Miss Potts of Buctouche is spending a few days with Miss Wilson. Miss Gertrude McDonald of Lynn is visiting her sister Miss McDonald. Mr. William McInerney of New York arrived here on Monday to visit his old home. Miss Minnie Gifford is staying at Mr. Brant's. Mr. Elwin Bowser sends very encouraging reports from the Mountains in New York whither he, in company with his sister, is journeying for his health. Miss Burke left Kingston by mail on Monday evening. The many friends of Will Bowser of British Columbia were pleased to see him home again on his pleasant trip. We wish Mr. Mrs. Bowser many happy days in their far off home. Miss Ida Roberts and Miss McCullough of Buctouche were in Kingston on Saturday. There is nothing like beginning in time and we commend the work of the person who gathers furniture when he has the chance. Quietness reigns with us. Last week we were entertained by the delegates who attended the Sabbath School Convention. We were pleased to see our friends gathered with us and hope they will come again. Of course some lingered longer than others but we hope that they all felt welcome.

Patents on Harvesters. The following information is prepared specially for THE REVIEW by Messrs. Marion & Laberge, Engineers and Patent Solicitors, Temple Building, Montreal:— Ten thousand three hundred and thirty three patents have been granted for harvesters. In 1871 some of the essential features of the modern harvester had already been invented and some experimental machines had been tested in the field, but farmers were then using nothing more than the ordinary mowing machines and reapers from which the grain was raked in gravel and bound by men who followed the machine.

Since that time the art of harvesting grain has been revolutionised by the invention and introduction of the automatic self-binding machine. The patents to Locke No. 149,233, 21 March, 1874, and No. 121,290, November 28th 1871, show a wire binding attachment for harvesters under which a great many machines were built, and which continued in use until development of the twine binder.

The patent to M. L. Gorham, No 158,506, February 9th, 1875, was probably the first twine binder to operate successfully in the field, and was considered a pioneer invention by the court in the recent case of the McCormick Harvesting Machine Co. vs C. Aultman & Co.

Almost all the twine binders built in the United States have been built under one of two patents—one to H. A. & W. M. Holmes, No 210,533, December 1878, and the other to Appieby, No 212,420, February 1879.

They restore enfeebled, enervated, exhausted, devitalized or overworked men and women to perfect constitutional power. Weak and pale girls and women soon regain vigorous health.

When all other remedies fail Dr. Chase's Linseed and Turpentine will cure the worst chronic cold. 25 cents.

HAD INDIGESTION! For a Matter of some Forty Years or More. Joseph Gardner, stove dealer, of Bath, Ontario, is a great believer in Dr. Chase's Kidney-Liver Pills for indigestion, constipation, dyspepsia, Bright's disease, rheumatism, and kidney, liver and stomach troubles generally.

"I was troubled for over forty years with indigestion and constipation," he writes. "At intervals I suffered from severe headache. I spent dollars and dollars without result until Mr. Ball, our druggist, advised me to try Chase's Kidney-Liver Pills. I did so, and must say that they are the only remedy that gave me relief. I would not be without them for anything."

Many people suffer from rheumatism. Bad blood and diseased kidneys bring it on. Dr. Chase's Kidney-Liver Pills will remedy all this and cure rheumatism, sciatica and all kindred complaints. Here is a sample case: "My boy was all crippled up and suffered awfully with rheumatism," writes Mrs. H. Willis, of Chesley, Ont. "He also had a touch of diabetes. The doctors could do him no good, but Dr. Chase's Kidney-Liver Pills completely cured him."

Crop reports from all around us show a good harvest and some one has suggested a "Harvest Supper." We trust that the right ones may take hold of this and make it a success.

THE WIDE, WIDWORLD

In consequence of the receipt of a peremptory British note the Sultan of Turkey has issued an irade ordering that the expulsion of Armenians from Constantinople be stopped. The powers are said to be seriously considering the question of deposing the Sultan. Important developments are expected from the action of Sheikh-Uhl-Islam, whose fiat is necessary for the legal removal of the Caliph. The belief is prevalent at Zanzibar that Germany does not intend to acquiesce in the appointment by the British government of Hamud Bin Mahomed Bid Said sultan of Zanzibar.

The remaining £6,000,000 of the Chinese loan of £16,000,000 has been issued in London and Germany. The security is five per cent. gold bonds and the issue price was 99.

A German physician says that Stanley owes the fact that he alone of those who made up his party has so long survived the most dangerous of his African trips to his having submitted five times to a transfusion of African blood into his veins, which is believed in Africa to be a great aid to acclimatization.

Henry Warford and his four sons were drowned in the Straits of Bellisle while returning from a fishing voyage.

The failure of the Labrador fishery has started another flood of emigration that is likely to result disastrously to the colony. About 120 emigrants started from St. John's for the United States and Canada by the steamer Portia on Friday. Several hundred more fishermen are arranging to go within the next few weeks.

Fifty-one insurgents confined in Cabana fortress and Morro castle, Havana, were shot on Sunday.
