## HEALTHY DIGESTION

### A BOON AND A BLESSING TO MANKIND.

Life of a Dyspeptic one of Constant Misery—One who has suffered from its Pangs Points the way to Renewed Health.

From the Cornwall Freeholder

The life of the dyspeptic is proverbially a miserable one, eliciting universal commiseration. Not so much on account of the actual painfulness of the ailment, but largely because it projects its pessimistic shadows upon all the concerns of life, and here they sit like deadly incubus upon every enterprise. An impaired digestion gives rise to an irritability that exposes the person to much annoyance, besides being extremely trying upon others. We are all aware of the value of cheerfulness in life. It is a flower of the rarest worth and strongest attractions. It is a tonic to the sick and a disinfectant to the healthy. Those things that destroy a man's habitual cheerfulness, lessen his usefulness, and ought therefore to be resisted by some drastic and efficient remedy. The duties that devolve upon the average man or woman are invested in so much difficulty as to put a premium on hopefulness. The relation between the prevailing moods of the mind, and the health of the digestive apparatus is close and vital. Hence it is not surprising that many would-be benefactors have caught the patronage of sufferers from indigestion. Judging by results, Dr. Williams' Pink Pills is a remedy unique in its success therefore it is confidently recommended as an adequate cure for acute dyspepsia. This claim is substantiated by experience as the following facts will show. Mrs. D. McCrimmon of Williamstown, Gungahy Co., suffered untold misery from dyspepsia. Every attempt to take food was a menace to every feeling of comfort, until the stomach was relieved of its burden by vomiting. One of the best physicians of the neighborhood was consulted. He prescribed. His medicine was taken and his directions followed, but unfortunately three months of the treatment gave no substantial relief. When Mrs. McCrimmon expressed her intention of trying Pink Pills the doctor laughed and held the thought in derision. She took a course of this medicine, which after a fair trial was eminently successful. From being only able to take stale bread and milk or soda biscuits, she became able to take a hearty meal of any variety, without the painful effects that once assailed themselves after every meal. Mrs. McCrimmon, improved in health and general comfort from the first taking of the Pills, and she could eat almost anything going with impunity. Dyspepsia became a thing less dreaded, and largely belonging

to the past. It is little wonder therefore that she urges the use of Dr. Williams' Pink Pills upon all those similarly afflicted. Dr. Williams' Pink Pills create new blood, build up the nerves, and thus drive disease from the whole system. In hundreds of cases they have cured after all other medicines had failed. The genuine Pink Pills are sold only in boxes bearing the full trade mark, Dr. Williams' Pink Pills for Pale People.

#### The Children.

(London Tit-Bits)  
Only to keep them so—  
Soft, warm and young—  
The wee, feeble fingers,  
The babbling tongue,  
Tears that we kiss away,  
Smiles that we win,  
Careless of knowledge,  
As guiltless of sin.

Only to keep them so—  
Frank, true and pure,  
Of our full wisdom  
So lovingly sure,  
Our frown all they shrink from,  
Our fiat their law,  
Our store whence all gladness  
They fearlessly draw.

Only to keep them so—  
Sweet hands that cling,  
Sweet lips that laugh for us,  
Sweet tones that ring;  
Curly that we train to wave,  
Feet that we guide,  
Each fresh step a wonder,  
Each new word a pride.

Only to keep them so;  
Woman and man  
Are the times that circled us  
Lovingly then;  
Gentle and good to us,  
Patient and strong,  
Guarding our weaknesses,  
Beating us long.

1st TIME PRIZE WON BY H. CASSIDY ON A MCCREADY  
2nd TIME PRIZE WON BY F. GRAVES ON A MCCREADY

In many respects Cassidy's ride is a remarkable performance. Unlike the riders who started from scratch, who alternated in making the pace, he had to ride practically unopposed the whole distance. The time would have been considered akin to marvellous if he had ridden the twenty miles over a free course, but the fact that he had to ride in a blinding cloud of dust, treading his way here and there through straggling bunches of riders, over a road honeycombed with ruts and holes, makes it a truly great achievement. Cassidy has quite a reputation as a track rider, and has beaten all the best men in the amateur ranks at one time or another during the season.—Toronto Globe
