RICHIBUCTO, N. B., APRIL 22, 1897.

WILL LAURIER RESIGN?

There has been a rumor afloat for some time past that there will be an entire reconstruction of Cabinet before the year runs out. Sir Oliver Mowat has introduced in the Senate the Bill which was introduced in the Commons in 1894 by Sir John Thompson, but not passed, providing for the forced superannuation of Judges of the Supreme Court who are over 70 years of age. While this is undoubtedly aimed at Mr. Justice Gwynne, it is also said that it will affect Sir Henry Strong, and that Judge Taschereau's resignation, which has been talked of any time the last two years on account of his health, either has been or shortly will be offered to the Government. The rumor goes that Judge Taschereau's resignation will make a vacancy for a French Judge, and that vacancy will be filled by the appointment of Mr. Laurier, who will take the Chief Justiceship to be vacated by Sir Henry Strong. Sir Henry, it is said, will go to England about June to be sworn of the Privy Council and take his seat on the Judicial Committee. It is believed that he will not return, but will reside permanently in England, and will be paid by the Dominion Government a salary equivalent to what he is now receiving as Chief Justice. I may say that this idea of Canada paying the salary of a representative on the Judicial Committee of the Privy Council was entertained by both Sir John McDonald and Sir John Thompson some seven years ago, when it was first proposed that Canada, Australia and South Africa should be represented on the Judicial Committee. As to Mr. Laurier's resignation it is said that he is sick and tired of the squabbling and dissension going on in the Cabinet and will be glad to wash his hands of the whole business and retire to an honorable and dignified position where he will feel less hesitancy about accepting the honors which will undoubtedly be conferred on him in connection with the Jubilee celebration than he would if he remained as Leader of a political party which has always affected to sneer at titles and distinctions. Should Mr. Laurier resign the rumor has it that his successor will be the Honourable Mr. Blair, who is rapidly proving the strongest man in the Cabinet, and who, it is said, would endeavor to introduce into Federal politics the line of conduct he has observed during his tenure of the Premiership of New Brunswick, and whenever he gets in a tight place endeavor to strengthen his Government by coaxing over one or two leading Members of the Opposition. All these rumors may prove to be somewhat premature, but there is good reason for believing that there is considerable foundation for them and that before Parliament meets again a great many changes will have taken place in the Cabinet.

AN IMPORTANT INDUSTRY.

Mr. James McKinlay finished the season's sawing of spool wood on Saturday in his mill at Kouchibouguac. The amount of squares produced was beyond expectations. The wood will be thoroughly dried and placed in a large shed to be erected for the purpose, and the shipment will be made by steamer from Kouchibouguac Bay in July or August. Scows will be used to carry the stuff to the ship.
The wood (white birch) used in the manufacture of spools, is of a kind seldom used for any other purpose but fire-wood and in a place so remote as that in which this industry is situated, there can be no money made out of this material. Therefore we consider that a market of this kind is a boon to those who have the wood to sell, even if the price is not large. Altogether, about one hundred and fifty men and fifty horses have been employed during the winter, and a large number will be employed all summer in drying, hatching and shipping the product of the mill. And this employment was furnished in a season when work is hard to get, thereby giving a living to a large

number of people who might otherwise have found it difficult to procure work.

Any industry of this kind must prove beneficial to the community in which it is situated; and the man who provides it ought to receive all the encouragement possible, either by exemption from taxation or otherwise. At the January meeting of the Municipal Council in 1896 it was decided to exempt from taxation for a number of years any pulp mill which might be erected in the County. Although Mr. McKinlay has not asked for any favors of this kind, we should not consider him unreasonable to do so, for the manufacture of spool wood seems to us quite as important, if not so extensive, as the manufacture of pulp.
We are pleased to note that Mr. McKinlay will be able to get at least another winter's supply of birch in the vicinity of his mill.

There is an epidemic of *Gri* passing over Kent County. Strong Conservatives are particularly susceptible to the disease.

The legislators at Ottawa have been making haste very slowly with the business of the country. It has been said that the government have been awaiting the result of the Nova Scotia elections before bringing down the tariff budget. Now that these elections are over there can be no further excuse for delay. For once the government might let the interests of the country have attention and let party interests wait, even if they thus depart from the beaten track.

To the Editor of The Review:
Dear Sir:—Will you please publish if you can get it "Mother Shipton's Prophecies?" I think it would have a great interest now when so much of it is being fulfilled.

Yours truly

Mother Shipton's Prophecies.

Carriages without horses shall go,
And accidents fill the world with woe,
Primrose Hill in London shall be,
And in its centre a Bishop's See.
Around the world thoughts shall fly
In the twinkling of an eye.
Water shall yet more wonders do—
How strange, yet shall be true—
The world upside down shall be,
And gold found at the root of tree.
Through hills men shall ride,
And no horse or ass be by their side.
Under water men shall walk,
Shall ride, shall sleep, shall talk.
In the air men shall be seen
In white in black, and in green.

A great man shall come and go!
Three times shall lovely France
Be led to play a bloody dance;
Before her people shall be free
Three tyrant Rulers shall see;
Three times the people's hope is gone;
Three Rulers in succession see,
Each springing from different dynasty.
Then shall the worse fight be done,
England and France shall be as one.
The British olive next shall twine
In marriage with German vine.

Men shall walk over rivers and under rivers,
Iron in the water shall float
As easy as a wooden boat.
Gold shall be found and found
In a land that's not now known.
Fire and water shall more wonders do,
England shall at last admit a Jew!
The Jew that was held in scorn,
Shall of a Christian be born and born.

A house of glass shall come to pass
In England—but alas!
War will follow with the work,
In the land of the Pagan and Turk;
And State and State in fierce strife
Will seek each other's life.
But when the North shall divide the South
An eagle shall build in the lion's mouth.

Taxes for blood and for war
Will come to every door.
All England's sons that plough the land
Shall be seen back in hand.
Learning shall so ebb and flow
The poor shall most wisdom know.
Waters shall flow where corn shall grow;
Corn shall grow where waters do flow.
Houses shall appear in the vales below,
And covered by hail and snow.

The world then to an end shall come
In Eighteen Hundred and Eighty-one.

These prophecies, which require no explanation, were found recently in the British Museum written in an old manuscript dated A. D., 1448.

To Sunday School Workers.

The School at Mill Branch, Mrs. T. McWilliams, Supt., reopened the first Sunday in April.

Home Study Classes were conducted here last winter which were well sustained. Upon opening the envelopes containing the home contributions this department was found to be more than self-sustaining.

This school will keep good class records this summer. It has already done superior work and will not drop back.

The Supt. has always taken an active interest in association work. The results are clearly seen. The community is receiving a religious education through the energy of a few workers who when they get discouraged simply make up their minds to do better work, seek grace and make progress.

This county owes more to its Sunday Sch. Supts. than it knows. The most of them are doing the best they can. Some

could do a little more. Rev. Dr. Lorrimer says "Love them into better work, don't scold."

Support the Supts. by practical sympathy and interest. Parents have your children on time every Sunday this summer.

Send for school records to-day if you haven't done so before.

Send a 3 cent stamp to Mr. E. R. Macham, St. John, for full samples of Home Study. You will be asked about your school soon. What will your report read like? Will there be progress or decay?

Yours Very truly

Health and vigor are essential for success. Therefore make yourself strong and healthy by using Hood's Sarsaparilla.

Grim and gaunt, with a wild light in his eye, he stood towering above the shrinking little woman, the glittering steel clutched in his right hand. And she? She dared not open her mouth. Slowly sank, in the west by northwest the globe and incarnadine sun. And still the tooth emained undrawn, for reasons explained in the second paragraph.—Indianapolis Journal.

COAL BRANCH NOTES.

As observer is silent I think he must have the gripe or is away stream driving so I will venture to pen a few remarks in his stead.

The snow is all gone and our roads are nothing but water and mud.

A great number of our citizens are suffering from an attack of la gripe.

Operator Wilson who was confined to the house with an attack of la gripe, is I hear able to climb the ladder again.

J. W. Lutes is doing an extensive business in the egg market.

Our school is under the management of Mrs. Welsh.

Miss Minnie L. Sullivan who has been spending the winter in Milford Maine, has returned, and has taken charge of the school at Grangeville. We wish her every success.

Our quiet village was aroused one evening last week by hearing cries of murder, murder, coming from one of the houses near by, but as the man of the house was in and no tramps or suspicious looking characters around, no person went to investigate.

INDIAN'S PECULIAR DEATH.

QUEBEC, April 15.—While in the tent of a trapper in the Laurentide Park, at River Leore, Thomas Siouri, the well-known Huron Indian guide, dropped dead. He was acting as guide to C. Roche, of this city, surveyor, who tried to revive the fallen Indian, but in vain. Roche and Augustin Siouri brought the news to this city, and the Attorney-General's Department is taking the matter up, and Mr. Roche has gone back for the body. Heart disease is alleged, but there are also other reports which will be investigated when the trapper is secured as a witness.

The trapper, it is alleged, offered the Indian a drink which was accepted. Mr. Roche found his guide suffering intensely, and after begging Mr. Roche for a drink of water he reeled over and fell on his face dead. A warrant has been issued for the arrest of Trapper Fournier. Fournier had been making a great

slaughter of deer and caribou out of season and Mr. Roche had prevented him from continuing it.

MANITOBA MENTION

MIAMI, Man.
The Doan Kidney Pills Co., Toronto, Ont.:

Gentlemen,—I got a box of your Kidney Pills from the Miami Drug Store, determining to give them a chance to cure me of the kidney complaint from which I have suffered for some time, and which has become so bad latterly that I could scarcely endure it. I may say that it resulted from a fall which I received a few months back. After using several kidney pills and cures of different kinds, but without receiving any benefit, therefore I am pleased to testify to the great benefit I have received from Doan's Kidney Pills. I have used only one box up to this date, and the change in my condition is so great that I cannot refrain from recommending them to any person afflicted as I have been, or troubled with any kidney disorder, for I believe that if they would cure me they would cure almost any case. I will be able to resume my farm work now, as usual, and it is not the lightest work either. I am, sirs,
Yours gratefully,

DIGBY, April 19.—On Wednesday evening, Stephen Hatt, of Bear River, committed suicide by cutting his throat with a razor. The deceased was about 50 years of age and had lived in Bear River for 25 years. He was subject to fits of melancholy. He made an attempt at hanging himself some ten years ago, but of late years his health was much improved. He was a carpenter by trade. An inquest was held and a verdict of suicide under temporary insanity rendered.

To The Sisters of The W. C. T. U.

Some time ago a notice appeared in THE REVIEW, requesting any one interested in the W. C. T. U. Famine Fund to hand in their subscriptions to Miss Ostle, who would forward them to the Treasurer of the Society. The amount of \$7.75 was raised and duly forwarded, and an extract from a letter received, will, I am sure, be gratifying to those who so generously gave of their means: "You did well to raise \$7.75 for the India Famine Fund, as a letter from our W. C. T. U. President of India says, that \$1.50 will support a family for one month, so you see your money will do a lot of good."

This acknowledgement should have appeared some time ago, but I hope it is still in order, and although we have at present no active Union, this shows that the Spirit is still alive and ready for service.

Will Satolli Succeed Leo?

NEW YORK, April 17.—The report from Rome that Cardinal Satolli, former papal delegate to this country, was a candidate for Pope Leo's place, in case of the death of the aged pontiff, was read with much interest by Catholic priests and friends of the former delegate. It is the opinion of leading Catholics here that the information is not only true, but that Cardinal Satolli is the choice of Leo himself. "Cardinal Satolli," said a priest yesterday, who did not wish his name used, "is closer to the present pontiff than any other prelate in Rome. When he came here everyone knew that Leo was preparing him for the more exalted mission he had in mind for him. It is not assured, however, that Pope Leo's influence with the College of Cardinals is sufficient to make certain that his friend and confidant will succeed him.

The militia detachment to take part in the Sons of the Empire parade in connection with the Queen's jubilee will be representative of the service. It is the intention to draw men from every province, with rare exceptions only city corps, in the average proportion of four each. Out of compliment to Hon. Mr. Borden four men will be chosen from his battalion, the 68th, Kings county. The 62nd, 63rd and 66th battalions will be asked to furnish contingents, also the 8th N. B.
