Milton in Parvo.

Temperance is reason's girdle.

Time well employed is Satan's deadliest foe.

We imitate only what we believe and admire.

You may follow luck to ruin, but not to success.

Flattery is often a traffic of mutual meanness.

Temper, if ungoverned, governs the whole man.

Thoughts are but dreams till their effects be tried.

Levity of behavior is the bane of all that is good and virtuous.

Next to love, sympathy is the divinest passion of the human heart.

Criticism often takes from the tree caterpillars and blossoms together.

We all live on far lower levels of vitality and of joy than we need to do.

Troubles spring from idleness, and grievous toils from needless ease.

Suspicion is no friend to virtue and always an enemy to happiness.

Law and physic are good remedies, bad recreations, but ruinous habits.

Learn to say no, and it will be of more use to you than to be able to read Latin.

Modesty seldom resides in a breast that is not enriched with nobler virtues.

The sure foundations of the State are laid in knowledge, not in ignorance.

The very substance of the ambitious is merely the shadow of a dream.

Men who have had a great deal of experience learn not to lose their temper.

One rare, strange virtue in speeches, and the secret of their mastery is, that they are short.

This peculiar ill property has folly, that it enlarges men's desires while it lessens their capacities.

Clear writers, like clear fountains, do not seem so deep as they are; the turbid looks most profound.

The truly honest man does that from duty which the man of honor does for the sake of character.

Artifice is weak; it is the work of mere man, in the imbecility and self-distrust of his mimic understanding.

Good qualities are the substantial riches of the mind; but it is good breeding that sets them off to advantage.

Temperament is but the atmosphere of character, while its groundwork in nature is fixed and unchangeable.

Leaves seem light, useless, idle, wavering, and changeable—they even dance; yet God has made them part of the oak.

Wherever you find patience, fidelity, honor, kindness, truth, there you find respectability, however obscure and lonely men may be.

The human soul is like a bird that is born in a cage. Nothing can deprive it of its natural longings or obliterate the mysterious remembrance of its heritage.

YOUNG AGAIN.

Do You Wish to Avoid  
the Infirmities of Old  
Age?

Paine's Celery Compound  
an Invigorator and Life-  
Giver for the Old.

Old people seem to grow weaker as the months go by. They are troubled with constipation, flatulence, drowsiness, rheumatism, indigestion and neuralgia. They have had one or more of these troubles for years. Their diseases are truly all of nervous origin.

Paine's Celery Compound is the world's great specific for all the difficulties that beset old people. Its regulating influence on the liver, bowels and kidneys removes the disorders that old people suffer from. Paine's Celery Compound is recommended by the best medical practitioners as a grand stimulant to the vital powers, productive of appetite, and a wonderful promoter of digestion.

When you are old, use Paine's Celery Compound; it will strengthen and build you up, and add years of comfort and peace to your life.

In the past, multitudes of people, reduced in vitality and strength, and on the road to becoming life-long invalids, have been made hale, hearty and strong by using nature's great life-giving medicine.

See that you get "Paine's," the kind that makes old people feel young, and that always makes the sick well.

Harry Frizzell, aged 19, shot Mrs. Edith Caldon Young aged about 38, at Plymouth N. H., Wednesday afternoon and then himself. Neither party is expected to live.

15 Years of Itching.

Wm. Golding, commercial traveller, 131 Esther St., Toronto, says: "For 15 years I suffered untold misery from Itching Piles, sometimes called pin worms. Many and many weeks have I had to lay off the road from this trouble. I tried eight other pile ointments and so-called remedies with no permanent relief to the intense itching and stinging, which irritated by scratching would bleed and ulcerate. One half a box of Chase's Ointment cured me completely."

K D C imparts strength to the whole system.

MUNYON'S  
COLD  
CURE.

Colds lead to coughs, coughs to Pneumonia and Consumption; therefore it is all important to check a cold before it reaches the lungs. Munyon's Cold Cure will positively break a cold inside of twenty-four hours if taken as soon as the cold manifests itself. When the cold reaches the lungs or bronchial tubes the Cough Cure should be used alternately every half hour with the Cold Cure. The Cold Cure is guaranteed to prevent pneumonia if used in the beginning of a cold. Pneumonia, or inflammation of the lungs, can be controlled by the use of these two cures.

The Cough Cure positively cures bronchitis, tickling in the throat, hoarseness, loss of voice, soreness of the chest, difficulty in breathing, hacking cough and all pulmonary diseases where the lungs are not too far consumed by disease or covered with tubercles.

A separate cure for each disease. At all druggists, mostly 25 cents a vial.

Personal letters to Prof. Munyon, 11 & 13 Albert St., Toronto, answered with free medical advice for any disease.

Theories About Dreams

If science has dispelled such old wives' fables as that to dream of a marriage signifies death, or to dream of a cat means an enemy, she has added to the subject mysteries of her own. One scientist systematized these subtle premonitions to make them available for use and guidance. To quote his opinion:

Lively dreams are a sign of the excitement of nervous action.

Frightful dreams are a sign of determination of blood to the head.

Dreams in which one imagines pain or injury to any part of the body indicates disease of that part.

Dreams of distorted forms are a sign of obstruction or disease of the liver.

To dream of fainting indicates a weak action of the heart.

Gentle, pleasant dreams are a sign of a slight irritation of the head, but in nervous fevers often indicate the approach of a favorable crisis.

Dreaming is an experience common to humanity, though it varies widely in different individuals, and in a few exceptional cases is absolutely unknown.

FROM MR. CASTELL HOPKINS'

"Life and Reign of Queen Victoria."

Published by the Bradley-Carretson Co. Toronto and Brantford, Ont.

"INFLUENCE OF THE PEERS."

It will be a mistake to minimize the importance and value of the aristocratic rule by which the government of England was graded down from the high exercise of royal power under the Tudors and Stuarts to that beneficial exercise of royal influence which marks the close of the present period. To the aristocracy of these two centuries is mainly due the fact that the growth from paternal government and personal rule to direct popular administration was a gradual development, through occasional scenes of storm and stress, instead of being a constant succession of revolutions alternating with civil war. Somers and Godolphin, Walpole and Chatham, Pitt and Shelburne, Eldon and Canning, Grey and Liverpool, Wellington and Durham, Melbourne and Palmerston were all of this class, though of varying degrees in rank and title. They filled the chief places in the government of the country during a period when the people were being slowly, and perhaps painfully, trained in the perception and practice of constitutional and religious liberty. At the best such processes are difficult, and often prove bitter tests of national endurance; but it was well for Great Britain that these two centuries produced a class of able and cultured men who—though naturally Tory at heart—were upon the whole honestly bent upon furthering the best interests of the masses. And this despite the mistakes of a Dauby or a North."
