood in the land of his birth, but on coming to America his education was completed at the Roman Catholic schools in Halifax and St. John.

Mr. Burns began what was destined to be an eminently successful business career, as a clerk in St. John, and later removed to Chatham. In 1861 he removed to Bathurst to open up a branch there for the business of Mr. John Burke of Chatham. This he bought out in 1863. His subsequent business career was first in partnership with his brother, P. J. Burns and his brother-in-law, Samuel Adams, under the firm name of Burns, Adams & Co., and this being dissolved, in 1880 the name and style of K. F. Burns & Co. was adopted. Subsequently this was merged in the St. Lawrence Lumber Company, with Mr. Burns as managing director. By his extensive business throughout the county and by his promotion of the Caraque Railway and other projects he greatly aided in building up and advancing the County of Gloucester.

It was but natural that he should have been called to the front and elected to parliament by a grateful people. He was first chosen to the provincial legislature in 1874. In 1882 and again in 1887 and 1891 he was elected to the House of Commons, being called to the senate in 1893. In all of these positions Mr. Burns proved himself a useful and prudent representative, a careful guardian of his county's interests, and one of the most influential of the public men of our province.

THE NEW SENATOR.

For some time past there have been three vacancies in the New Brunswick contingent of the senate of Canada caused by the demise of senators Botsford, Glasier and Boyd. The names of a number of prominent persons have been from time to time mentioned in connexion with one or other of these vacancies, but so far none of these expectants have received promotion. It was also expected that probably all the vacancies in the senate would be filled at once, and this too turned out to be a delusive expectation.

Last week, quite to the surprise of many the appointment of Hon. George T. Baird to the senate was announced, unconnected with any other. The appointment is a good one in its way, both on the merits of the gentleman named and in a territorial sense. Mr. Baird is an "up-river man," who lives at Perth, in Victoria county, and carries on extensive mercantile and lumbering operations in that section. Hitherto there has been no senator from the western side of the province above Fredericton, and since the deaths of senators Odell and Glasier, Hon. Mr. Wark is the only senator residing along the St. John river above its mouth.

Hon. George Thomas Baird, the new senator, was born at Andover in 1847. In early life he was a school teacher, but later became a general merchant. In 1884 he was elected to the House of Assembly and in 1891 was appointed to the legislative council. On the abolition of the upper house he was again elected to the Assembly in 1892. His elevation to the senate will thus create a vacancy in the legislature. Mr. Baird is a Conservative and has been an influential supporter of Hon. John Costigan in federal affairs, as well as of the present provincial government.

WILL THERE BE A FALL SESSION?

There is a strong desire among the Quebec members of parliament, of both political parties, that the Manitoba school question should be definitely settled before the next general election. Not a few members from other parts of the Dominion than Quebec share in this desire, though they may not all be able to agree as to the mode in which a settlement can

be reached. The feeling of the majority of the Quebec contingent is that the government should at once introduce and carry through a bill to give effect to the remedial order, but on the other hand there is a strong feeling among moderate men that all other reasonable means for a fair settlement should be exhausted before the power of the Dominion is thus irrevocably thrown into the scale.

It will be noticed that in the answer forwarded to Ottawa by the Manitoba government there is a hint conveyed that a commission to take evidence as to the facts somewhat in dispute would not be unacceptable to the majority in that province. It may turn out that this opportunity for further advances toward a friendly settlement will be turned to account, and this would involve such delay as to render it impracticable to deal with the question in parliament during the current session, which is now approaching its close. In any case hasty and ill-considered action in a matter of so much delicacy and importance is of all things most to be avoided, but if there is to be further investigation, how natural it would be for those most interested to desire that parliament should have the opportunity to review the result before an appeal to the people is made. These considerations point to the possibility of a fall session, probably a short one, to be followed by the general election. At this writing we have no specific information on the subject, but a course of action will no doubt be decided upon within the current week.

Lord Roseberry has speedily reached the end of his term of power. His diminishing majority at last gave out altogether with the result that he tendered his resignation to the Queen on Saturday and Lord Salisbury was at once sent for by Her Majesty to form a new ministry.

Of the twelve senators appointed to represent this province at Ottawa in 1867, only three are living and but two retain their senatorial positions. Hon. David Wark and Hon. A. R. McLellan are the two of the remaining original senators. Hon. Peter Mitchell, it will be remembered resigned from the senate in the early years of the Confederation. On the accession of P. E. Island to the union in 1873, New Brunswick's representation in the senate was reduced from twelve to ten members. The death of Mr. Burns makes three senatorial seats now vacant. Hon. Messrs. Wark, McLellan, Dever, Lewin, Poirier, Snowball and Baird compose the present contingent of this province in the senate.

Father Michaud at six o'clock in the beautiful chapel of the Convent of the Immaculate Conception. The bridesmaid wore a pale blue crepon dress trimmed with white lace and pale blue ribbon, large cream hat, cream tips, lace and ribbon to match and wore white satin slippers.

At the station a large number of citizens were gathered and the bride and groom were given a hearty send-off amid showers of rice. They took the morning's express at Humphrey's mills for an extended tour through eastern Nova Scotia and Cape Breton. The bride was the recipient of many beautiful presents which your correspondent saw but neglected to note the names of the givers. Your correspondent joins with the people of Buctouche in wishing the young couple many years of happiness. They intend residing in Moncton.

Consumption Was Feared.

DEAR SIRS,—Over three years ago I was troubled with cough and really thought I would go into consumption. A friend advised me to try Hagyard's Pectoral Balsam, and one bottle gave me great relief. After taking four bottles I can truthfully say I have never had a cough since.

Kent County N. B. is well represented in Greenville. A number of families from there are living here and all seem to be doing well.

A certain individual in Bass River, N. B. has said that some of the families that recently left there and came to Greenville were half starving and would gladly come back if they could raise the money to bring them. In justice to myself and some of the folks from Kent, I wish to contradict that statement and tell him the people here from Kent, I wish to contradict that statement and tell him the people here from Kent are making a good living and are better able to get back if they wanted to go that they were to come. Every man has a right to live where ever he can do the best for himself and family. If that individual in Bass River would learn to "mind his own business" and less of other people's and have less to say about his neighbours—especially those across the border—he would confer a lasting favour on all concerned.
