A Poem on Spring:—

Of spring
I sing!
When we catch the glint of the bluebird's
wing;
When winds, now mild, no longer sting;
When bird-songs through the woodland
ring,
And bicycle bells go ting-a-ling,
And winter flannels closely cling—
Then it is spring,
The real thing,
By jing!

—Indianapolis Journal.

INSIDE AND OUTSIDE.

Internally used Burdock Blood Bitters
cleanses purifies and tones every organ
of the system. In all cases with sores,
ulcers, blotches, scrofula, etc., appear on
the surface an outward application exer-
cises wonderful curative power over the
skin and flesh, healing them completely
without even leaving a scar. Here is a
case in point:

After having used Burdock Blood Bitters
for scrofula in the blood I feel it my
duty to make known the results. I was
treated by a skillful physician but he
failed to cure me. I had three running
sores on my neck which could not be
healed until I tried B.B.B. which healed
them completely, leaving the skin and
flesh sound and whole.

As long as I live I shall speak of the
virtues of B.B.B. and I feel grateful to
Providence that such a medicine is pro-
vided for sufferers.

Mrs. W. BENNEY,
Acton P. O. Ont.

PARLIAMENT OF CANADA.

OTTAWA, April 9.—This morning was
spent in idle talk mostly in the line of
criticising government supporters. Dur-
ing this afternoon Mr. Charlton took the
floor and ran over the list of conservative
members who had received, or in his opin-
ion are to receive government positions.
The mention of Mr. Boyle's name led to
an indignant protest from that gentleman,
and remarks from Mr. Cockburn that such
statements were utterly unworthy of a
gentleman.

Mulock followed and immediately set
the house in an uproar again by an im-
putation of his on Alex. McKay, member
for Hamilton. Then for over half an
hour the chairman and Mr. Mulock fought
it out, ending by the member for North
York withdrawing his reflections on Mr.
McKay.

Following Mulock came ex-contro-
Wallace, who held the floor until three
o'clock. He dealt with the charge of ob-
struction and the Masson appointment.

Mr. Cagill was replying to Wallace at
three o'clock when the third day, or 72
hours of continued sitting ended, and
nothing was accomplished.

Next came McNeill with a learned and
moderate disquisition of the bill.
After humorous remarks from Mr.
Davies, the Quebec members had their
turn.

Mr. Choquette protested against the
charge that he was one of the obstruction-
ists. Then Mr. Jones and Langelier took
a hand in and for some time the fur flew.

The discussion was continued up to 6
o'clock by Mr. McGillivray, of North On-
tario, who repelled Clarke Wallace's
charges that he had wobbled on the school
question.

At 8.30, after forty-eight hours of ob-
struction, the motion for the committee
to rise was negatived and the committee
settled down to consideration of the bill.

Clause 7, governing the appointment of
superintendent of separated schools, was
passed.

Then clause eight, defining his duty,
caused a lengthy discussion.

The whole of clause 8 having been dis-
posed of, the committee reverted to sub-
section C., of clause 4, relating to the
selection of school books, which had pre-
viously been allowed to stand.

Hon. Mr. Dickey submitted an amend-
ment providing that any school books used
in any province in Canada might be used
in Manitoba.

Mr. Langelier protested against the
clause as giving the Catholics less than
what they had before 1890, but his brother,
liberal, Mr. Choquette, said Mr. Dickey's
proposal was fair.

Hon. Mr. Dickey's amendment was
adopted, and a further one of Mr. Lan-
gelier to include "the books published in
any country."

Clause 4 as amended was then adopted
and the committee took up clause 9.

McCarthy urged that the house adjourn
as a good night's work had been done.

Sir Charles Tupper said he appreciated
the progress which had been made but in
view of the state of public business it was
impossible to accede to Mr. McCarthy's re-
quest.

Mr. Sutherland protested against Sir
Charles Tupper's announcement, and the
discussion was being continued along this
line, though the opposition will probably
hesitate before entering upon another
period of obstruction. The House has
now been in continuous session for over
80 hours.

In the Senate to-day Sir MacKenzie
Bowell introduced the bill respecting the
Pehring Sea claims convention.

Sir MacKenzie spoke at great length
upon the bill, which was read a first time.

The supplementary estimates for the
current fiscal year have got into circula-
tion although they have not been present-
ed to parliament. The total amount to
be voted is two millions, of which one
million is chargeable to consolidated fund,
and the remainder to capital. Included
in the latter is one million dollars for arms
and ammunition for the militia, the first
instalment of three millions which parlia-
ment is to be asked to vote. \$60,000 is to
be voted to introduce Canadian meats and
other perishable food products in the mar-
kets of the United Kingdom in such a way
that the consumers may obtain them regu-
larly in the best condition under the name
"Canadian." \$10,000 will be the cost of
the Manitoba census and \$12,000 is to
settle unpaid accounts of the territorial
exhibition. There is \$20,000 to provide
for the annual drill, and \$45,000 for the
pay of the active militia at the schools of
instruction, including a school at Halifax
and one at Vancouver. Among the capi-
tal charges is \$265,000 for the equipment
of the "Soo" canal. Halifax gets \$30,-
000 for a new immigration building. The
subsidy for the winter service between St.
John and Liverpool, \$25,000, also appears.
The Canadian Pacific railway gets \$99,000
in the shape of an increased payment at
the rate of \$130 per mile per annum for
the conveyance of mails between St. John
and Vancouver in place of the rates now
paid.

General manager Pottinger and Robin-
son, M. P., of Northumberland, had a con-
ference to-day in reference to the running
of the Indian town branch train. At Mr.
Robinson's request Mr. Pottinger will
issue an order that the trains shall be run
between Indian town and Newcastle each
Saturday evening from May to November.

Opinion is divided among the members
of the cabinet as to the date of holding the
general elections. Some are in favor of
selecting a day about the 26th or 28th of
May and others about the middle of June.
Under any circumstances it is thought
polling will not be later than the 11th of
June.

Kind Words.

Lord Beaconsfield once said: "I should
never have won success had it not been
for one woman, who in the darkest hour,
believed I would win and cheered me on."
Here is something for teachers to think
about. Nothing is cheaper than kind
words—there is no excuse, therefore, for
surliness.

When our immortal Garfield was de-
bating in reference to which college he
should attend, the post brought him an
answer from that great teacher of Wil-
liams' which Garfield said was like the
handshake of a friend. He further proves
that his confidence was not misplaced in
thus defining a true university: "A log
with Mark Hopkins on one end and the
pupil on the other."

Write your name with kindness, love
and mercy on the hearts of your pupils,
and they will cluster around you eager to
receive the fullness of all instruction you
may give. Their lives will be as plastic
as the potter's clay, and you, the master,
may form here a poet, there an artist,
sculptor, or statesman.

True affection is won only by kind
words and kind acts. Breathe not a senti-
ment, say not a word that will offend
these plastic minds or send a thrill of
pain deep down into the heart. Remem-
ber these hearts are sensitive, which a
word thoughtlessly spoken might fill to
the brim with sorrow. Never by word
or sign throw aside smiles of joy that linger
on a pleasant countenance.

Southey, the poet, tells the following
story of himself: "When I was small
there was a black boy in the neighbor-
hood whom we loved to torment by call-
ing him a negro, blackamoor, and such
like offensive epithets. He was excessive-
ly grieved, but said nothing. Soon after
I went to borrow his skates. He let me
have them with a word of welcome.

When I returned they told me I was
under great obligations to him for his
kindness. He looked up at me as he took
his skates and said mournfully: 'Robert,
don't ever call me blackamoor again.'
The words pierced my heart like an ar-
row; I burst into tears and resolved never
to abuse the poor black again."

This little incident is merely given to
illustrate the great power in a few kind
words gently spoken. No doubt Southey
as he merrily glided over the ice, felt the
gentle tapplings of the negro's welcome on
the heartstrings of his conscience; and
the simple request was but the climax
of a feeling gradually arising from a trou-
bled heart.

PREACHER AND TEACHER.

Rev. Chas. E. Whitcomb Rector St
Matthew's Episcopal Church and
Principal St. Matthew's Parish
School, Hamilton, Ont., Found
Great Relief from Dr. Agnew's
Catarrhal Powder.

The rector of St. Matthew's Church
Hamilton, Ont., holds a warm place in
the hearts of his people, not alone because
he is a faithful pastor, but for the work
he has done for the children of Hamilton
as principle of St. Matthew's parish
school. As he has sent forth his influence
through church and school, so he extends
in a wider way, the good properties of
that wonderful medicine, Dr. Agnew's
Catarrhal Powder, by telling the people
of Canada how much it has helped him.
There is something unique in this medi-
cine that secures favour wherever it is
known, and which just now is making
a host of friends because of the certain
relief it gives in cases of hay-fever,
trouble that afflicts many at this season
of the year. As a cure for catarrhal
trouble it has no equal. Sold by W. W.
Stribt.

Smith's Corner.

Having seen no notes from this part
of the district for quite a while, I thought
I would write a few this week.

The roads in this vicinity are very good
at present.

Miss Sarah Jane Lawson is visiting
friends in Bass River.

Our teacher spent the Easter Holidays
at her home in Molus River.

John Pyne and Maggie Robinson drove
to Richibucto on Wednesday. Cheer up
Dave he hasn't got her yet.

Miss Grace Warman left this morning
to take charge of the Grangeville school.
Jack, take an extra pair of gloves the next
time you drive to Grangeville.

Were the roads very bad Sunday night,
Abbie?

Mr. E. J. Hamilton has returned from
Nova Scotia.

SNOWFLAKE.

5 Lines On K. and L.

I find the people around here prefer
Dr. Chase's Kidney-Liver Pills to any
other I have in stock. They are a won-
derful pill. Send 3 dozen at once, I am
nearly out. P. S.—Send by post, J. W.
Ireland, Gourock.

St. Nicholas River Items.

We are having stormy weather just now
but notwithstanding the storms, spring is
near at hand. The late fall of snow has
made the ice unfit for travelling, and much
operations are at a close for the season.

Our friend Mr. John Masterton, who
has been in the States for some time, has
returned home looking hale and hearty.
He will be much missed in Maine as he is
quite a favorite among the fair ones.

Mr. William Grant has also arrived
home making only a short visit to Uncle
Sam's Territory, but rumor says the fair
one will be lonely.

Two of our young men have given up
lumbering operations and are now receiv-
ing a thorough education at Satan's Col-
lege.

The dance of Friday evening was a
failure, as there were very few in attend-
ance, but a good time may be expected
soon.

We have not heard any word from the
cheese factory of late.

Mr. Jas. McKinley, of Mill Stream, P.
Q., was here one day last week looking for
spool wood. If a suitable quantity can
be found we will have the mill next season.
It is to be hoped it will be a success.

It is said that a meeting will be held
soon for the appointment of lady trustees
to manage our school. It is hoped they
will make amendments.

Mat hooking is the order of the day,
young men being employed to tear rags,
while the ladies do the hooking.

Miss Lizzie McLean, accompanied by
her sister, Mrs. Tibbets, has arrived home.

Two Boys.

April 6, 1896.

On account of there being no snow in
the fields and the ice breaking up, the
farmers have quit hauling mud this spring.

Mr. Burton Murray is greatly missed in
this vicinity by some of the fair ones.

Mr. Wm. Grant returned home last
week, after a short visit to Boston.

Miss Alma Little, who has been visiting
friends in East Branch, returned home
last week, after having spent a very en-
joyable time.

Mrs. Tibbets and her sister, Miss Lizzie
McLean, have arrived home from Boston.
Mr. Adam Stothart is busy preparing his
mill for a good spring sawing.

One of our young men is frequently
seen heading South West. It must be to
see some of our fair ones that have just
arrived from Boston.

W. R. and A. C. Graham were visiting
friends in this vicinity last week. A. C.
looks quite pleasant; he don't appear to
find the time long this winter.

Mr. T. Quinn has been visiting friends
in this vicinity.

Mr. J. Hanrahan is expected home soon,
and he will brighten the hearts of some
of our fair ones.

Mr. James Goodwin has been visiting
some of his friends in this vicinity. Jim
is a fine young man.

WILD BILL.

FOR TIRED FEELING.

Exhaustion is Waste-Over-work means
Shorter Life-Dodd's Kidney Pills
means rest for the Kidneys.

Overwork is what you do after com-
mon sense asked you to quit.

Overwork of any kind does more than
tire, it exhausts you.

Just a little after you ought to quit is
the "too much," that uses you up.

The blood goes out to all parts faster
than usual when you overwork.

If the kidneys are not in perfect fil-
tering order, more poison is injected
through them to all parts of the body
than usual, and then work, to say nothing
of overwork, is harmful.

As soon as your kidneys commence
doing good work there is less poison in
the blood every minute.

This explains why Dodd's Kidney Pills
cures so promptly and permanently.

HOUSTON, Tex., April 12.—At Millican,
Texas, a few minutes after 2 o'clock this
morning John Brooks shot and killed his
daughter Mollie Brooks, fatally wounded
her sweetheart, A. C. Worrels, and then
committed suicide. Worrels and Miss
Brooks were lovers and were just leaving
on the train to get married in opposition
to the wishes of the young lady's father.

Children Cry for
Pitcher's Castoria.

The Doctor's Were Wrong

THEY SAID MR. REUBEN PETCH
WAS PERMANENTLY DISABLED

They Apparently Had Good Grounds
for Their Report and on the
Strength of it He was Paid a \$1,500
Disability Insurance—Another
Case in Which Dr. Williams' Pink
Pills Have Brought Health After
All Other Means Failed

From the Meaford Monitor.

Mr. Reuben Petch is a resident of
Gravesville who has been known to the
editor of the Monitor for a considerable
number of years. For several years Mr.
Petch has been in bad health, has been an
intense sufferer and was declared incur-
able by a number of physicians, and was
paid a disability insurance of \$1,500.

Lately, to the astonishment of those who
had known that he was pronounced in-
curable, Mr. Petch has been brought back
almost to his former health. This restora-
tion he attributes to the use of Dr. Wil-
liams' Pink Pills, and knowing that his
story would interest the readers of the
Monitor, a reporter was sent to interview
him. The following is Mr. Petch's narra-
tive as given the reporter:

"I had been sick for some five years.
I consulted in that time with no less than
six of the best physicians I could find,
but none seemed to help me so far as
medicine was concerned. My limbs and
body were puffed or bloated so I could

not get my clothes on. I had lost the use
of my limbs entirely. When I began tak-
ing Dr. Williams' Pink Pills I could not
dress myself and had not dressed myself
for two years previous. I could not even
open my mouth enough to receive my
solid food, and I had to be fed with a
spoon. I seemed to have lockjaw. I
could not get up or down the doorsteps,
and if I fell down I had to lie there until
I was helped up. I could not get around
without a cane and a crutch. My flesh
seemed to be dead. You might have
made a pin cushion of me and I would
feel no hurt. The doctors told me that I
could never get better. They said I had
palsy on one side, caused by spinal sclero-
sis, the effect of la grippe. You might
roast me and I would not sweat. I was a
member of the Mutual Aid Association of
Toronto, and, as under their rules I
was entitled to a disability insurance, I
made application for it. I was examined
by two doctors on behalf of the associa-
tion and pronounced permanently dis-
abled, and was in due time paid my dis-
ability insurance of \$1,500. This was
about two years after I first took sick.
Things went on in this way for a consid-
erable period, and my helplessness was, if
anything, on the increase. I was contin-
ually reading about the cures through the
use of Dr. Williams' Pink Pills, and at
last determined to try them. After us-
ing four or five boxes there was a change.
It first made itself manifest by my begin-
ning to sweat freely. I made up my
mind to give them a thorough trial and
to my surprise I have gained in health and
strength ever since. I take no other
medicine but Pink Pills. I began taking
them when all other medicines and the
doctors failed to do me any good. I
could not get off my chair without help.
I never expected to get better but Pink
Pills have rescued me from a living death,
and now I am happy to say I can work
and walk and get around finely. I eat
heartily, sleep soundly, and feel like a
new man, and I ascribe the cause entirely
to Dr. Williams' Pink Pills. I cannot
say too much in their praise and recom-
mend them highly to all similarly afflic-
ted."

The above is Mr. Petch's ungar-
nished statement of his case and we might add,
we know him to be a respectable, reliable
gentleman, who has no interest in making
the statement only to do good to other-
who might become afflicted as he was.

This strong testimony proves the claim-
made that Dr. Williams' Pink Pills cure
when other medicines fail, and that they
deserve to rank as the greatest discovery
of modern medical science. The public
should always be on their guard against
imitations and substitutes, which some-
scrupulous dealers for the sake of extra
profit, urge upon purchasers. There is
no other remedy "just the same as" or

"just as good" as Dr. Williams' Pink
Pills and the genuine always have the
fall trade mark, Dr. Williams' Pink Pills
for Pale People, on the wrapper round
every box.

St. Margarets.

Thinking that Pat has got buried in a
snowdrift I thought I would write a few
items from our locality.

Most of the lumbermen around here
are about done hauling and are looking
forward to brook driving.

We are glad to see all our young men
home from the bush. We notice of late
James McDonald and Patrick Cook who
were working with Charles Rainsberry, in
Tracadie, also George Flanagan and Roger
Quinn who were up Miramichi for the
past months.

Miss Mary Murphy, of Chatham, is visit-
ing her uncle, Mr. Patrick Holland, of
this place.

Mr. Timothy Quinn has returned home
after an absence of seven years in the States.
His many friends are much pleased to
have him in their midst again.

We are sorry to hear of the sad disap-
pointment of one of our young ladies who
went to meet her sweetheart, but never
mind, Bridgie, he will be along after driv-
ing.

We are at the loss of one of our fairest
young ladies who has departed for Escumi-
nac where she will make her future home.

Miss Bridget Hackett was visiting
friends in Little Branch last Sunday week.
DIXIE.

Nothing Hurts Out Corns

Like tight boots. Corns are very small
affair, but apply to them a tight pair of
boots and all other concern of life sink
into insignificance. Tight boots and Put-
nam's Corn Extractor (the great and only
sure cure for corns) may go together, and
comfort will be their partner; but don't
fail to use Putnam's Corn Extractor.
Frauds, cheap, poisonous and dangerous
substitutes, are in the market. Beware
of them. Putnam's Painless Corn Ex-
tractor. Polson & Co., proprietors, Kingston,
Ont.

Little River Notes.

Our young men are going to the United
States. Some French families have sold
out and gone.

There is one Acadian on Little River
who won't return to the U. States Terri-
tory again for a while. He joined the
United States navy, but six day's service
was enough; a 5 o'clock a. m. cold water
bath in February was too much, so he ex-
changed the suit of blue. The discipline
in a suit of rockmaple is easier than in a
suit of blue.

If our young women go to the U. S.
there may be some bachelor's halls on
Little River again, and according to the
last Molus River notes, bachelor's hall is
such a queer looking place that the writer
wants to be kept from it all the days of
his life.

Mayflower says the champion Ears are
doing a driving business, and they hope
they will soon get rich. Probably if May-
flower will just look in a looking-glass
they might see that person of their good
wishes, and know how rich the champion
has got in one year. Don't throw stones
from a glass house. S. A.

A Caution! A Warning!

If, on blowing the nose in the morn-
ing, lumps and flakes are discharged
colored with blood, especially on one side,
lose no time in apply a remedy. Cat-
tarrh of the worst kind has become seated
the walls are sore and full of small ulcers,
and if not soon cured, will be hard to
cure and eradicate. "A stitch in time
saves nine." Use Chase's Catarrh Cure.

A Voice From Cotesville.

APRIL 4.—I see Rambler has not been
heard from for the past two weeks, so I
will endeavor to give a few details.

The weather is very fine at present and
much hauling is being done.

The many friends of Mr. J. C. Coates
will be pleased to know that he is recover-
ing from his long illness.

One of our young men is preparing for
house building next summer. He must
intend taking a life partner.

Among the visitors in this place on Sun-
day last, were Mr. and Mrs. Coates of
Buctouche, Mr. and Miss McKee of Little
River and Mr. McLean, of Lewisville.

Mr. Taylor Coates has returned home
from the lumber woods. The folk are
all glad to see his smiling face among us
again.

Miss Ramsay, school teacher of this
place is spending a few days with her par-
ents at Buctouche.

Mr. and Mrs. A. F. Coates drove to
Moncton one day last week. JACK,
