COST OF BAD ROADS.

A New York paper, the Recorder, says with regard to country roads in the United States:

According to statistics collected by the office of Road Inquiry of the Department of Agriculture, the amount of loss each year by bad roads of the country is almost beyond belief.

Mr. McGillivray continued his speech until Mr. Somerville arose and said the leader of the house should be called in to choke him off.

Presently McGillivray finished and then Casey entertained the house for an hour, filling in the time by reading from the Nancy Bell, with appropriate comments.

Mr. Flint was speaking when the house rose for dinner, and the char-women commenced to clear up.

After recess the discussion was continued by Messrs. Wallace, McCarthy and Cartwright. The latter asked for the official statement regarding Mr. Masson's appointment to the judgeship.

At ten o'clock Mr. Fraser's motion for the committee to rise was negatived and consideration of clause 10 was taken up.

Little progress has been made in committee with the Manitoba School bill. The present Parliament has only another week to live and we can't see how this bill can be forced through in that short time when the first dozen clauses have occupied the attention of Parliament so long.

PARLIAMENT OF CANADA.

OTTAWA, April 10.—All this morning's time was taken up with a good deal of unnecessary talk by the obstructionists in different ways and on childish subjects, during which the unhealthiness of the chamber came in for a liberal portion of the discussion.

Mr. Laurier said if the hon. Mr. Foster thought his cleverness would draw him out from his position he was very much mistaken. (Derisive laughter.) He had spoken for many years in parliament and out of it and thought he knew how to govern his tongue.

Mr. McGillivray continued his speech until Mr. Somerville arose and said the leader of the house should be called in to choke him off.
