**PETITIONS DISMISSED.**—Fredericton, Jan. 29.—The election petitions against Powell, of Westmorland, and McInerney, of Kent, have met the same fate as that against Foster, of York. The summons for an extension of time for the trial in the Westmorland case was argued last night before Chief Justice Tuck, who dismissed the application with costs, and the Kent case was disposed of in like manner by Judge Vanwart this morning. Mr. Pugsley argued for petitioners and Messrs. Powell and Currey, Q. C., for respondent in the Westmorland case, and Earle, Q. C., for the petitioner and Phinney, Q. C., and Currey, Q. C., for respondent in the Kent case.

**DEATH OF GEORGE McMINN.**—Mr. John McMinn received on Wednesday last a cablegram announcing the death of his brother George at Johannesburg, South Africa, whither he had gone last summer to represent several Canadian companies in that County. He died of typhoid fever and leaves a wife and three children at Truro, N. S., where he carried on for some years a clothing business. While in Richibucto he was engaged in milling, etc. Mr. McMinn was only 35 years of age, and had many warm friends in Kent County, who will regret his untimely death.

**Dead in South Africa**  
(Truro News.)

[With very great regret we heard last evening of the death of a former resident of this town, Mr. George McMinn, which occurred in Johannesburg, South Africa but a few days ago.

The first news of this sudden death was received by Mr. C. A. Kent through a wire from the Gould Bicycle Company, of Brantford, Ontario, whose agent Mr. McMinn was in distant South Africa, the telegram reading, "Received cable that our agent in South Africa is dead." Upon further inquiry by wire on Mr. Kent's part to know if Mr. McMinn was dead, the Ontario firm answered, "We believe so as yet."

E. M. Fulton, of Messrs. Patterson & Fulton, who has been Mrs. McMinn's solicitor in business matters in the absence of her husband, and also wired the Gould Bicycle Co., this morning received the telegram, "Received another cable. Mc Minn dead—typhoid." This is the whole story and sad indeed is it for the afflicted wife and her three children.

Mr. McMinn was a native of Richibucto N. B., and was, before he came to Truro, in business as a manufacturer in Hopewell. Afterwards he had for some time a clothing business on Inglis Street in this town, and at the same time had a branch business in Windsor.

Several large manufacturing firms in Ontario last spring offered him good inducements to represent them in South Africa. Their offer was accepted and Mr. McMinn sailed from Rimouski on the 21st of June last for Liverpool, G. B., thence to the distant field of his operations where he has met an untimely death from Typhoid, too often so fatal to people from the temperate zones until fully acclimatized.

Mrs. McMinn, who is universally beloved by her large circle of friends in Truro, is a daughter of the late well-known and influential Levi Oxner, of Chester Basin, who died a month or so ago. This afflicted lady is now called on to bear the loss of a husband taken from her under the sad circumstances of so many thousands of miles away.

The 'News' and all other acquaintances in town tender to the bereaved ones sincere and heartfelt sympathy.

K D C is marked prompt and lasting in its effects.

For the second time since the general election of June the constituency of Saskatchewan is vacant. The district elected Mr. Laurier, but he had another constituency. When he vacated the seat by taking office, two liberals ran. The one who was defeated charged the one who was elected with all manner of vile acts, and the member has resigned to escape trial. Several suits of libel and slander are pending in connection with this dispute.

**THE MISTAKE SHE MADE.**

Railroad Travelers Who at Last Understood Each Other.

She sat by the car window, gazing out upon the unrolling scenery and possibly dreaming of home and things like that.

About six feet away from her, across the aisle, was an empty seat, which at the next station was filled by a man with a sample case. He was 50 years of age or thereabout and was quite as dapper looking as if he were 30 and still the knight to please every fair dame who set her soft eyes upon him.

The lady was young and pretty, with perhaps a shade too much display in her makeup, but still one could hardly say that, for all it is not gold that glitters in such cases—or words to that effect.

When the man had sat down in the vacant seat and composed himself for the journey before him, he began to look about to familiarize himself with his environments, and in the course of his visual wanderings his eyes fell upon the young lady. He gave a slight start, as people do when they think they see somebody they know, and looked again. The lady wasn't looking, of course. But she wasn't asleep.

Not in the slightest.

After a minute or two or three or four of hesitating investigation the traveling man, for it was he, arose and very politely and deferentially approached the young lady.

It was done as if he had been practicing that sort of thing ever since he had picked up the first sample case. Either that or he was to the manner born.

"I beg your pardon," he said as she turned from the window to meet him with a half startled, fawnlike movement not altogether unusual on such occasions, "aren't you Miss Morton of Philadelphia?"

She gave him a glassy stare with a raw edge on it.

"You don't look like a man," she replied with an insolent air, "who would try to work as old a racket as that on me. Do I look so green as that?"

It was now his turn to gaze at her in startled wonder.

"Oh, that's all right," she laughed, moving over to make room beside her, "and I'll forgive you. You know I am not Miss Morton of Philadelphia or anywhere else, and so do I know it. But sit down. I'm lonesome, and I'd just as soon have a pleasant little talk with you as not. I'm to meet mamma at the station where we take dinner."

"I beg your pardon," said the traveling man, backing away. "I am sure if you are not Miss Morton I have no desire whatever to talk with you."

Then he went back to his place, and the flip young woman was rather inclined to the opinion that there was at least one man on the road who could be mistaken honestly.

All of which occurred between Washington and New York within the last two weeks. —Washington Star.

**KILLING WOLVES.**

Some of the Methods Used to Get Rid of the Fests.

Whole families of the animals are sometimes asphyxiated in their dens. A wolf of the gray variety generally makes its home by getting on the side of a dirt gulch and burrowing straight inward until a safe distance from the surface is reached. There her young are born and raised to sturdy cub estate.

When a cowboy locates a den in which he believes the entire family to be gathered, a composite mass of cotton, saturated with damp flour sulphur and other noxious smelling substances, is thrust into the den and set on fire. The mouth of the hole is then filled with clay tamped down solidly, and the imprisoned wolves are speedily suffocated within. In this way from 6 to 10 and 11 wolves, young and old, are wiped out at one stroke.

Another effective method is to bore four or more holes in a flat piece of board and plug them up with beef fat soaked in strychnine. The odor of the fat attracts any wolves that may be in the vicinity, and they lick the fat voraciously until the leavening of poison does its work upon them and they drop dead. Very often as many as a dozen wolves are killed off by this process before the fat in the holes is exhausted.

Strychnine inclosed in capsules is also used. The capsule is thrust into a slit cut in a chunk of beef, and the wolf, bolting the meat whole, falls an easy victim. Steel traps, baited with raw beef, are also tried with fair success. —Denver Republican.

**Reading Women Organize.**

The women voters of Reading, Pa., met recently at the home of Mrs. William Carter, Woburn street, and formed an organization. Mrs. S. G. B. Pearson was chosen temporary chairman. Officers for the ensuing year were balloted for, and the following were elected: Mrs. George Bosson, permanent chairman; Mrs. Warren E. Eaton, clerk; Mrs. S. G. B. Pearson, treasurer. The society then nominated Mrs. Ellen M. Bancroft for member of the school committee and recommended that Mrs. Gertrude Hussey be nominated as a trustee of the public library. Mrs. Warren Eaton was chosen a committee of one to confer with the proper authorities in regard to having a woman on the board of overseers of the poor. In conclusion, the society earnestly recommend that every woman in town qualified to vote should register and cast her vote at the coming town election.

**A Confused Judge.**

An English lawyer who had a habit of dropping his h's was one day prosecuting before Mr. Justice Lawrance a man for stealing, among other things, a halter. Constantly and consistently he spoke of "alter," and after an hour or so of this the judge summoned the clerk of assize and seriously asked him, "Is this the crown court?" "Yes, my lord, I believe so," was the answer of the wondering official. "Thank you. I am relieved. I thought I had found my way into an ecclesiastical tribunal."
