To a Child.

Let me tune a string
To thy life's young day
Now upon the wing,
Soon to fly away.
Let me lay a wreath
On thy golden hair,
Wishes on thee breathe
That thou'lt know no care,
Let thy treble tongue
Keep its golden tone,
Like a bell that's rung,
Echoing when done.
Let thy perfect eyes
Beam there love and light,
Tell the midnight skies
They are scarce so bright
Let thy crimson cheek
Bear its youthful bloom,
Till thou, maiden meek,
Passes to the tomb.
And when thou hast gone
Where we may not see,
Let thy soul live on
Through Eternity.

New Brunswick Legislature.

FREDERICTON, Feb. 12.—Dr. Stockton introduced a bill to aid in the collection of rates and taxes in the city of St. John; Mr. Dunn, a bill incorporating the Mutual Fire Insurance of Canada; Mr. Blair, amending acts relating to St. John Horticultural Association; Mr. Killam, incorporating the Moncton hospital.
Mr. Blair recommitted the bill securing to wives and children benefit of life insurance, Mr. Killam chairman.
Mr. Blair said he had intended moving an amendment to section 23, but as the opinion of the House seemed to favor the section above as it stood, he would only propose a very slight amendment to the section, which amendment would allow interest on the premiums in cases where creditors had been defrauded. This was considered satisfactory to both sides of the House.

After some other slight amendments the bill as amended was agreed to.
Mr. Killam recommitted the bill amending the law for supplying the city of Moncton with water. Agreed to with amendments and with an amended title.

FREDERICTON, Feb. 13.—The Legislature to-day by vote of 23 to 9 voted down Dr. Stockton's motion in favor of the one-man-one-vote principle.

The mover, in addressing the House said there had in the past been strong opposition offered to every move for extension of the franchise and though a majority of this House might oppose the resolution it did not follow from that that it was wrong in principle.

Solicitor General White opposed the motion on the ground that if the principle urged by the mover of the resolution was adopted, property owned by other than residents would be absolutely unrepresented in the Legislature.

Dr. Alward supported the resolution which was opposed by Mr. Alward and Mr. Shaw. The latter said very many people in the rural parishes of St. John owned property in the city, and they feel that they should have a right in saying who should represent that property.

Attorney General Blair spoke at length in opposition to the motion. The mover had not ventured to suggest that there was any crying demand in the country for this reform. Now, when everything was calm, peaceful, where it is not apparent that even in the constituency represented by the hon member there was any demand for a change, why should matters not be allowed to remain as they were? As a Liberal there was no inconsistency in opposing the resolution.

Dr. Stockton replied to the arguments of the members of the government. He

ridiculed the idea that no legislation was to be adopted unless the people cry out for it. He remarked that he was glad to hear the Attorney General take the House into his confidence and define his Dominion politics. According to his statement the leader of the government is and has been a life-long Liberal. If he (Stockton) remembered correctly the hon. gentleman had classed himself in the Parliamentary Companion of 1879 as a Liberal-Conservative.

Mr. Blair—If I was ever classed in any publication as a Conservative I was so classed without my knowledge, permission or consent.

Mr. Stockton—At all events, whether the statement in the Parliamentary Companion of 1879 be correct or not, it is a matter of history that the Attorney General voted against that staunch Liberal John Pickard, and in favor of a Conservative in one of the elections in York county.

Mr. Blair—There was no such thing as a Liberal party or a Conservative party in York county at the time of the elections referred to. The Local and Dominion elections were being held at the same time. Mr. Pickard, in going around the country canvassed against me, and in the Dominion election I voted against him in favor of the other man, who supporter me in the Local election. In the same election for the Dominion I went to Sunbury county and voted for Charles Burpee, the Liberal candidate.

Dr. Stockton, in closing, said the present system of voting, which permits steamer and car loads of outsiders to be taken into other counties as voters, was almost as vicious a system as was shown in the case of the Queens county election. The principle contained in the resolution was a correct one and a bill founded upon it would be in the best interests of the people.

The resolution was lost the vote being: Yeas—Powell, Stockton, Phinney, Smith (St. John), Alward, Atkinson, Sive-wright, Ferris, O'Brien (Charlotte)—6. Nays—Blair, Mitchell, Emmerson, White, Labilloy, Dunn, Shaw, Allen, Gogain, Lewis Harrison, Pinder, Martin, Mott, Killam, Flewelling, Scovil, O'Brien, (Northumberland), Robinson, Veniot, Dibblee, McLeod, Wells—24.

The government bill, in addition to the amendment of documentary evidence act of 1893, was agreed to.

Dr. Stockton moved a resolution for all correspondence had with the Dominion government respecting the reservation by the lieutenant governor, in 1893 for signification of the governor general's pleasure of the act passed that year vesting the government house and ground in the province.

Mr. Blair said the information would be furnished.

Dr. Stockton gave a similar motion as to the act a nending the act respecting the use of tobacco by miners.

Dr. Stockton gave notice of motion "that the neglect to set apart any amount towards a sinking fund out of the appropriation for public works for the year 1894 is a violation of the provisions of the Act of Assembly 54 Vic., chap. 3, and a breach of faith with the holders of such debentures."

Mr. Emmerson introduced a bill to incorporate the Baker Brook Mill and Boom Company.

Dr. Stockton presented the petition of the St. John branch of the Evangelical Alliance, praying that certain amendments may be made in the License Act of 1887.

FREDERICTON, Feb. 14.—Mr. Mitchell submitted the report of the N. B. University, and also the Crown Land department report.

Mr. Dunn introduced a bill legalizing the adoption of Gertie Reed by John E. Porter.

Mr. Powell introduced a bill further amending the laws relating to the incorporation of the town of Moncton.

Mr. Dibblee introduced a bill repealing section 23 of the law incorporating Hartland village for water and fire purposes.

Mr. McLeod committed a bill providing for the election of an additional councillor in the parish of Lancaster, county of St. John. Mr. McLeod explained that there had been a great deal of friction between the two county councillors in Lancaster and the result was that the county council had been called upon to interfere with matters purely of a local character.

The lieutenant governor came to the assembly chamber and gave his assent to the bill relating to the water and lighting system of the city of Moncton.

Mr. Blair committed a bill respecting the property of married women. Progress was reported with leave.

Mr. Powell gave notice of the following motion:

Resolved, That in the opinion of this House the offices of judge of probate and registrar of probate in the different coun-

ties in the Province should be abolished; the duties now performed by the judge of probate in respect to contentious business should hereafter be performed by the judges of the County Courts, without any fees other than travelling expenses, and all other duties now performed by the judges of probate, and all duties now performed by the registrar of probates should hereafter be performed by the clerks of the County Courts, and that the fees allowed to said clerks therefor be according to the table of the fees allowed by the consolidated statutes to the clerks of the County Courts, and the fees of protectors in the Probate Court hereafter be taxed as nearly as possible in accordance with the table of fees to attorneys in the County Court.

Mr. White introduced a bill to amend chapter 60 of the consolidated statutes.

Ten Dollars In Gold And A Barrel Of Flour FREE!!

Anyone securing eight new subscribers for THE REVIEW will be presented with a

BARREL OF FINE FAMILY FLOUR FREE!

This unparalleled offer, which will only hold good for a short time, is made for the purpose of introducing THE REVIEW into new homes.

Try it. You cannot obtain a barrel of Flour easier.

Induce your neighbors to subscribe. If they are already on the list, and in arrears, on payment of the same and one year in advance, they will be counted as new subscribers.

Send in the names as fast as you secure them, and they will be promptly acknowledged.

REMEMBER, a barrel of Flour will be given to you free for EVERY EIGHT NAMES you send in as above.

The Subscription price is One Dollar a year.

In addition to the Flour, a prize of TEN DOLLARS IN GOLD will be given to the person sending in the largest list.

The Flour will be promptly delivered free of all charges at any of the following places:

Richibucto, Kingston, Buctouche, Harcourt, Chatham, Bathurst, Campbellton, Dalhousie, Moncton, St. John.

Address: S. B. PATERSON, JR., Richibucto, N. B.

The Horse's Power of Scent.

There is one perception which a horse possesses to which little attention has been paid, says Tait, and that is the power of scent. With some horses it is acute, as with the dog; and for the benefit of those who drive at night, such as physicians and others, this knowledge is invaluable. I never knew it to fail, and I have ridden hundreds of miles on dark nights, and in consideration of this power of scent this is my simple advice: Never check your horse at night, but give him a free head, and you may rest assured that he will never get off the road, and will carry you safely and expeditiously.

"sleighing" possessed in the old days. In a few years, no doubt, the iron-horse will run from Kingston to Buctouche and assist in developing trade along the Kent County shore.

Buctouche has greatly improved in the last ten years and it owes its advancement in a large measure to the intelligence and energy of Father Michaud. He took a prominent part in the promoting of the Buctouche and Moncton Railway, and has been active in aiding every enterprise tending to the advantage of the locality. He loves to tell of the struggle he made to establish co-operative dairying in his parish. To-day Buctouche has one of the

Buctouche, Kent Co.

It is several years since I last visited Buctouche, and I fancied the many signs of improvement I noticed there might be of some interest to your readers. In years not so very long gone by the only means of reaching this very interesting and prosperous place was along the Post Road from Shediac to Chatham. What "Tales of a Wayside Inn" old travellers tell of the days when through storms and snow-banks, in mid-winter, it often took a week to do the 75 miles between those two towns. Now the "Kent Northern Railway" running into Richibucto, and "Buctouche and Moncton," terminating at Buctouche, make travelling in Kent County much more easy if they have robbed it of the peculiar charm which

finest butter and cheese factories in the province. Near the railway station is a cluster of new buildings comprising the butter and cheese factory, a grist mill and a carding mill, the whole run by steam and doing splendid work. Over \$7000 worth of butter was made here last summer and, next year the production will be nearly doubled. The farmers have taken new heart. The ensilage system is being adopted, the stock improved, and the land enriched. Mr. W. McLaughlin, an intelligent young Irishman, whom Father Michaud induced to come over and try his fortune in America, is manager of the dairying business here and at Memramcook, faithfully carrying out the many plans the good priest is continually devising for the benefit of the Farmer.

I must not forget to mention the magnificent Church Convent and Presbytery, which stand grouped together in a beautiful situation, near the village, all built by the present pastor. The old church was struck by lightning, about eight years ago, and burnt to ashes. On its ruins, overcoming many difficulties, Father Michaud has raised a grand structure—the Parish Church—the pride of the whole countryside. No wonder the intelligent, generous, sympathetic priest is enthroned in the affections of his people and kinged in their hearts.

The village of Buctouche has been twice chartered by fire since I saw it last and is greatly improved. The new buildings denote a hopeful, energetic and prosperous people, determined to do their share for the development of the country.—Advocate.

Two Clergymen agree

Rev. P. C. Headley, 967 Huntington Ave, Boston Mass: "Although I have not given testimonials of so called 'Proprietary Medicines,' I can fully endorse the one written by my friend, the Rev. George M. Adams, D. D., of Auburndale, Massachusetts, which gave me confidence in the remedy before using it. Of all the preparations for dyspepsia troubles I have known K. D. C. is the best, and seems to be entirely safe for trial by any one."

Dr. Adams' statement is:—"I recommend K. D. C. very strongly: in my case it has proved singularly efficient; when I could find nothing else to give relief, it was a prompt remedy. I should be unwilling to be without it."

All Dead.

"One of the best stories I ever heard," said John Thomas to the St. Louis Globe-Democrat's corridor man, "is vouched for by Captain Rivers, of the Fort Worth and Denver Railway. A Russian Hebrew came to this country and established a dry goods and notion business. He was so successful that he sent for his younger brother and started to educate him in the business. The boy was slower to learn the ways of the world than his brother had been, and the latter sometimes grew impatient. One day he said: "

"Now, shut your eyes and see how I do. Here was a lady."

The lady asked to see some silk, which was shown, a piece at \$2 a yard.

"But I saw some like it a few days ago for \$1.50," she said.

"I don't doubt it, madam; but dot vos some days ago. I was selling dese goods at dot price until yesterday, ven I got word dot all the silkworms in China was dead, and dot goods vill cost us more as two dollars now."

The lady was satisfied and purchased the silk.

"Now, you see how dot was done. Dere was a lady now; you wait on her," he said to his brother.

The lady entered and asked for tape. The young man was all attention, and the desired article was speedily produced.

"How much?" the lady asked.

"Ten cents a yard."

"Why, I saw some for eight cents."

"I don't doubt it, madam, but dot was some dime ago. Shust to-day ve heard dot all the tapeworms was dead, and dere would be no more tape less as twenty cents a yard."

The Genuine Merit

Of Hood's Sarsaparilla wins friends wherever it is fairly and honestly tried. To have perfect health, you must have pure blood, and the best way to have pure blood is to take Hood's Sarsaparilla, the best blood purifier and strength builder. It expels all of scrofula, salt rheum and all other humors, and at the same time builds up the whole system.

Hood's Pills are prompt and efficient. 25c.

A Victoria Co. Miracle.

THE STORY OF AN EX-REEVE OF CARDEN TOWNSHIP.

Seventeen Years of Intense Suffering from Rheumatism—Local Physician and Treatment in Toronto General Hospital Failed to Help Him—How He was Restored to Health and Activity.

From the Lindsay Post.

There are few men better known in Victoria county that Mr. Richard Fitzgerald, who was one of the first settlers of the township of Carden. He was elected to the honorable position of reeve of that township for twelve successive years, and filled the position with so much acceptance to the people that he was pressed to continue in office for a longer time, but was compelled to decline this honor. It therefore goes without saying that Mr. Fitzgerald is not only known to all the residents of the township, but that his word is considered by those who knew him to be as good as his bond, and that upon anything he may say the most implicit confidence may be placed.

When young, a stronger or more hearty man could not be found, but possessed of an iron constitution, he did what too many are prone to do, neglected his health, and exposed himself to all sorts of weather, often in the pursuit of his calling as a farmer being wet to the skin for hours at a time. A little over seventeen years ago he found that he had contracted rheumatism of a muscular form, and each succeeding day found him in a worse condition. He applied to the local doctors in his neighborhood but received no relief, and was then induced by them to apply for admission to the general hospital at Toronto for treatment, and was in that institution for several months, until he became disheartened at the want of success attending his treatment and returned home, as was thought, to die. By this time the muscles of his body had become so contracted that he could not straighten his limbs, and was forced to spend the greater part of his time in bed, and when able to get around at all it was only with the aid of a stout pair of crutches. When he attempted to raise his feet his legs would crack at the knees like sticks of wood, caused, as the doctors told him, by the fluid in the joints being completely dried up. He was constipated to a fearful degree. When he retired at night there was not sufficient blood in his veins to keep him from feeling intensely cold, and in order to keep him warm his daughter knitted him woolen leggings and lined them with soft wool. Several times his family, a portion of whom reside in Michigan, were summoned home to see their father for the last time, as he was thought to be on his death-bed. Finally, after suffering as much bodily pain as would have killed an ordinary man, and at a time when he had not set his foot on the ground for a year, he was induced by his son to give Dr. Williams' Pink Pills a trial, as he had heard of the remarkable cures made by that remedy. It was after much persuasion that he was induced to give them a trial, as he had then spent a small fortune in medicines and different modes of treatment under which he had steadily grown worse, and he had despaired of finding anything that would help him.

At last he began the use of the Pink Pills and had not taken them long before he began to notice a decided improvement in his condition. Continuing their use he found he could get around much better than he was able to do at any time for many years, and after a still further use of Pink Pills he was entirely relieved from all rheumatic pains, and is now a wonder to himself and all who knew him. Mr. Fitzgerald is now 70 years of age, is able to walk to Kirkfield every day, and is enjoying better health than he has had since he was first affected.

Dr. Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration and the tired feeling therefrom, the after effects of a gripple, diseases depending upon humors in the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions, and are a specific for troubles peculiar to the female system, and in the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of any nature.

Dr. Williams' Pink Pills may be had of all druggists, or direct by mail from Dr. Williams' Medicine Company, Brockville, Ontario, or Schenectady, N. Y., at 50 cents a box, or six boxes for \$2.50. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

Hood's Pills are prompt and efficient. 25c.
