

WHY

The Cleveland

IS THE LEADER OF HIGH-GRADE BICYCLES!

?????

Because It is the result of years of study and experiment backed by brains skill and money Because it is the product of the largest and best equipped factory in Canada, where every minute part is thoroughly tested before being sent out. Because it is built for strength and speed, is the lightest running of all machines, has no equal for beauty and finish: and because THE CLEVELAND SWELL SPECIAL's celebrated Clincher Tire with combination wood and Aluminum Rims, Burwell Dust-proof Bearings, Oil-tempered Centre-pin Chain, Spring-tempered Cranks, Reversible and Adjustable Handle Bars and many other distinctive features make it the most popular wheel on the market to-day.

Mounted Police.

We clip the following from the report of L. W. Herchmer, Commissioner of the Northwest police:—

In making my report for the time intervening between the 1st June, 1895, and the 20th January, 1896, I have the honor to date it from the most northerly military or semi-military post in the British Empire, situated in latitude 64° 26' N. and longitude 140° 18' W., on the Yukon River at the confluence of Forty Mile Creek, a stream 150 yards wide at the mouth and about 360 miles in length—no small stream of itself, but dwarfed to insignificance by the mighty river into which it empties. "Yukon" means "Great River," which name it is called by the natives when speaking of it in English.

The government having decided on establishing a post in this distant region, a detachment consisting of two officers, one assistant-surgeon and sixteen non-commissioned officers and constables, left Regina on Saturday 1st June, 1895, by the C. P. R. for Seattle, W. T., embarking from thence on board the Str. "Excelsior" on Wednesday, June 5th, 1895.

The passage to Onalaska, one of the Aleutian Islands, was uneventful and weather fine with the exception of two days rough sea and a day's detention by fog, on the "Davidson Bank" where the men and other passengers amused themselves by fishing for cod, which were caught in considerable numbers and made a pleasant change in the ship's bill of fare.

We arrived at Onalaska on Saturday 15th June, '95 and left on Monday, the 17th at noon. In the early morning of Tuesday, the 18th, we passed the "Seal" Islands. On Wednesday the 19th, we ran into ice, not getting clear of it for 13 days, although several attempts were made. At one time the situation was critical. For some days we lay off St. Lawrence Island, shifting our position as forced to by the ice. On Tuesday, 2nd July, '95, we made Cape Nome, and St. Michaels on Wednesday, 3rd, 9.45 a. m.

We left there at 3 p. m. on Friday, the 5th, having transferred passengers and cargo to the River Str. "P. B. Weare." Just after starting, a squall came up, forcing us to anchor until it passed over. We made a final start at 6 p. m. The distance from St. Michael's to the northerly mouth of the Yukon (the one used) is, by sea, 80 miles. This has to be made in a flat-bottomed stern wheel river boat in calm

weather. We crossed the bar at the mouth of the river at 4.30 a. m. on Saturday the 6th July and tied up for 8 hours to clean boilers and get rid of the salt water.

The passage up the river to our destination was very tedious, the flies being bad and the heat great. We arrived at Fort Cudahy on Wednesday, July 24th, at 6 a. m. Discharging cargo at once began, and was finished on the evening of Thursday, 25th.

Restigouche Notes.

In a note from Restigouche in last week's issue read 40,000,000 of shingles were exported from some factories instead of 4,000,000. On further inquiry it is found that some factories exported as many as from 50 to 60,000,000 of shingles last year.

During the last few days the weather has been very cold for the season, in consequence the water in the rivers is materially lower and has almost suspended river driving. Fortunately there is yet abundance of snow in the woods to make a sufficient freshet for all requirements.

Mr. McAllister and Mr. Hadou, have their hands full in canvassing the country preparatory to the approaching election. The former on the Conservative, and the latter on the Liberal ticket. It is not yet positively known that Mr. Moffatt will enter the arena. If so, there will be a great amount of cross-firing, and abundance of ammunition lost. It is needless to predict who shall be the victor and wear the laurels.

The Pall Mall Gazette lobbyist says it is evident from the character of the deputations of farmers and graziers of Norfolk and Suffolk which waited upon Mr. Walter Long, president of the board of agriculture, urging the government to abandon the Cattle Diseases' Bill contending that there is no disease in Canadian cattle and that there is no risk in importing them, indicates, together with other developments, that the government will have difficulty in passing the measure.

Hope Was Abandoned.

THE PECULIAR CASE OF MRS. HILL, OF WINCHESTER.

The Doctor Told Her That Her Trouble was Consumption of the Bowels—There Was No Hope of Recovery—But Health Was Almost Miraculously Restored.

From the Morrisburg Herald.

Mrs. Hill, wife of Mr. Robt. Hill, of Winchester, not many months ago was looked upon as one whose days were numbered. To-day she is a handsome, healthy woman showing no traces of her former desperate condition, and it is therefore little wonder that her case has created a profound sensation in the neighborhood. To a reporter who called upon her Mrs. Hill expressed a willingness to give the story of her illness and recovery for publication, and she told it with an earnestness that conveyed to the listener better than mere words could do, her deep gratitude to the medicine which had brought about her restoration to health and strength. "I feel," she said, "almost like one raised from the dead, and my case seems to me little short of miraculous. About a year ago I was confined, and shortly after I was taken with canker in the mouth, and suffered terribly. Although I had good medical attendance I did not seem to get better. In fact other complications set in which seemed fast hurrying me to the grave. I grew weaker and weaker until at last I was confined to bed where I lay for three months. My bowels were in a terrible condition, and at last the doctor said he could do no more for me as with the other complications I had consumption of the bowels. My limbs and face became terribly swollen, my heart became weak and my blood seemed to have turned to water. I became simply an emaciated living skeleton. At last the doctor told me that I was beyond the aid of human skill, and that further attendance on his part would do no good. One day some time later my friends stood around my bedside thinking every moment to see me breathe my last, but I rallied, and at the urgent solicitation of a friend it was decided at this apparently hopeless juncture to give Dr. Williams' Pink Pills a trial. In less than two weeks a slight improvement had taken place, and from that out I slowly but surely progressed toward recovery, until, as you can see for yourself, I am once more a healthy woman. It is impossible for me to express how grateful I feel towards Dr. Wil-

Williams' Pink Pills, which under God's blessing have restored me to health and family and friends. I feel that the world should know my story, so that some other suffering sister may be able to find health in the medicine which I believe will never fail."

The experience of years has proved that there is absolutely no disease due to a vitiated condition of the blood or shattered nerves, that Dr. Williams' Pink Pills will not promptly cure, and those who are suffering from such trouble would avoid much misery and save money by promptly resorting to this treatment. Get the genuine Pink Pills every time and do not be persuaded to take an imitation or some other remedy from a dealer, who, for the sake of the extra profit to himself, may say "just as good." Dr. Williams' Pink Pills make rich, red blood, and cure when other medicines fail.

Two ladies are dead and one man in a critical condition as the result of a murderous assault made upon the family of Mr. Cockling, a well-known merchant of Hill Top, Md., Thursday night. The bodies of Mrs. Cockling and her sister, Miss Daisy Miller, were found in their rooms by a neighbor and Mr. Cockling was found in the cellar, where he had been thrown gagged and unconscious.

BBB FOR THE BLOOD
B. B. B. Turns Bad Blood Into Rich Red Blood.
BBB FOR THE BLOOD

In Spring Time get Pure Blood by using B.B.B.

No other remedy possesses such perfect cleansing, healing and purifying properties as Burdock Blood Bitters. It not only cleanses internally, but it heals, when applied externally, all sores, ulcers, abscesses, scrofulous sores, blotches, eruptions, etc., leaving the skin clean and pure as a babe's. Taken internally it removes all morbid effete or waste matter from the system, and thoroughly regulates all the organs of the body, restoring the stomach, liver, bowels and blood to healthy action. In this way the sick become well, the weak strong, and those who have that tired, worn out feeling receive new vigor, and buoyant health and spirits, so that they feel like work. If your appetite is poor, your energy gone, your ambition lost, B.B.B. will restore you to the full enjoyment of happy vigorous life.
