RICHIBUCTO, N. B., FEB. 23, 1895. A SHORT SESSION.

The present session of the provincial legislature has not been as lively as we have lately been accustomed to. Indeed it has been one of the tamest sessions held for some time.

Several important bills were considered by the legislature last week. One of these is a bill to prevent the giving of preferences by insolvents.

Premier Greenway has submitted a bill to the Manitoba Legislature which will cut off all supplies to government house at Winnipeg.

The entering wedge of a fatal complaint is often a slight cold, which a dose or two of Ayer's Cherry Pectoral might have cured at the commencement.

Therefore, it is advisable to have this prompt and sure remedy always at hand to meet an emergency.

A Suggestion.

Money was made to be used, not extravagantly, but judiciously. A wise man lives at least a little within his income, so that when his ordinary resources fail his savings will maintain him.

But if money were steadily hoarded there would be no enterprise. If the doors and the windows were steadily closed on the best rooms of the house the carpets would rot wear out, and there would be little need of carpet manufacturers.

It is a natural thing for one to be careful of his clothes, but she is not a wise woman who hangs up her best silk so that it may be preserved, while changing fashions make its preservation useless.

The man in the Scripture who wrapped up his talent in a napkin is not the type of a wise man. Judicious economy is a good thing; unnecessary economy is not judicious, it has been well remarked that injudicious economy is wealth for some one else.—St. John Globe.

To save life from the ravages of disease is nobler than to win a kingdom. Burdock Blood Bitters cures all blood diseases, scrofula, blotches, pimples, skin diseases, etc., by its cleansing power over the entire system.

New Brunswick Legislature.

FREDERICTON, Feb. 22.—Pitts presented petition of William Rodgers, W. K. Johnston, John P. Carter and 36 others praying that the government take the necessary steps to secure justice to the protestant minority at Bathurst.

The law committee through chairman White reported referring back to the house the bill conferring the right of franchise upon women.

The committee could not recommend the bill to legalize the adoption of Gertie Reid by John E. Porter.

FREDERICTON, N. B., Feb. 23.—Stockton having moved that Mr. Speaker do now leave the chair in order that his bill amending the New Brunswick elections act of 1889, (his woman suffrage bill) might be committed, Sivewright moved the following, seconded by Robinson:

Resolved, that Mr. Speaker do not now leave the chair, but that it be

Resolved, that while this house recognizes the importance of the question of woman suffrage as one to which prominence had been recently given in political discussions in other countries, it is not deemed expedient to declare in favor of that principle at the present time, and especially so in the absence of a clear expression of public opinion in its favor; wherefore it is

Further resolved, that the bill, an act to amend "The New Brunswick Elections Act of 1889" be not read until this day three months.

This amendment was ruled out of order by Mr. Speaker.

Sivewright then moved as an amendment, seconded by Robinson:

Resolved, to strike out all the words after "that" and insert in lieu thereof "Resolved, that the order of the day for reference of bill "an act to amend the elections act of 1889" be discharged and that it be further resolved, that while this house recognizes the importance of the question of woman suffrage as one to which prominence has recently been given in political discussions in other countries, it is not deemed expedient to declare in favor of that principle at the present time and especially so in the absence of a clear expression of public opinion in its favor, and that it is therefore undesirable now to refer the said bill to a committee of the whole."

After a discussion lasting till 12.30 o'clock the amendment was lost, the vote being:

Yeas—Blair, Mitchell, White, Labilloy, Dunn, Gogain, Lewis, Martin, Sivewright, Mott, Flewelling, O'Brien (Northumberland), Robinson, Veniot, Dibblee, Farris—17.

Nays—Emmerson, Powell, Stockton, Phinney, Shaw, Smith (St. John), Alward, Pitts, Allen, Howe, Pinder, Atkinson, Russell, Killam, Perley, Baird, Wells, O'Brien (Charlotte)—18.

The motion that Mr. Speaker do now leave the chair was carried by the same vote reversed.

The house then went into committee of the whole to consider the bill; Wells chairman. The first and only section of the bill was defeated, the vote being:

Yeas—Emmerson, Stockton, Phinney, Shaw, Smith (St. John), Alward, Pitts, Lewis, Howe, Pinder, Russell, Killam, Perley, O'Brien (Charlotte)—14.

Nays—Blair, Mitchell, White, Labilloy, Dunn, Gogain, Martin, Sivewright, Mott, Flewelling, O'Brien, (Northumberland), Robinson, Veniot, McLeod, Farris—15.

It was then moved that the chairman leave the chair and report the resolution. Stockton moved in amendment that the chairman report progress, with leave to sit again.

Blair claimed that the amendment was out of order.

Mr. Speaker decided that the amendment was out of order.

The motion that the chairman leave the chair and report the resolution was carried. Adjourned at 1 o'clock this morning.

Steamer Saint Jerome.

The steamer Saint Jerome, of Liverpool Captain Pugh, arrived yesterday morning with the steamer Salisbury, of North Shields in tow, which she picked up at sea in a disabled condition, her supply of fuel being completely exhausted.

Captain Pugh states, left Galveston Feb. 1st for Liverpool with a cargo of cotton, put into Norfolk, Va., for bunker coal, and left there on the 10th. Had heavy gales to that port off Hatteras. On Tuesday, the 12th, at 1 p. m., in lat. 39.45, long. 66.10, saw a steamer showing signals of distress. Found her to be the Salisbury, of North Shields, Captain Holdorf, from Palermo and Messina, with a cargo of fruit bound to New York, 26 days out from Gibraltar, with her supply of coal entirely run out. He asked to be towed to the nearest port. At five p. m. took her in tow, making for Halifax. The weather became bad and increased to a north-east gale at night, and continued until 8 p. m. of the 13th, when the tow rope (a manila hawser), which was shackled to 30 fathoms of the Salisbury's chain, parted. Remained by her all night, the wind blowing hard from north north-west, and had the steamer in tow again at 9 a. m. of the 14th. Great difficulty was encountered in passing the lines between the steamers, as the Salisbury had no steam for her winches and her crew were well nigh exhausted with their hard work. The work of heaving in the hawsers by hand was very tedious and laborious. The lines were passed by drifting a live buoy across the bow of the Salisbury. Both vessels were in great danger of collision at different times. After the second tow was commenced the wind blew hard and gradually moderated. Fair weather encountered until Saturday night, when they had a strong breeze from the north-west. All of the spars and available woodwork and main topmast of the Salisbury were burned for fuel. She was lying with 75 fathoms of chain cable out and tarpaulin in her main rigging to keep her head to the sea, when fallen in with. The Saint Jerome is a fine freight steamer of 1,845 tons register, with a large freight carrying capacity. She is owned by Gilmor, Rankin & Co., of Liverpool. Pickford & Black are the steamer's agents.—Halifax paper.

[Capt. Pugh is well known here, having commanded one of Messrs. J. & T. Jardine's vessels the bark Tikoma.]
