in THE REVIEW.

DRS SOMERS & DOHERTY,

DENTISTS.

Office—Y. M. C. A. building, Moncton. References—New York College of Dental Surgery, and University of Pennsylvania.

Visits will be made to Kent County every month. Harcourt on 16th, 17th and 18th. Kingston on 19th, 20th, 21st and 22nd. Buctouche on 23rd and 24th.

Agricultural Implements.

Having secured the Agency for the Massey Harris Co., Ltd., I am prepared to supply the farmers of Kent County with all lines of Agricultural Implements cheaper than can be supplied by any other agent, as the goods are sent direct from the manufacturers.

GEO. E. WARMAN,
Molus River, April 25.

LIFE INSURANCE AT COST.

The Mutual Reserve Fund Life Association of New York issues life policies at about half the old line rates, and returns to the policy holders at the end of ten years the earnings of their share of the reserve which makes it the cheapest life insurance in the world, considering the security offered. The company has a reserve fund of \$3,700,000 and have paid to deceased policy holders upwards of \$19,000,000. Lieut. Col. James Domville, 134 Prince Wm. Street, St. John, is manager for the Maritime Provinces. James T. Kirke, Special Traveling Agent for N. B.

P. S.—Some desirable territory for Agents may yet be secured.

Commission Merchant.

All kinds of country produce sold on Commission. Quick sales and prompt returns. Highest market prices realized.

O. S. MACGOWAN,
P. O. BOX 117, MONCTON, N. B.

CONNORS' RESTAURANT, Main Street, Moncton,

Next door to the K. Shoe Store.

Meals served at all hours.

Oysters, Roast Fowl, etc. Highest cash prices paid for Buctouche Oysters.

The New Idea.

Are you bright and clever? If so, you have plenty of ideas of your own, also sense enough to grasp good new ones when offered. What do you think of a \$2 column Illustrated Monthly Paper, each issue containing a Piece of Music, Vocal or Instrumental, Latest Fashions, Good Stories, Household, Toilet and Fancy Work Hints, all for 25 cents a year, postpaid? Seems too good to be true, but we give you exactly what we advertise. Send 25 cents and see for yourself.

THE NEW IDEA CO.,
1441 Broadway, New York City.
Agents wanted. Liberal commission paid.

NEW YORK MUSICAL ECHO.

The handsomest musical and fashion journal in America, full sheet music size, 32 pages and handsome cover, containing from ten to twelve pieces of vocal or instrumental music, besides four or five portraits of leading actresses. Subscription by the year, \$1.50, sample copy, 10 cts. Address

THE NEW YORK MUSICAL ECHO CO.,
Broadway Theatre building, New York.
Agents wanted. Liberal commission paid.

WESTMORLAND Marble Works,

T. F. SHERARD & SON,
Dealers in Monuments, Tablets, Headstones.

Cemetery work of every description neatly executed. Orders promptly filled.

Impossible.—"Come, Rosie, and sit on your father's lap."

When you want to see the crooked made straight look at a railroad map.—Ram's Horn.

A girl gives her lover a mitten, we suppose, because a pair is out of the question. Binghampton Leader.

"What's the matter with Cholly?" "He's sick. Somebody gave him a real tobacco cigarette."—Washington Star.

No charge to florists for this advice: If you would have your plants start early put them in spring beds.—Lowell Courier.

Mrs. Bilkins—"What a commanding presence that lady has." Mr. Bilkins—"Yes, I guess she's married."—New York Week.

Basket Social

A Basket Social will be held at Molus River, at the house of Thomas Whalen, on August the 18th, commencing at one o'clock. Tables will be provided with all the delicacies of the season. A first-class musician will be in attendance, where the young, the old and middle aged can trip the light fantastic toe.

The proceeds to go in aid of the Roman Catholic Church.

All are cordially invited to attend.

Football Championship for 1895.

The knowing ones are speculating on the football possibilities of the season. Ottawa is not likely to retain the honors of the championship, as Queens will put in a team sure to smash all records. It is often the case that very slight causes will lose a victory. It is stated that a painful corn made useless one of the best American players. It follows that no team can hope to win this year that neglects to supply its members with Putnam's Painless Corn Extractor, the only safe, sure, and painless remedy for corns.

Does Your Husband or Son Drink?

refunded. Tablets may be given secretly in tea or coffee and the free use of stimulants allowed until voluntarily given up. Price \$1.00 per package. If your druggist does not keep them, send direct to The Ohio Chemical Works, Lima, Ohio. Book of particulars and testimonials free.

Telegraphing Without Connecting Wires.

Interesting experiments have recently been made under Mr. W. H. Preece, with a view to electric communication between distant points without wire connection, namely, through air, water, or earth. Mr. Preece proposed to conduct experiments in three different methods. First, by running a wire along the shore on light poles for a distance of about a mile, and a second wire from stem to stern of the ship, the two acting upon each other inductively through the intervening space; secondly, by suspending a short line over the side of the ship, so that it might dip into the sea in the direction of the end of the shore line, to work by conduction through the sea; and, thirdly, by running out a light cable from the shore to the ship, terminating in a coil at the bottom of the sea, near the ship, but not attached to it, while another coil is placed on board. These two coils are expected to act inductively, and to give ample sound on telephones by means of rapid alternations. The experiments by the first method have been carried to a successful issue within the last few days, the shore wire having been erected along the Welsh coast, commencing at Lavernock Point, a little south of Cardiff, and proceeding for a mile in the direction of Lavernock House. The lights were represented for the occasion by the island of Flat Holme, in the Bristol Channel; and the line there erected, parallel to the first and three miles distant from it, was about half a mile long. The shore line was furnished with a powerful generator at Lavernock Point, and the island line with a sander to receive the messages. The result was that the words dispatched into the mainland wire were heard on the island with perfect distinctness, but we can scarcely admit that Flat Holme represents the conditions of a ship. This method is analogous to that suggested by Mr. Edison for establishing telegraphic communication between ships when at sea.

ABOUT BICYCLING.

Its Beneficial Effect if Gone About in Sensible Fashion.

Adjusting the saddle properly has much to do with safe and comfortable riding. The rule should be to keep the saddle as near parallel to the bar as possible. Avoid tilting, especially backward. Breathe through the nose; if forced to breathe through the mouth, keep the tongue well pressed against the upper front teeth—to avoid inhalation of cold air, the force of which should be broken by passing through the nose and warmed for inspiration.

A sponge bath with tepid water and friction is beneficial immediately after a ride in the open air. Sponging with diluted alcohol relieves the muscular soreness and stiffness.

Ice cold drinks, pastry and sweets are not conducive to health at any time. A cyclist, after a long spin, needs foods to supply the tissue waste. The hunger which a ride in the park provokes is such that one can and should eat only health-producing food. "Hungry enough to eat anything!" That anything should be fruit, sandwiches and milk. Tea made from beef extract is stimulating and refreshing.

Violent riding will produce heart disease. Women suffering from shortness of breath will find the exercise dangerous.

Only a sponge and friction bath should be taken immediately after riding. The body is too fatigued; a full plunge is then too exhausting.

With proper adjustment of the saddle and attention to dress at seasonable times moderate cycling will result in benefit to the majority of women.—Philadelphia Times.

RAIN FALLS CONSTANTLY.

Umbrellas Are Always Up in a New Zealand Group of Islands.

There is a group of islands to the south of New Zealand called the Sisters, or Seven Sisters, which are reputed to be subject to a practically constant rainfall. The same may be said of the islands and mainland of Tierra del Fuego, saving for the difference that the rain often takes the form of sleet and snow.

On a line running round the world from four to eight or nine degrees there are patches over which rain seldom ceases to fall. This is called the "zone of constant precipitation," but at the same time there are several localities along it with very little rainfall. The divisions are most capricious. Thus, for instance, while the town of Panama has a six months' dry season and a very fine wet one, Colon, on the other side of the Isthmus, about 37 miles away, is deluged with rain during the wet season.

He Could Cook.

A Lewiston man has been complaining lately that his wife does not pay enough attention to cooking "for to-morrow." At such times his wife has remarked, "Why don't you cook yourself?" The last time she said this was at supper time Monday night. He didn't answer, but after supper he filled the cook stove with wood, took off his coat and started in. He got her cook book down and began at the commencement, and made two pans of doughnuts, two batches of biscuit, molasses gingerbread, hasty pudding to fry for breakfast, cookies, tarts, six custard pies, boiled vegetables for breakfast hash, and in half an hour had the stove covered with dishes of all kinds. His wife went out into the kitchen and dropped speechless into a chair. At half past 11 that night he washed the last dish and closed the dumb waiter—filled with food which compared very well with some his wife had made, and went to bed. The next noon his wife handed him a bill of \$7.49 which she said was the amount of raw material he had used the night before. "Are you going to cook as much as that every day?" she asked.—Lewiston Journal.

Home Coming.

I have often thought that the home coming of any of the family who have been away should be made as much like a festival as possible. When one of us has been away visiting friends and enjoying new scenes, and being made much of and entertained as a guest of honor, there is sometimes a rather sudden letting down, and a little sense of flatness in the return to the domestic fireside. And, if people have been traveling and their minds kept more or less on the qui vive, they cannot at once resume quiet ways and slip into routine without an effort; to expect them to do so would be to ask a creature, which has been flying around in freedom, to put itself into harness and assume a load, without noticing the difference between the former and the latter state.

Harrowing.

The progressive farmer now does most of his cultivating of what used to be hoed crops with the harrow. He harrows before planting and after planting, before and after the crop is up, and keeps harrowing until the cultivator is called in because the harrow can't reach the ground on account of the big growth of the crop. Such use of the harrow would have scared a conservative farmer out of his wits a few years ago, but it means clean fields and good crops at the minimum cost of labor.

Do Not Neglect to Pray.

Dear children, do not neglect to pray, but make it one of the most pleasing duties. God hears the prayers of good and true children. When you begin to pray—whether it is in the temple or at home—then "know before whom thou standest" and feel that you are before God, and that His loving eye is upon you and that He will answer you when you pray with humility and devotion.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless your or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of *Chas. H. Pitcher* is on every wrapper.

Children Cry for Pitcher's Castoria.
