

MR. R. B. ADAMS IN LUCK.—It is reported by his friends that Postmaster Adams, who is absent on leave, is employed by the New York Journal as advertising solicitor at a salary of about \$3,000 a year, with the prospect of an early increase.—Chatham World.

TO SAIL AROUND:—Captain Shand of the Steamer St. Isidore goes to St. John this week to bring the schooner Ada from that port to Miramichi. The Ada has been purchased by Mr. Snowball and is intended to ply during the coming season between Chatham and Tracadie.—Advance.

TO CORRESPONDENTS.—JACK, Moulies River. Notes are too personal for publication. The items might seem funny to you but they would have an opposite effect on the parties whose names were mentioned.

S. A.—Some items in your communication are unfit for publication.

TRIL.—Would you kindly send address.

That love letter will appear in our next issue.

THE PILOTS.—The pilots of the Miramichi held their Annual meeting on Tuesday of last week for the election of pilot master, committee of management, etc. Mr. Robert Walls was re-elected pilot master and Messrs Alex. McLean, Francis Martin and James Nowlan committee of management. The captains of the pilot schooners will be as follows:—Empress, George Savoy. Two Brothers, Geo. Tait. Princess Louise, Asa Wall.—Advance.

VERY SAD.—The death from consumption of Miss Mary Beattie, daughter of Mr. and Mrs. Wm. Beattie, of Kingston, which occurred on Monday evening, recalls the fact that the deceased is the fifth member of that family who have succumbed to that dread disease. And all but one had attained to manhood and womanhood. It is very sad to see a family going one after the other without any being able to do ought to prevent such a calamity. Mr. and Mrs. Beattie have the sympathy of the whole community.

NEW STEAM YACHT.—Mr. J. C. Miller, Commodore of the Miramichi Yacht Club is having a very handsome steam yacht built in Newcastle, by the well known shipbuilders, John Murphy and Thomas Power. The work on this craft is of a superior class. A visit to the shed under which this boat is built, will well repay all who take pleasure in viewing good workmanship. The boat is being constructed after a model designed by Commodore Miller. She is 53 ft. 9 inches in length, and her greatest breadth 10 feet.—World.

A BEAUTIFUL PREMIUM.—The "Farmer's Advocate," of London, Ont., and Winnipeg, Man., has signalled the great Canadian Horse Show of 1896 by issuing a companion piece to its much-admired draught horse premium group, "Canada's Pride," issued some years ago. The production is fittingly named "Canada's Glory," as it portrays an artistically arranged group of the finest individuals of the noblest race of animals extant. The design and the perspective of the picture and the life-likeness of the superb light horses portrayed are worthy of the very highest commendation. We recommend it as a piece of high-class art in animal portraiture, suitable alike for the adornment of the walls of the dining-room, sitting-room, or drawing-room. One cannot study a picture of this sort without being more strongly impressed than before with the nobleness of the equine race while the thought that the gasoline motor will displace the horse becomes the climax of absurdities.

THE BABES IN THE WOOD.—At Moulies River, last Friday, Mr. Edward Babineau was hauling wood and his two children, aged 4 and 6, started into the wood to meet him on his return. By mistake they took a wrong road leading into a plain and deep wood beyond and across Big Cove Brook, so called. Their mother missed them but thought they had gone to Mrs Baldwin's or up the main road where Hugh Graham was cutting wood. Nearly three hours elapsed before special search began. At the end of four hours the little one came out singing gaily. The eldest, Johnnie, said, "If Hattie had not begun to cry I would have gone to the end of the road. Then she got sleepy and she lay down and slept. I stayed with her till I began to think a fox or a bear might come to us, so I woke her and we turned about and walked home." Had the weather been cold, or the slightest snowfall come on, the little ones would have perished. Even a few weeks later bears, which are plentiful in that wood, might have devoured them, as they were nearly two miles in the forest.

DANIEL & ROBERTSON, ST. JOHN.

—The Richibucto Brass Band is steadily improving.

—It is asserted that H. H. Holmes, has confessed to 27 murders.

—This year the St. John exhibition will be held from September 22 to October 2.

—Jennie McArthur, who attempted to murder Mrs. Sherwood in Moncton, last week, has gone to the U. S.

—Dr. R. P. Doherty will be in Kent County this month. See dates in advertising columns.

—Mr. and Mrs. Paul Lezooof are receiving congratulations of friends—it's a daughter.

—Nearly a carload of scenery and stage fixings came from St. John for the Kingston public hall on Monday.

—The first salmon of the season were caught at Bangor, Me., last week, and sold for \$1.00 per lb. One big fellow tipped the scales at 19 lbs.

—In accordance with the provisions of Regulation 20 of the School Law Manual, Inspector Smith has appointed Friday, May 15th to be observed as Arbor Day.

—Dainty dimities, crinkly crepes, pretty zephyrs, breezy lawns, winsome batistes cleanly cambrics and hosts of other weaves. See advertisement of Daniel & Robertson, the quickest mail order house in the Provinces.

—The schooner men are getting their craft ready for the season's work. The pilot boat, Minnie Long, is getting a new set of spars. The fishermen too, are getting their boats ready.

—The dog poisoner has again got some of his work in on the canines of Richibucto. Some of the best "dorgs" in town have been poisoned since last week. It is pitiful to hear children weeping for their pets.

—Mr. Angus Durant received a telegram from Caraquez, Monday, announcing the death of his father which occurred in that place Monday morning. Mr. Durant left in the evening by mail for Harcourt to connect with the I. C. R. express, to attend the funeral.

—Mrs. Campbell, mother of the late Wm. C. Campbell, and Mrs. Moody, Braintree, Mass., and Mrs. Millman, of Boston, sisters, desire to thank their friends in Bass River for their kind attention during that gentleman's long illness.

—The ice on the river is unsafe for travelling on. Teams continued to travel on it up to yesterday and some men are still crossing on foot. Monday evening, Messrs. Lanigan and Trainor, of Kingston, got their team in the ice near the shore above town, and the horse was rescued with considerable difficulty.

—Two men named Joseph Stevenson and Robert Carson were killed, and another man named Allan Carson had his leg broken in St. John Saturday evening by being run over by a train. They were driving in a covered milk wagon and while crossing the R. R. track were run into with the above result. The horse escaped uninjured but the wagon was ground to atoms.

—Mr. James Flanagan, one of the oldest residents of Richibucto, had a narrow escape from burning Monday morning. He upset a lamp in his room and the bed clothes took fire. His son, Daniel, who slept in an adjoining room, called the smoke and reached his father in time to save him. Although the old man's clothing was partially burned he himself received no injuries.

—A Committee of the Health Department, of Liverpool, which has been making enquiries into the subject, alleges that the spread of glanders among horses in that city is due to the importation of Canadian horses. The committee is about to send a deputation to the Board of Agriculture to urge the Government to take restrictive action upon the importation of such animals. The allegations of the Liverpool Committee are emphatically denied, however, by the Canadian officials.

—There are signs of spring in the air. One, or rather two days last week Mr. Wm. Irving, our veteran pilot, was in town casting longing glances into the great beyond—the North Beach. Although Mr. Irving has seen more service than any living pilot here, having served 45 years continuously, he is still as vigorous as some men of far less years and would still be able to send "starboard" or "port" from the top gallant forecabin to the wheel though it blew a hurricane. We trust our old friend will live many years yet and guide many "ocean monarchs" in and out the harbor, for none can better perform this service.

—Mr. P. L. Richard has been appointed manager and salesman for the St. Louis creamery instead of Mr. John B. Vautour. All communications should be addressed to Mr. Richard, St. Louis, Kent Co. The above creamery began operations on the 4th inst. The directors expect to do a larger business this year than in any previous season. The St. Louis butter carried off the first prize at the World's Fair Chicago, and was the only butter manufactured in this province that was awarded a prize at St. John last year. The demand for the product of this establishment is larger than the supply.

S. C. PORTER, ST. JOHN N. B.

—Moncton is to have a street railway.

—Yesterday was the first spring day this season. The snow and ice melted very rapidly.

—Mr. James Vanstone took a drove of fine beef cattle from here to Chatham, yesterday.

—Mr. H. J. McGrath was the only one who went from here to attend the ball in Dorchester last Thursday.

Messrs. James Hains and E. Hayward of Moncton, are enjoying their usual spell, shooting.

—Mr. Richard Hocken, one of Chatham's oldest and wealthiest merchants, is dead. He was one of the most charitable citizens in the place.

—Mr. Edward Hannay, of Kingston, sold a nice horse to Mr. Jas. R. Ayer, of Sackville, last week. The animal was shipped to Sackville by rail on Saturday.

—Ladies thinking of purchasing a fashionable and stylish dress at a moderate price, should read Mr. S. C. Porter's advertisement in to-day's paper. Mr. Porter makes a specialty of all kinds of dress material and will be pleased to mail samples to any address.

WEDDING BELLS.—On Wednesday afternoon the residence of Mr. Jas. Micaud, McNairn, was the scene of a very pleasant wedding. Mr. Jas. Walker, of Spring Brook was united to Miss Lizzie, eldest daughter of Mr. James Micaud, of this place. The bride was very prettily attired in pale blue serge trimmed with cream lace. Miss Effie, sister of the bride acted as bridesmaid and was very becomingly attired in navy blue serge with cream lace trimmings. Mr. Harry Palmer of Spring Brook ably supported the groom. The ceremony was performed by Rev. F. W. Murray of Bass River in the presence of the relatives and a few friends. After a sumptuous repast was served the happy couple took their departure for their future home amidst best wishes. The numerous presents attested to the esteem in which the bride was held.

Mr. J. B. Moody, of Braintree, Mass., called on THE REVIEW on Saturday.

Mr. Marshall, of Bass River, was in town Saturday.

Mr. Stephen Ward, Moulies River, is slowly recovering from his long illness.

THE BEST OF EVERYTHING

Is what we want. This is why we discarded two other systems of shorthand for the

ISAAC PITMAN SYSTEM.

This is the system which won for its author the honor of Knighthood from QUEEN VICTORIA. The only system thought worthy of notice in the Encyclopedia Britannica. It is the fastest and best in existence, and is probably used by more writers than all other systems combined. Used wherever the English language is spoken. Usual by students, clerks, reporters, editors, clergymen, and all classes of intelligent men and women. Catalogues FREE.
