A WAR ON PROPERTY.

Crystallized into a few expressive words the free silver movement is seen to be, in its essence a war on property. The old word, with its crowded masses of poor, and its terrible contrasts of wealth and poverty has long struggled to repress the deep-seated and growing movement of Socialism, with its vanguard of Anarchism.

It is unexpected but true that in free America there has so suddenly sprung up and grown almost to the verge of power, a movement under a different name, but having like ultimate objects. The fact is that Socialism has for years past rapidly obtained a foothold in the western states.

Two great forces give vitality to the free silver movement. The silver kings are simply taking a short way to double their wealth. But they would be powerless to effect their end without the aid of the masses who have no sympathy with the selfish aspirations of these bloated millionaires.

The western or southern farmer finds by the fall in prices of his products that his income has been cut in two. But he still has to pay triple taxes, to the municipality, the state and the nation, with big interest on his mortgaged indebtedness to some eastern "gold bug," or wealthy loan association.

Hence the alliance of the silver kings in their mountain fastnesses of the white metal lodes, and the farmers of the valleys and the prairies. The "gold bugs" of the east are the natural enemies of both. Hatred of England also plays a minor part in the struggle because England is the stalwart champion of the yellow metal among the nations.

All the Anarchist and Socialist elements naturally fall into line behind Bryan and the silver movement, not that the Chicago platform contains all they want but it is a new departure in the direction of their aims. They are of the martyrs who to use Bryan's simile have been long "crucified upon a cross of gold" and now they are to have a glorious resurrection and to divide the spoil with the rich.

Children Cry for Pitcher's Castoria.

The end may yet be in a speedy re-union. It is quite possible that the silver craze may lead to the disruption of the republic. It is almost certain to produce commercial panics and business crashes on a scale of unprecedented magnitude.

PROTESTS.

The elections are over; the protests have begun. That the controverted election law is an absurdity is fully proved by the number of petitions filed against the return of members in New Brunswick. Fourteen men were chosen on the 23rd of June to represent this Province at Ottawa.

Mr. Allan A. Davidson was elected by acclamation in Northumberland County on Thursday. Mr. Davidson's nomination paper contained the names of prominent Liberals as well as prominent Conservatives which shows that the people of Northumberland have not fallen in with the idea of running local politics on Federal lines.

Mr. G. G. King, M. P., for the united counties of Queens and Sunbury has resigned in order to give the constituency to Hon. A. G. Blair, Minister of Railways and Canals.

Reuben C. Elbridge, Niagara Ont., Curry comb; Ovide M. Gould, Montreal Que, Brake; Isabella M. Polley, Simcoe, Ont., Rein supporter; William H. Russell New Castle, N. S., Electric car trolley

Barquentine Herbert Fuller will return to Boston, and on arriving the United States marshal will put deputies on board to hold her until the trial of the members of her former crew. The government will have to pay the owners of the vessel demurrage for every day she is detained, and will have to reimburse the owners for the loss sustained on the present charter.

There is some curiosity to know what will be the attitude of the Laurier government toward the fast line contract, the leaders of the Liberal party having given it the cold shoulder in parliament. It is a pretty heavy undertaking to give three quarters of a million yearly in subsidy to a single line of steamers and the mass of the Canadian people are far from being enthusiastic about it.

Two good things have resulted from the prevalent bicycle craze. Every wheelman inevitably becomes more pitiful towards horses when he learns how much difference a slight up-hill, or a little roughness of the road makes in the labor of wheeling. And every wheelman becomes also an earnest advocate of good smooth roads.

The St. John Globe is not pleased with the composite character of the new local government. And it has not had much to say in favor of the one New Brunswick minister in the new federal administration. The Telegraph approves both and is in danger of becoming "a subsidized organ of both governments, a position heretofore too dreadful to contemplate from the Telegraph's standpoint.

Hon. Mr. Blair is in no apparent haste to find a constituency, though it is said three of four seats have been offered him. There are generally some arrangements to be made in the transfer of a constituency from one representative to another and these seem not to have been yet arranged, though parliament is to meet in two weeks time.

Only the estimates are to be passed at the coming session and no other business transacted, it is said. The estimates are usually passed in about six weeks with other business interspersed, but it may be done quicker when there is nothing else going. It seems unlikely that there will be any long debates in the first session, and in that case it may not last more than a month.

Be Well and You Will Be Happy

Paine's Celery Compound Nature's Avenue to Health.

If you are sick and out of sorts it is within your power to make yourself well and strong.

There is not the slightest reason why you should go through the hot summer weather feeling miserable languid and melancholic.

To be well means happiness and true joy, and this is the reason that you should be bright, hearty and gladsome.

Let us with sincerity and honesty direct your attention to Paine's Celery Compound nature's avenue to health and perfect physical strength and robustness.

This marvellous health giving medicine begins its vitalizing work at the great nerve centres, and soon braces up the weak and frail body, giving every organ that is out of tune that full vigor and strength so necessary for the complete working of the whole human frame.

Paine's Celery Compound is suited for all ages and conditions; it is purely vegetable, pleasant to use, and prompt and efficacious in the most dangerous and subtle cases. Thousands now living owe their lives to this wonderful medicine that makes sick people well.

If you are a doubter and have not any friends that can vouch for all that is said about Paine's Celery Compound, send for our book of convincing cures; mailed free to any address. Wells & Richardson Co., Montreal.

Acadieville.

Aug. 3, 1896.—We are having fine weather, the hay which is pretty well all in the barns was a light crop.

The grain and potatoes have a fine appearance.

The bridge which was burned near Pincau's mill, in the spring, has been rebuilt. Mr. A. Haines, government engineer, superintended the work and Mr. R. Fletcher conducted the work which was done in a very short time and it is one of the finest bridges of the county. Our M. P. P's deserve credit for the prompt reconstruction of this bridge.

A grand picnic will be held on the church grounds on the 14th inst, nothing to make the day agreeable will be omitted. On the 15th inst the Acadian feast will be celebrated by the opening of the church, about 9 o'clock mass will be sung in it for the first time which will be followed by a good sermon, and in the afternoon there will likely be speeches if we can procure some to do so—come one, come all.

Members of Parliament are especially invited to honor the youngest parish of the county by their presence.

Crop Of Election Protests.

FREDERICTON, Aug. 1.—In New Brunswick, election protests have been filed against the return of McInerney of Kent, Powell of Westmorland, McAllister of Restigouche, Ganong of Charlotte, Hale of Carleton, Costigan of Victoria, King of Sunbury and Queens, Ellis of St. John City, Tucker of St. John county, Domville of Kings, and Foster of York. The only seats unprotected are those of Robinson of Northumberland, Blanchard of Gloucester, and Lewis of Albert.

Francois Xavier LeBlanc is the petitioner against Mr. McInerney and his attorney and agent is Allen O. Earl; Melvin Steeves is the petitioner against Mr. Powell, and Mr. Allen O. Earle, the attorney and agent; Edward Alexander is petitioner against Mr. McAllister, and Henry F. McLatchy, the attorney and agent.

HALIFAX, Aug. 2.—Election protests have been filed against every Conservative candidate elected in Nova Scotia except Dr. Borden of Halifax, and papers are about ready in his case. The Conservatives have so far protested the election of Copp in Digby, McLennan in Inverness and Flint in Yarmouth. Others will follow.

MONTREAL, Aug. 2.—By to-morrow evening the elections in Beauharnois, L'Assomption, Two Mountains, Maskinonge, Three Rivers, Yamaska, Ste. Annes, St. Antoine, Laval and perhaps others will be contested.

OTTAWA, Aug. 2.—A protest has been filed against the return of the two Liberals for Ottawa. The local conservatives say there is abundance of evidence to upset the election and in the event of a new election a re-united party will return two Conservatives without doubt. The two Hamilton seats and many others will also be protested.

NOTICE.

Notice is hereby given that the annual meeting of the Moncton and Buctouche Railway Company will be held at the office of C. N. Skinner & Sons, corner of Princess and Prince William Streets in the City of Saint John, on Tuesday, the eighteenth day of August instant, at twelve o'clock noon, at which meeting a Board of Directors will be elected for the ensuing year, and all such business will be transacted as lawfully can be done at an annual meeting of the Company and that may be brought before the meeting.

The Question Answered.

The Reason Why Some Dealers Sell Poor Dyes.

Many ladies who have been deceived by the imitation dyes so often sold by some dealers and druggists, ask the Question: "Why will these merchants persist in selling us dyes that are positively worthless?"

This question is easily answered. The dealers who sell these common dyes do so for a very selfish object—big profits. They buy these crude and poisonous dyes for much less than the celebrated Diamond Dyes cost, and they are sold to the ladies at the same price, ten cents per packet. The dealers in this way make long, big profits, while the deceived consumer must suffer loss at every time of using.

Dealers know well that the Diamond Dyes are the only true and warranted colors, but the love of gain is too great to allow them to treat the public honestly. The ladies can soon compel dealers to do what is honest and right if they insist every time upon having the Diamond Dyes. You can always find one dealer in your town that is anxious to sell dyes that will give entire satisfaction.
