THE FUTURE KING OF ENGLAND,

His Character and Tastes as Shown in His Relations With His Official Associates and His Personal Friends.

(Continued from Page 4.)

The foremost among the prince's gentlemen, and the one who assuredly exercises | charge of the disposal of their papers and the most healthy influence upon His Royal Highness is General Sir Dighton Probyn, anything that could possibly compromise the controller and executive chief of the household. He owes his position not to family or fortune, but to his splendid record as a soldier. One of the heroes of the Indian Mutiny, where he won the coveted distinction of the Victoria Cross by an act of splendid gallantry, he is a tall, gray bearded, soldierly man, unpretentious but full of quiet dignity. Indeed, he appears so quiet and calm that it requires some effort to realize that he is the same dashing, dare-devil cavalry leader whose prowess caused the name of Probyn's Horse to be famed and respected to this day throughout the length and breadth of India. Sir Dighton has in his hands the entire management of the prince's establishment-no easy task, owing to the innumerable jealousies and rivalries of its members, and to its size. The stables alone cost the prince \$80,000 per annum | book of importance appears in either Eng -of course this does not include his racing lish. Mention of poor Harry Tyrwhitt Wilson's death reminds me that there is sort of unwritten but recognized rule among the members of the various royal households, that they should invariably appoint colleagues as executors to take property, with the object of preventing their masters or mistresses from falling into wrong hands. This has especially been the case since a number of letters and documents calculated to affect injuriously the memory of Queen Victoria's father, the Duke of Kent, passed into the possession of strangers at the lemise of Sir John Conroy, the unpopular controller of the duchess' household. These papers had to be bought back at a high price in order to prevent their being put up at public auction in London.

Few people have any idea how well read a man is the Prince of Wales. I remem ber, a year or two ago, being much amused by seeing a paragraph in the London World over the signature of the late Ed mund Yates, declaring that "His Royal Highness' reading is very limited." Quite the reverse is the case. In the pleasant little village of Newburgh, on the Bay of Quinte Railway, seven miles from Napanee, lives Mr. C. H. Moore and family. They are favorably known throughout the entire section, having been residents of Newburgh for years. Recently Mr. Moore has undertion to health was the talk of the village gan. He lost flesh, was pale, suffered ing citizens and children of Buctouche. from dizzinesss to the extent that sometimes could not avoid falling. He consulted physicians and tried numerous medicines, but with no benefit. He was constantly growing worse and the physicians seemed puzzled, and none of his friends thought he would recover. One day a neighbor urged Mr. Moore to persuade her husband to give Dr. Williams' Pink Pills a trial, and after much persuasion he consented. After a few days he began to feel better, and it no longer needed persuasion to induce him to continue the treatment. A marvellous change soon came over him. Each day he seemed to gather new strength and new life and after eight boxes had been taken, he found himself again a well man. Mr. Moore is now about sixty-five years of age, he has been healthy and has worked hard all his life until the sickness alluded to, and now, thanks to Dr. Williams' Pink | So calm, so sweet, so deep, Pills, he is once more able to work in his old accustomed way, and does not hesitate to give the credit to the medicine that restored him to health, at a cost no greater than a couple of visits to the doc- Awake! awake! nor fear,

Time and again it has been proven that Dr. Williams' Pink Pills cure when physicians and other medicine fail. No other medicine has such a wonderful record and no other medicine gives such undoubted proofs of the genuineness of every cure published, and this accounts for the fact that go where you will you hear nothing but words of praise for Dr. Williams' Pink Pills. This great reputation also accounts for the fact that unscrupulous dealers here and there try to impose a bulk bill upon their customers with the claim that "is just as good," while a host of imitators are putting up pills in packages somewhat similar in style in the hope that they will reap the reward earned by the merit of the genuine Pink Pills. No matter what any dealer says no pill is genuine unless it bears the full trade mark, "Dr. Williams' Pink Pills for Pale People," on the wrapper around every box. Always refuse substitutes which are worthless and may be dangerous.

Presentation to Mr. Pearson,

On Friday morning, a number of the leading citizens called on Principal A. E. Derby than become king, just in the same intercourse would keep him fresh in their Principal Pearson to accept the accombrance of the friends of Buctouche, that

he would live many happy years to enjoy the use thereof and that he might often renew the friendly intercourse now broken, in the years to come. Mr. Pearson, in replying, felt unable to express himself just as forcibly as he felt. He thanked the Buctouche citizens and the children for the many kindnesses of the past, but for this present expression of friendship and goodwill he felt he must leave it to all to judge the depths of his feelings as words failed him. He had spent four years in Buctouche and now parted with regret from so many warm friends and felt that he parted from a town of friends irrespective of race, creed or nationality.
