RICHIBUCTO, N. B., MAY 21, 1896. A NEW PROHIBITION POINTER.

An important decision of the judicial committee of the privy council of England has recently been given in which all prohibitionists will take a deep interest.

The language used by the law lords in that case threw a doubt upon the question whether the federal power had the exclusive right to prohibit the sale of liquors.

The decision is, in effect, this, that provincial legislatures may pass prohibitory liquor laws, within certain bounds.

The decision is a most important one, as the provincial legislatures are now empowered by a single act to obtain prohibition throughout an entire province at once.

Since the foregoing was put in type the more complete text of the recent decision of the judicial committee on Sir Oliver Mowat's reference as to the powers of provincial legislatures in regard to prohibition serves to weaken the impression given by the first brief despatches.

warning them that the only effective or total prohibition must come from the federal parliament and asks that the matter shall be earnestly taken up by temperance men everywhere at the present election...

THE NATIONAL POLICY, AN ISSUE.

A prominent issue—the foremost one in fact—in the present election contest is the national policy of protection for native industries. It has been so much discussed during the past 18 or 20 years that the arguments for and against it have become an old story.

The Liberal party under Mr. Laurier is pledged to eliminate the principle of protection entirely from the tariff. Under their plan duties would be imposed solely for the raising of the necessary revenue to provide for our public services.

THE REVIEW has never taken extreme grounds on the tariff question. Much might be said on both sides.

THE BISHOPS' MANDEMENT.

The long expected and much talked of mandement of the Roman Catholic bishops of Quebec proves to be more moderate in its terms than had been generally expected.

It would seem that the Quebec followers of Mr. Laurier might, and probably will, give the pledges required by this command.

These impressions are gathered from the perusal of an abstract only of the mandement. It may be that the full text of the document when it is received will compel us to modify our opinions.

our dominion politics, but otherwise it is fortunate that a Protestant leader should be at the head of the "remedial" party and a Catholic leader at the head of those who are opposing dominion interference in the affairs of Manitoba.

Will Be Lord Glenoe.

It is rumored that Sir Donald Smith who left Canada for London last week, as Canada's High Commissioner, will on May 24th, the Queen's birthday, be elevated to the peerage with the title of Lord Glenoe.

In the beginning of the year 1692, an action of unexampled barbarity disgraced the government of King William III in Scotland. In the August preceding, a proclamation had been issued offering an indemnity to such insurgents as should take the oaths to the King and Queen.

of the execution from Dalrymple, was on his march with four hundred men, to guard all the passes from the valley of Glenoe; but he was obliged to stop by the severity of the weather, which proved the safety of the unfortunate clan.

Sir Walter Scott has perpetuated the incident in the following stanzas: "O tell me, Harper, wherefore flow Thy wayward notes of wail and woe, Far down the desert of Glenoe, Where none may list thy melody?"

"No, not to these, for they have rest,— The mist-wreath has the mountain-crest The stag his lair, the erne her nest, Abode of lone security. But those for whom I pour the lay, Not wild-wood deep, nor mountain gray, Not this deep dell, that shrouds from day, Could screen from treach'rous cruelty."

"The hand that mingled in the meal, At midnight drew the felon steel, And gave the host's kind breast to feel Meed for his hospitality! The friendly hearth which warmed that hand, At midnight armed it with the brand, That blade destruction's flames expand Their red and fearful blazonry."

"Then woman's shriek was heard in vain, Nor infancy's unpeeped plain, More than the warrior's groan, could gain Respite from ruthless butchery! The winter wind that whistled shrill, The snows that night that cloaked the hill, Though wild and pitiless, had still Far more than Southern clemency."

"Long have my harp's best notes been gone, Few are its strings, and faint their tone, They can but sound in desert lone Their gray-haired master's misery. Were each gray hair a minstrel string, Each chord should imprecations fling, Till startled Scotland loud should ring, 'Revenge for blood and treachery!'"
