### Dreadful Casualties.

VICTORIA, B. C., May 27.—The most disastrous accident that ever took place in this vicinity occurred about two o'clock Tuesday afternoon, when an electric car fell through Point Ellice bridge into the arm of James Bay. A sham battle at Macaulay Point was on the programme as part of the celebration of the Queen's birthday and nearly the whole of the population of the city had gone to witness it. The car to which the accident happened contained about 125 persons. In crossing Point Ellice bridge the car left the track, crashed through the railings and fell into the water, seventy-five feet below. The fall was so sudden and unexpected that all the passengers were carried with it. The car floated for a moment and then was carried down by the weight of metal work attached to it. Those inside were unable to escape and were drowned like rats in a trap. Some of those on the outside escaped by swimming. Many were stunned by the fall and being unable to swim were drowned. Several private carriages were also precipitated into the bay, the bridge at the time being crowded with vehicles.

The sad affair cast a deep gloom over the city. The naval review and sham battle were cancelled, as were all the other sports planned for the afternoon. Thousands of sorrowing friends and relatives crowded the approaches of the bridge eagerly scanning each body as it was brought to land. Many heart-rending scenes were enacted as the work of rescue proceeded. Up to 10.30 p. m. sixty-two bodies were taken from the bay. Twenty persons known to have been on the bridge at the time of the accident are missing, and it is supposed they have perished.

CAIRO, Ill., May 27.—The most terrible accident in the history of Cairo happened Tuesday morning, when the ferryboat Katherine capsized and eleven persons were drowned. The boat was near the Illinois shore about a mile below here when a storm struck her. She turned completely over, remaining in that position some time, while the cabin, chimneys and other belongings were carried away, nothing remaining but the hull and engines.

HALIFAX, May 27.—About midnight the Norwegian barque Brodrene, from Avonmouth for Miramichi, about half mile from the whistle of St. Paul's Island, by thick fog and heavy sea, was capsized. Captain H. Wilson, the first mate, H. N. Swenson, second mate, Theodore Person; seamen Harold Nelson and Ewel Soterson were lost, and five men saved. The crew heard the fog alarm half an hour before they struck.

### The Great Cyclone.

ST. LOUIS, May 28.—The history of the storm's movement last night is quickly told. The day was an oppressive one in the city. There was no wind and the people suffered from the heat. About four o'clock in the afternoon the entire western horizon was banked with clouds. These were piled one upon the other with curling edge, yellow in tinge. A high wind sprang up and sudden darkness came upon the city. This darkness increased until the storm broke. It gave the first alarm to thousands of people in the streets, at pleasure parks, in light crafts on the Mississippi or at work in the great mercantile establishments. There seemed to be three separate cyclones. They came from the northwest, and southwest and west. When they reached the Mississippi they had become one. It was a quarter to five when the storm broke. Its descent was so sudden that woman and children were caught in the streets and hurled to destruction or buried under falling walls. Before the mass of clouds in the west, hanging over the villages of Clayton, Ferneridge, Eden and Central, gave vent to their frightful contents, the funnels shot out from them. Some of these seemed to be projected into the air, others leaped to earth, twisting and turning. Lightning played about them and there was a marvellous electrical display. Then came the outburst. Three of the funnels approached St. Louis travelling at the rate of eighty miles an hour. From the clouds above strange crackling sounds came. This filled the air and at times was stronger than the incessant peals of thunder. Funnels enveloped the western side of the city and in thirty minutes were wreaking destruction. So destructive was the cyclone and so irresistible and so much greater in magnitude than any other the country has previously known that some of the staunchest business blocks went down before it. Iron beams were torn from their fastenings and carried blocks away as if they were feathers.

### Awful Butchery

SAN JOSE, Cal., May 27.—The most horrible crime in the history of the county was perpetrated at Campbell, a small place about six miles southwest of this city last night. Col. R. P. McGlinchy and wife, their daughter, Mrs. James Dunham, James Wells, a hired woman, Minnie Shesler, and a hired man, James Briscoe, were killed by James Dunham, son-in-law of Col. McGlinchy. About 11 o'clock last night a neighbor named Page heard shots in the direction of the McGlinchy home, and hurrying thither found the body of McGlinchy lying in an outhouse in a pool of blood. In the house he found the bodies of James Wells, who had been shot, Mrs. McGlinchy and her daughter, who had been stabbed to death by the assassin, and a hired man and girl, who had been hacked to death with a hatchet. The murderer made good his escape.

Everyone seems to be in absolute darkness as to the motive for the crime. So far as known Col. McGlinchy and Dunham were on amicable terms, and if there was any family skeleton in the closet no one seemed to know it. The murdered family was one of the best known in the valley, being members of the San Jose Grange and prominently identified with the fruit business. The last seen of Dunham he was riding rapidly towards San Jose. The only being in the house who escaped alive was a baby one month old, the child of Mrs. Dunham and the murderer.

### Sudden Death of a Priest.

MEMRAMCOOK, May 27.—Rev. Joseph Bazoge, C. S. C., one of the curates of Memramcook died suddenly Wednesday morning of heart disease. He had attended a sick call the night before, returning to the presbytery about midnight. His death has not occasioned so much surprise as did that of Father Lefebvre sixteen months ago, as it was generally known that his heart was affected. Father Bazoge was born in France in 1832. He served in the French army during the Crimean war, was present at the siege of Sebastopol and received an honor medal at the conclusion of the war. He came to New Brunswick in 1864, taught for some time in St. Joseph's College, then first founded, and afterwards as pastor in Madawaska, Barachois and Cocagne. During the past eleven years he has been one of the assistant priests in Memramcook, where his funeral took place on Friday at 10 a. m.

The following is a list of candidates in the different counties of the province:

### CURED OF SCIATICA.

THE EXPERIENCE OF A BRUCE CO. FARMER.

Suffered So Severely That He Became Almost a Helpless Cripple—Is Again Able to be About His Work as Well as Ever.

From the Walkerton Telescope

During the past few years the Telescope has published many statements giving the particulars of cures from the use of Dr. Williams' Pink Pills. They were all so well authenticated as to leave no doubt as to their complete truthfulness, but had any doubt remained its last vestige would have been removed by a cure which has recently come under our personal observation. It is the case of Mr. John Allen, a prominent young farmer of the township of Greenock. Mr. Allen is so well known in Walkerton and the vicinity adjoining it, that a brief account of his really remarkable recovery from what seemed an incurable disease will be of interest to our readers. During the early part of the summer of 1895, while working in the bush, Mr.

Allan was seized with what appeared to him to be rheumatic pains in the back and shoulders. At first he regarded it as but a passing attack, and thought that it would disappear in a day or two. On the contrary, however, he daily continued to grow worse, and it was not long before he had to give up work altogether. From the back the pains shifted to his right leg and hip where they finally settled and so completely helpless did he become, that he was unable to do more than walk across the room and then only with the aid of crutches. Of course he consulted the doctors, but none of them seemed able to do him good. People in speaking of his case, always spoke pityingly, it being generally thought that he had passed from the world of activity, and that he was doomed to live and die a cripple. We are free to confess that this was our own view of the matter, and our surprise, therefore, can be readily imagined when some few weeks ago, we saw this self-same John Allen driving through the town on the top of a large load of grain. Great however, as was our surprise at first, it became still greater when on arriving at the grist mill he proceeded to jump nimbly from the load, and then with the greatest apparent ease began to unload the heavy bags of grain. Curious to know what it was that had brought this wonderful change, we took the first convenient opportunity to ask him. "Well," said he in reply, "I am as well a man as I ever was, and I attribute my cure to Dr. Williams' Pink Pills, and to nothing else." Mr. Allen then gave us in a very frank manner, the whole story of his sickness, and his cure, the chief points of which we have set forth above. After consulting two physicians and finding no relief, he settled down to the conviction that his case was a hopeless one. He lost confidence in medicines, and when it was suggested that he should give Pink Pills a trial, he at first absolutely refused. However, his friends persisted and finally he agreed to give them a trial. The effect was beyond his most sanguine expectations, as the Pink Pills have driven away every trace of his pains and he is able to go about his work as usual. As might be expected Mr. Allen is loud in his praise of Pink Pills, and was quite willing that the facts of his case should be given publicly, hoping that it might catch the eye of someone who was similarly afflicted. Dr. Williams' Pink Pills, act directly upon the blood and nerves, building them anew and thus driving disease from the system. There is no trouble due to either of these causes which Pink Pills will not cure, and in hundreds of cases they have restored patients to health after all other remedies had failed. Ask for Dr. Williams' Pink Pills and take nothing else. The genuine are always enclosed in boxes the wrapper around which bears the full trade mark "Dr. Williams' Pink Pills for Pale People." May be had from all dealers or sent post paid on receipt of 50 cents a box or six boxes for \$2.50 by addressing the Dr. Williams Medicine Co., Brockville, Ont.

### CARD

To the Electors of the County of Kent: GENTLEMEN,—The Dissolution of Parliament again imposes upon you the duty of electing a representative at Ottawa, and the Electoral Writs summon you to the discharge of that duty on the 23rd of June next.

Permit me to thank you, heartily, for the confidence you reposed in me on the 6th of December, 1892.

The mandate you then so generously, confided to me, I return to you, unsullied. I have regarded it as a public trust, and have faithfully endeavored, within the measure of my ability, to discharge the obligations it laid upon me.

Believing that my experience of the last four years may be of some benefit to the Constituency in the future, I respectfully solicit a renewal of your confidence.

I submit for your approval that Policy—truly national—which has advanced the credit of Canada, fostered native industries, conserved the home market for our agriculturists and manufacturers, increased our Foreign Trade, and engendered that spirit of union without which national greatness is impossible.

I favor: Preferential Trade within the bounds of the Empire; A Fast Atlantic Service; The Development of Agriculture; An Efficient National Defence; The Encouragement of Immigration; The Admission of Newfoundland into this Confederation, and Justice to minorities whether in Quebec or Manitoba.

I support Remedial Legislation because with Sir Leonard Tilley, "I look at it as a solemn compact between the Parliament of Canada and the people of Manitoba."

It is the decision of the highest Court in the Empire.

It is a constitutional guarantee of the rights of Provincial minorities—Protestant as well as Catholic—and the highest patriotism inspires and compels respect for the letter and spirit of the Constitution.

I confidently, await your enlightened and unprejudiced approval of the moderate attitude I have taken on this question.

I will attempt, at public meetings to discuss the political issues of the day, and endeavor to see as many of you, personally, as possible.

Again soliciting your support, I am, Gentlemen, Your Obedient Servant, GEORGE V. MCINERNEY. Richibucto, N. B., May 13th 1896.
