

ACUTE DYSPEPSIA.**A TROUBLE THAT MAKES THE LIVES OF THOUSANDS MISERABLE**

The Only Rational Treatment is to Remove the Cause of the trouble—One Who Suffered Greatly Shows how This Can be Done at a Comparatively Trifling Expense

The life of the dyspeptic is beyond doubt one of the most unhappy lots that can befall humanity. There is always a feeling of over-fullness and distress after eating, no matter how carefully food may be prepared, and even when the patient uses food sparingly there is frequently no cessation of the distressing pains. How thankful one who has undergone this misery and been restored to health feels can perhaps be better imagined than described. One such sufferer, Mrs. Thos. E. Worrel of Dunbarton, N. B., relate her experience in the hope that it may prove beneficial to some other similar sufferer. Mrs. Worrel says that for more than two years her life was one of constant misery. She took only the plainest foods, and yet her condition kept getting worse, and was at last seriously aggravated by palpitation of the heart brought on by the stomach troubles. She lost all relish for food and grew so weak that it was with difficulty she could go about the house and do her share of the necessary housework made life a burden. At times it was simply impossible for her to take food as every mouthful produced a feeling of nausea, and sometimes brought on violent fits of vomiting which left her weaker than before. She had taken a good deal of medicine but did not find any improvement. At last she read in a newspaper of a cure in a similar case through the use of Dr. Williams' Pink Pills and decided to give them a trial. After using three or four boxes there was a great improvement in her condition and after the use of eight boxes Mrs. Worrel says, "I can assure you I am now a well woman, as strong as ever I was in my life, and I owe my present condition entirely to the use of Dr. Williams' Pink Pills, which have proved to me a wonderful medicine. Mrs. Worrel also says that Pink Pills were also of the greatest benefit to her husband, who suffered greatly with Rheumatism in his hands and arms. At times these would swell up and the pains were so great that he could not sleep and would sit the whole night beside a fire in order to obtain a little relief from the pain he was enduring. Seeing how much benefit his wife had derived from the use of Pink Pills he began their use, and soon drove the Rheumatism from his system and he has since been free from the terrible pains which had formerly made his life miserable. Mr. and Mrs. Worrel say they always strongly recommend Dr. Williams' Pink Pills to ailing friends.

These pills are a blood builder and nerve restorer, and there is no trouble whose origin is due to either of these causes they will not cure if given a trial. The genuine Pink Pills are sold only in boxes, the wrapper around which bears the full trade mark, "Dr. Williams' Pink Pills for Pale People." There are imitations of this great medicine, colored pink, which are offered by the dozen, hundred or ounce, or in boxes, without the Directions and trade mark. Always refuse these imitations no matter what the interested dealer who tries to sell them may say.

The Banana

(From Harper's Weekly.)

Something over twenty years ago a New England skipper used to make several trips a year from Boston to the northern ports of Jamaica, and would return to Cape Cod Bay, his fleet schooner laden with bananas, for which he found ready and remunerative sale. Other vessels were added to the business, which grew and prospered, and soon became too important longer to depend upon the uncertain winds, and steamers replaced the schooners. Bananas were offered in quantities greater than our Yankee mariner, with his limited means, could handle, and a company was formed in 1877 with a capital of \$200,000 and two steamers, and the business of systematically growing the banana for export to the United States commenced. From such small beginnings sprang the American company which now practically controls the fruit export trade of Jamaica. Its present capital is \$500,000, and it has a surplus of \$1,000,000, and employs twelve steamers. It ships to the United States every year about 4,000,000 bunches of bananas, besides upwards of 6,000,000 coconuts, and quantities of pimento (allspice), coffee, cocoa, and early vegetables. It employs nearly two thousand men. More than six hundred mules are daily in harness engaged in drawing to ports of shipment its varied products. It owns and controls more than twenty estates, comprising nearly 50,000 acres. Free schools are provided for the children of its employees. It has brought great prosperity to a languishing country and practically created an industry; and its president, the man whose foresight began all this great work and whose energy is now pushing it onward is commonly known among the Jamaicans as the Banana King.

Wreck on Sable Island.

HALIFAX, N. S., July 25.—The dominion government steamer Newfield has just arrived from Sable Island and reports a wreck having occurred there the night before last. During a heavy fog the Raphael D., from Genoa for Bathurst, N. B., soon became a hopeless wreck. All the boats were smashed except one, and in this three men attempted to make land. Their boat was dashed to pieces on the breakers, but the waves washed the men ashore. Here they were found in an exhausted state by the horse patrol of the island. They stated that all on board would perish unless rescued quickly. The horses galloped to the nearest station and as quickly as possible got their apparatus to the scene of the wreck several miles away. Rockets with lines attached were fired across the ship, and with great difficulty all were rescued, although in a nearly perishing condition.

Mill Branch and Vicinity.

JULY 27.—It is quite a long time since there has been any notes from this section of the country in THE REVIEW, and I trust these few lines may find some little corner in your paper where they may be read by friends at home and abroad.

The farmers are busy haying just now, but the crops are very light and weather very uncertain.

Picnics, tea-meetings and basket socials are the order of the day.

Master Allison McDougall, of Bar Harbor, Maine, is visiting his grandparents, Mr. and Mrs. James Cail, of Lower Mill Branch.

I must tell you some of the funny things which are happening up here. Some of our boys seem to have some special attraction at Harcourt which entices them there every week. Say Willy, who is it? W. is very lonesome at present. Say, Duncan, how is it with you?

A basket social was held in upper Mill Branch some time ago, but the boys were strictly temperate, and preferred cold water to anything else. Say, Sank, did it make a good drink?

Who got left at the prayer meeting? was it Chris, Ed., or Irv—g?

Mrs. Margaret Robinson has been visited by her children grand-children and great-grand children this summer. Some of them from Mass. and some from St. John N. B.

We are looking forward to the tea meeting and Apron Fair on the 19th Aug. and expect a good time. "The Grove" (where they purpose holding their "Tea") is in itself some thing worth admiring and is said to be the finest in New Brunswick. It is owned by John Ford of Lower Mill Branch.

The City of the Future.

If all things that are predicted come to pass, life will be well worth living in the city of the future. This is how a writer in the Philadelphia Press puts it.

Flying is solved. The principle is known. A mechanical expedient is all that is now needed to make it successful. Practical flight is to-day not more than five or ten years off.

A glowworm makes light with about one three-hundredth part of the force used in ordinary artificial light. When men know how to make light as cheap, streets and homes will be as light as day for a mere fraction of what light now costs. This is near. Vacuum illuminations without incandescence is already in full operation, and in a year or two should cut down the price of light to a sixth of its current cost, and in five or ten years light in a city may be, like water, turned on in every house at will.

Compressed air has long been known to be the best way, theoretically, to store force for use in transportation. There is no waste and no deterioration. The need is a cheap and efficient motor to apply compressed air to city transportation. If this can be done, first the trolley poles and wires will come down, next the horseless, air-compressed motor carriage will do all the work of city delivery.

When these changes come the only use for gas will be for cooking—if this is not done by electricity. Factories, also, before many years, will be run by transmitted electric power. This has begun to be done and in five or ten years will be completed, and the factory fire and boiler a thing of the past.

The city of the future, and no very distant future, will have no trolley poles or wires and no horses. All movements will be on rails by silent air motors or by horseless carriages equally silent. All pavements will be asphalt. Unlimited light will be as cheap as unlimited water is to-day. No coal will be delivered at private houses and no ashes taken from them. With no horses, no coal, and no ashes, street dust and dirt will be reduced to a minimum. With no factory fires and no kitchen or furnace fires, the air will be as pure in the city as in the country. Trees will have a chance. Houses will be warmed and lighted as easily and cheaply as they are now supplied with water.

A city will be a pretty nice place to live in when the first twenty years of the twentieth century are passed.

Children Cry for

He Wanted to See A Hanging.

The English papers are full of stories of the late shah of Persia, some of which are probably true. When he was visiting England, he frequently expressed his contempt for the mildness of the English law. So he was finally taken to Newgate in order that he might see a gallows. He at once manifested great interest in it, and, expressing a desire to see how it worked, asked the governor to hang a man. The governor explained that he had not at the time a man ready for the experiment, whereupon the shah expressed his contempt. But he intimated that that was of no consequence. "Hang one of these," said he, pointing to his suit, each man of which probably trembled in his shoes. And very great indeed was the shah's disgust when he found that he could not prevail upon the governor to do what he wanted.

Sale of Pure-bred Pigs.

There will be sold at Public Auction at Jardineville, on Saturday, Aug. 1st, at 4 o'clock in the afternoon,

1 pure-bred Chester Sow
1 " " Boar
1 " " Yorkshire Boar
1 " " Sow.

The above mentioned pigs were imported from Ontario by the Local Government.

JOHN JARDINE.

4th Annual Pic-Nic AT KINGSTON.

The fourth annual PIC-NIC in aid of New Hall will be held in Kingston on THURSDAY, AUG. 20th.

Boat races will take place in the morning, starting at 9:30 a. m. Full particulars as to prizes and conditions will be published later.

Immediately after the Boat races or at 12 o'clock noon, dinner will be served. Sports will be continued throughout the afternoon commencing with a 100 yard foot race open to the world. 1st prize, Silver Cup, worth \$3.00; 2nd prize, pair Gold Cuff Buttons, worth \$2.00; 3rd prize, Pocket Knife.

Second event 220 yard dash, 1st prize, Silver Cup, worth \$3.00; 2nd prize, Scarf Pin, worth \$2.00; 3rd prize, Walking Cane.

Third event, Wheelbarrow race, 4th event, Standing Jump. 5th, Running Jump. 6th, Boys Sack Race, for which suitable prizes will be given.

A grand dancing pavillion will be erected on the grounds; a good platform guaranteed and excellent music.

Tea will be served at 6 o'clock. The PIC-NIC sports will be under the management of a committee, who will make every effort to give the public a grand day's sport.

Come one, come all and let us have a good time.

Steam Tugs will run between Richibucto and Kingston during the day.

The Richibucto Brass Band will be in attendance.

Dinner, 25c.; Tea, 25c.; Children, 15c.

BY ORDER OF COMMITTEE.

Notice to Subscribers.

Quite a number of our subscribers are in arrears and as it costs money to run a newspaper we cannot afford to wait for the money for an indefinite period. The publisher of THE REVIEW would very much regret being compelled to hand these accounts to a collection agency but will feel obliged to take that step with all accounts remaining unsettled on or before the 20th of August next.

BARGAINS!

FOR THE NEXT THIRTY DAYS I will give BARGAINS in HOUSE FURNISHING GOODS, comprising Glassware, Earthenware, Woodenware and Tinware. Full stock in every line.

J. & H.W. BRAIT, KINGSTON, KENT CO.

USE PELEE ISLAND WINES FOR DEBILITY NATURE'S TONIC.

E. G. SCOVILL, AGENT PELEE ISLAND GRAPE JUICE.

MARCH 15th,

St. John, N. B.

DEAR Sir—My family have received great benefits from the use of the PELEE ISLAND GRAPE JUICE during the past four years. It is the best tonic and sedative for debility, nervousness and weak lungs we have ever tried. It is much cheaper and pleasanter than medicines. I would not be without it in the house.

Yours,
JAMES H. DAY,
Day's Landing, Kings Co.

E. G. SCOVILL,
TEA and WINE MERCHANT, Wholesale.

62 Union Street, St. John, N. B.
