TAUGHT A DOG TO SING.

New York Central Engineer Claims He Accomplished the Feat.

John Porter, a New York Central engineer, has a dog that he is teaching to sing, Roger, the dog, has been trained to perform every time a member of the Porter family opens the piano. In showing off the other day he kept time to the accompaniment. His style of singing was by yelping in time to the notes played on the instrument. When it ran soft and low, his voice sank almost to a growl; when the notes rose in loud strains Roger pointed his nose to the ceiling and sang a wild, long wail of pathos in such treble as was never heard.

It was several months ago that the Porters first learned that they had sheltered this musical prodigy, and they and their neighbors have been having infinite amusement with him ever since. By dint of all the practice they have given him, Roger has improved vastly. He has learned songs and can distinguish from the first few notes of the accompaniment what selection is expected of him, and he sings them with all the feeling that a dog could have, and vastly more than some people seem capable of.

Clerks.

There are two kinds of clerks. One is in the business simply to get what little money he can. He takes no particular interest in it, never thinks of planning in his employer's interest, waits on customers when they come in, attends to his duties fairly well, but more like an automaton than a clerk presumably with ambition.

The Electric Motor in the Dairy.

In dairy work, as in almost all other industries, the increasing economy in the cost of production so imperatively necessary, is being greatly promoted by the introduction of the electric motor. Devonshire cream is a toothsome dish, and its popularity never seems to wane. The Devonshire people for many generations have made it by simply heating the milk to make the cream rise. Now they are using centrifugal separators worked by electricity.

He Desires Moderation.

It is an unmistakable and unfortunate fact that too many reformations are as incomplete as in the following case, told by the Washington Star: "Yessirree," said Farmer Cornstossel, as he tilted back in the rocking-chair and let the paper fold itself over his knee. "I'm a red-hot, out-and-out teetotal reformer every time."

Two Sides.

Some one has come forward to prove that the bicycle is an aid to crime. It enables the criminal to escape with speed and leaves no track behind. This is one of the disadvantages of the progress of civilization. But for the knife we would have no cutting affrays, and but for the revolver we would not have as many shootings. And as it takes a thief to catch a thief, so it takes an officer on a bicycle to catch the criminal wise man.

COLUMBIA, S. C., Oct. 17.—Through a misunderstanding of an order the north and south bound train on the Florida Central and Peninsular Railway had a head on collision at five minutes past three o'clock this morning, two and a half miles below Swarssea, about thirty miles from this city. The trains came together on an embankment. The engineers and firemen jumped and escaped without injury.

PHILADELPHIA, Oct. 17.—The Crew of the Norwegian bark Lovise, which founded at sea Sept. 25, was landed in this city to-day by the British steamer Evelyn from Huelva, Spain.

The largest organ in the world is that in the Town Hall in Sydney, Australia. The internal width of this instrument is 80 feet, with a depth of 20. It contains 126 stops, distributed between five manuals, took three years to build, and cost \$75,000. At the opening of this organ a dinner was given in the swell-box, at which ten persons, chiefly big-wigs of the music world, were present.

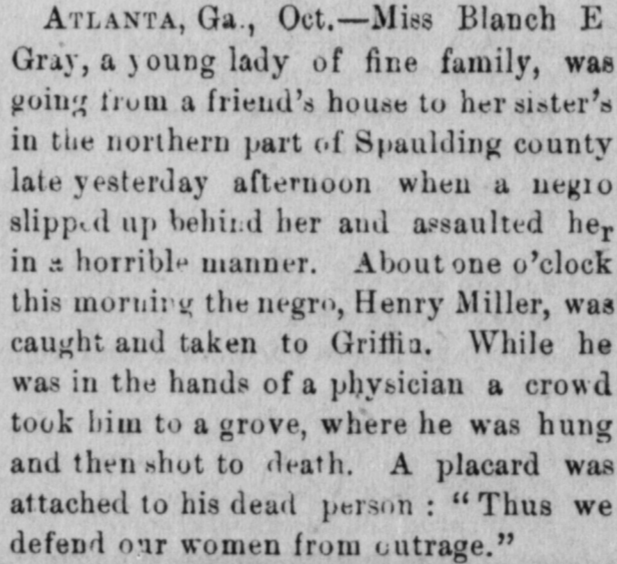

The World's Largest Organ.

Delmonico once said: 'Few persons know how to cook water,' and he gave these directions: The secret is putting good fresh water into a neat kettle already quite warm, and setting the water to boiling quickly and then taking it right off to use before it is spoiled.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers.

Castoria is so well adapted to children that I recommend it as superior to any prescription known to me. H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it.
