

SERIOUS ACCIDENT.—Mr. Fred Mundle who lives at St. Nicholas River, fell from the loft of his barn on Thursday evening and broke his collar bone, besides receiving a bad shaking up. Dr. Ferguson rendered the necessary surgical aid.

SECOND TO NONE.—There is no question as to the benefit of a course of study at the St. John Business College. There are many graduates in this and other cities who can testify to the instruction received there, and it is a fact that these are all ardent friends of the institution. No better recommendation of any school can be presented than the ability of its graduates. Judged by this, Kerr's Business College is second to none in America.—St. John Record.

A BUTTER FACTORY FOR COGNAC.—Last week Mr. Michael McLaughlin, owner of the St. Joseph (Memramcook) Butter and Cheese Factory, and manager of the Buctouche Butter and Cheese Company, bought, at a very high price, from the St. Louis Butter Factory, over 1,000 lbs. of butter to satisfy the calls of his many customers. The parish of Dundas, Kent Co., wishes this successful gentleman to build a Butter and Cheese Factory at the Cognac Bridge, and it is understood that the new industry will be in operation early this spring with the prospect of a great success as the people of that locality are very enthusiastic. The province needs such enterprising young men in the interests of the farmers to forward the latent resources of the country.

DODD'S KIDNEY PILLS.—Among the proprietary medicines, Dodd's Kidney Pills are fast coming to the front. Judicious advertising would bring a medicine before the public, but its popularity would be short lived if it did not possess some real merit. Dodd's Kidney Pills seem to fill a long-felt want, i. e., a remedy for Bright's Disease and all kindred troubles. The public, quick to know a good thing when they see it, recognize in these pills a cheap, handy and efficient cure for many of the most dangerous and distressing complaints; and as a consequence, large quantities are being sold by our local dealers. Men and women, who through ill health scarcely know a day's happiness, have through their agency become strong and happy. Days and weeks, which had hitherto been spent in the most excruciating agony are now used to profit and enjoyment. Of the lives saved through the use of these pills, no estimate can be made. Truly the public have reason to feel grateful to the proprietors for having placed within reach of every sufferer, such a valuable remedy as Dodd's Kidney Pills.

"For fully two years, I suffered from rheumatism, and was frequently in such a condition that I could hardly walk. I spent some time in Hot Springs, Ark., and the treatment helped me for the time being; but soon the complaint returned and I was as badly afflicted as ever. Ayer's Sarsaparilla being recommended, I resolved to try it, and, after using six bottles, I was completely cured."—P. H. FORD, Quachita City, La.

THE
"NEW IDEA PATTERN"
NEW YORK.

We have been fortunate in securing the Sole Agency for St. John of the above Company's goods. As its name implies, it is an entirely new departure in the Pattern business, and the success of the venture has been phenomenal. As the success of "Munsey's," "a first class magazine at the people's price," so the "New Idea," a first class pattern at the people's price; as Munsey's among the magazines, so the "New Idea" bids fair to revolutionize the pattern business.

This Company has been organized but a little over a year and already their Patts. are being handled by business houses in some 300 cities in the United States, and the sale is almost doubling daily. The secret of this success is from the fact that the company employ the highest skill obtainable in getting up these Patts., ensuring perfect fit, economy in cutting and simplicity.

Before taking the Agency for these Patterns we corresponded with a number of prominent Dry Goods houses in New York and elsewhere, who replied that the "New Idea" Patts. were giving every satisfaction. Messrs. Jordan Marsh & Co., of Boston, have taken them up, and in writing us recommend them very highly. Hundreds of well known merchants throughout the U. S. are selling them, and many unsolicited testimonials are received daily by the makers speaking in the highest terms of the "New Idea."

THE PRICE. New methods of production and immense output have reduced the cost of manufacturing so that these Patts. will be sold in St. John at a uniform price, 15c.; about half what are asked for Butterick's.

For instance take one of the new Basque Patts.

Butterick price, 30c.
New Idea price, 15c.

We have now in stock newest designs of Skirts, Waists, Blouses, Jackets, Capes, etc., and in introducing the "New Idea" to the public, we do so with every confidence in their excellence.

The complete design book now ready; price 10c.
Monthly Fashion Sheets free on request.

Try the "New Idea" and save from 15c. to 30c. on each pattern. Endorsed by the "Dry Goods Economist," the best trade journal in the world.
