A VICTIM OF SCIATICA.

UNABLE TO WORK THROUGH STRONG AND WILLING.

The sufferings of a well known Guelph citizen—could not move about without the aid of a stick—again as strong and healthy as ever.

From the Guelph Mercury

There is perhaps no business or occupation that any man could follow that is more trying to the health—particularly in the winter—than that of moulding. A workman leaves the shop with his clothing wringing wet from perspiration, and a cold wind chills him to the marrow, making him a ready mark for lumbago, sciatica and kindred troubles. A moulder requires to be a man of more than ordinary strength, and to continue at his work must always be in good health, for the moulding shop is no place for an invalid. Sciatica is by no means an uncommon affliction for men of this craft,

Children Cry for Pitcher's Castoria.

and once the dread disease has landed a victim he seldom shakes himself free from it again. In fact some people declare that it is incurable, but that it is not we are able to testify by a personal interview with one once afflicted with the trouble, but who is now in perfect health, thanks to his timely use of the famous remedy. There are few workmen better known in Guelph than Chas. W. Waldren, perhaps better known as "Charley Waldren," for he has lived in Guelph almost continuously since he was three years of age, and he has now passed the 38th mile post. Mr. Waldren is a moulder, and has worked at that business for 22 years; and besides, being noted as a steady workman, he is a man whose veracity is unquestioned. It is a well known fact here that Mr. Waldren had to quit work in January 1896, on account of a severe attack of sciatica, and for eleven weeks was unable to do a tap. Knowing that he was again at work a Mercury reporter called at his residence one evening to learn the exact facts of the case. Mr. Waldren, when spoken to on the subject, replied quite freely, and had no hesitation in crediting Dr. Williams' Pink Pills with his remarkable recovery. "I am not one of those people who are seeking newspaper notoriety," said Mr. Waldren, "neither have I been snatched from death's door, but from the day when I quit work, until March 30th, when I started again, I was confined to the house with sciatica. It located in my hip and would shoot down my leg to my foot and was very painful. I could not move about the house without the aid of a cane, and then only with great pain. I was totally useless as far as doing my work was concerned, was never free from pain, and it made me feel very much depressed, for beyond that I felt strong and anxious to be about. I am a member of three benefit societies, from which I drew pay, viz: The Three Links the Iron Moulders' Association, and the Raymond Benefit Society. People came to see me, and of course everybody recommended a sure cure. I didn't try half of them. It was not possible, but I tried a great many—particularly remedies that I had been in the habit of using for lumbago—but I found no relief. I tried Dr. Williams' Pink Pills. After using two boxes I noticed an improvement, and I kept on using them. When I had used six boxes I was back at work again. I kept on until I had finished the 8th box, and I never felt better in my life.

"Have you noticed any recurrence of trouble since?" queried the reporter. "I have not," he replied, "suffered a single twinge since." Mr. Waldren has worked in all the moulding shops in the city, and was never in his life laid off sick as long as he was from the attack of sciatica. He hardly knew what it was to be sick, and is of that tough wiry nature that he can stand much greater physical strain than most people would imagine. Almost any person in the city can verify his story. Mr. Waldren said, as the reporter got up to leave, "I only hope some poor fellow who has suffered as I did may notice my case and get relief as I did."

Dr. Williams' Pink Pills create new blood, build up the nerves, and thus drive disease from the system. In hundreds of cases they have cured after all other medicines had failed, and thus establishing the claim that they are a marvel among the triumphs of modern medical science. The genuine Pink Pills are sold only in boxes, bearing the full trade mark, "Dr. Williams' Pink Pills for Pale People." Protect yourself from imposition by refusing any pill that does not bear the registered trade mark around the box.

Compromising With Conscience

[From Tid-Bits] He was a mean creature and to his meanness was added such designing wickedness as is rarely shown by man. He went into a newspaper office the other morning and offered the following advertisement for publication: "Notice—If the plain-looking woman, about forty years of age, who lost a purse containing £2 12s 6d in S—street, on Tuesday afternoon, will apply to—, she can have the money by paying for this advertisement."

JONES' BABY CARRIAGE.

He Put it Together Himself and Then Swore at the Firm That Sold it.

An important event had happened in young Mr. Jones' household, and he came to this city to buy a baby carriage. Nothing was too good, for him, and he finally selected a delicate creation of wickerwork, with Russian leather trimmings and pale blue silk and lace. Jones lives in Jersey, half an hour's ride from this city.

The carriage arrived next day boxed up with as much care as though it had been a crate of china or a racing bicycle. The wheels came in a separate box.

Mrs. Jones had always declared that her husband was stupid in doing work about the house, but she made no remonstrance against her husband putting the baby carriage together.

He succeeded finally in unpacking the carriage and wheels, though in doing so he nearly smashed his thumb with a hammer. He screwed on the wheels, and then setting the carriage up examined his work with a critical eye.

Certainly the vehicle had a peculiar appearance. It seemed lopsided, having a decided list to starboard. "That ain't the one I ordered," said Jones to the nurse-girl, who came in just then and had fixed a pair of wondering eyes on the carriage. "The one they sold me was straight, and I'd like to know what they take me for to send a thing like this." Jones gave the carriage a vicious push and it wheeled around in a circle, as a duck swims when one side is paralyzed by a shot.

Jones was mad clean through. He had the carriage put in the cellar and wrote to the firm from which he had purchased it to send a man to take their "lopsided swindle" away.

Jones hadn't cooled off when a man came to look at the carriage. The man listened patiently to Jones' opinion of the firm while he was getting the carriage out of the cellar.

"Why, you blamed fool!" he replied, however, when the vehicle was finally submitted to him for inspection. "No wonder it's lopsided! You've put both big wheels on one side and both little ones on the other."

Jones begged the man not to say anything about it and gave him some good cigars and opened a bottle of fine old Tokay. But the thing was too good to keep. The man told one of Jones' neighbors whom he met outside the house, and so the story spread. That's the reason people look curiously at the carriage when Jones takes the baby out, then at Jones and then snicker.—New York Herald.

Art of Putting on a Stamp.

"When you put a postage stamp on an envelope," said a precise man to his son, "you should put it on square and true, in the upper right-hand corner, and as near as possible to the margin of the envelope. You put it on at the right-hand corner for the convenience of the stampers in the Post Office, so that it may be uniform in location with the stamps on other envelopes and so more conveniently and expeditiously stamped; you should study the comfort of others as well as yourself. You should put it as near as possible to the corner, so that the canceling stamp will be less likely to deface and so perhaps obscure the address on the envelope."

"You should put it on square and true, because that is the methodical and proper way to do. Many persons are disturbed by the appearance of a stamp put on in a careless and slipshod manner. And I can easily imagine that such a practice might work positive injury to you. You might have occasion to write to a man on a matter of business that was of importance to you. You might compose and write this letter with faithful care and set forth what you had to say with commendable clearness and precision, and yet upset it all by slapping on a stamp carelessly; the recipient might judge you by the one slight act done naturally rather than by the studied work done with a purpose.

"My son, don't do it; put the stamp on where it belongs, so that the little touch of color will grace the envelope and not deface it."—New York Sun.

True Meaning of "Tabby."

"Nice Tabby!" "Pretty Tabby!" "Poor little Tabby!" were phrases often heard at the Cat Show at Madison Square Garden. Very few of the thousands who went to the show probably knew the meaning of the word tabby. The misapprehension that it means a female cat, just as tomcat means a male, is common. Many people suppose that tabby is a name applied to cats in general. It really means cats whose fur is marked in a certain way, and so there are both male and female tabbies.

The tabbies are divided into banded and spotted furred cats. The name is derived from Atab, a street in Bagdad celebrated for the manufacture of watered silks, which, when sold in England, were called atabi, or taffety, and from their resemblance to watered silk were called tabbies. It is one of the commonest of colors, or markings rather, and is found in many breeds of cats, but a uniformly marked tabby is comparatively rare and valuable.

An Armless Man's Sincere Wish.

Mr. Lynch, of Elizabeth, who has no arms, was told one night last week about a man in this city who is similarly afflicted. "Is that so," said Mr. Lynch. "Well, the best luck I can wish him is that we may meet some day and shake hands."—Newark (N. J.) Call.

2d TIME PRIZE WON BY F. GRAVES ON A MCCREADY

In many respects Cassidy's ride is a remarkable performance. Unlike the riders who started from scratch, who alternated in making the pace, he had to ride practically unopposed the whole distance. The time would have been considerably skin to knuckles if he had ridden the twenty miles over a free course, but the fact that he had to ride in a blinding cloud of dust, treading his way here and there through straggling bunches of riders, over a road honeycombed with ruts and holes, makes it a truly great achievement. Cassidy has quite a reputation as a track rider, and has beaten all the best men in the amateur ranks at one time or another during the season.—Toronto Globe
