To the Editor of The Review:

DEAR SIR,—I see by the last REVIEW that Mr. Robt. H. Davis has been appointed Stipendiary Magistrate for the parish of Richibucto in room of Caleb Richardson removed from office.

Now, Mr. Editor, must it not seem strange to the people of Kent that it has been necessary to import a man into this county to fill this office? Why has this been done? To my mind it is one of the greatest insults to the intelligence of this county that has ever been offered it. If it was necessary to remove Mr. Richardson, why not give it to some person belonging to the county without importing a man from Charlotte? I have been informed, and from a very reliable resource, that Mr. Davis has been appointed by Mr. Emerson on the recommendation of Mr. A. H. Gilmour (the defeated Grit candidate in the last Dominion election in Charlotte), because he would be a good liberal organizer for the county and have things in line for the next Dominion election. This being the case, must place the Kent Co. members and the Conservative members of the present Government in a most pitiful position of course, as far as Mr. Barnes and Legere are concerned, they, as I understand, having been the parties who consented to the appointment, have now shown the people what they are and how much power they have with the present government. Probably Mr. Barnes' cedar deal put him in a position that he had to put up with what was done.

Before closing, there is one thing I might say to Mr. Dav., that if it is part of his arrangement that he has to organize for Mr. Barnes he better begin at once, as he has considerable of a job ahead of him and will require all the time he has between now and the next local election.
