

Coal Branch Notes.

May 31 st.—Not having seen any notes from our quiet little town for some time I will venture to pen a few remarks.

The weather has been very backward this spring there is scarcely a seed in the ground yet.

Mr. J. M. Kennedy spent Sunday in town the guest of Mr. and Mrs. Patrick Swift.

Mr. James McLellan, of South Branch, has purchased the farm lately owned by Mr. David Scott, we welcome him in our midst and wish him every success. We regret to say that Mr. David Scott, has again left us.

Mr. J. W. Lutes spent Sunday at his home in Harcourt.

Mr. A. B. Wilson has again taken up his residence at Birch Ridge.

Mr. Robert and Miss Annie Brown are expected home from Boston soon.

Miss Etta Howard is expected home from St. John soon.

Mr. Thos. Burgess spent Sunday in town.

Rev. Mr. Johnson held service in our school house last Sunday, we wish Mr. Johnson would come often.

Mr. John Woods is expected home from Lynn Mass., we understand Mr. Woods intends doing some farming.

ONE OF THE BOYS.

LA GRIPPE SCOTRGE.

Who has not been a victim?—Who has not had just the experience of Mr. Curtis?—Who may not have the Relief, South American Nerveine Afforded Him.

"As a result of a severe attack of la grippe I suffered greatly from weakness and loss of appetite. I saw testimonials of the curative powers of South American Nerveine and determined to give it a trial for my case. Purchased it, and almost immediately began to improve. My strength returned to me very rapidly. When I had taken three bottles I had developed a voracious appetite. I am as well to-day as ever I was, and am safe in saying that I can attribute it to South American Nerveine, and no words of mine in recommending it could be too strong." C. J. Curtis, Windsor, Ont. Witnessed by F. H. Laing, druggist. Sold by W. W. Short.

Tuberculosis and the Tuberculin Test.

The subject of tuberculosis in cattle and the tuberculin test engaged the attention of the Agricultural Committee at Ottawa on May 21st. Dr. McEachran, Chief Veterinary Inspector for the Dominion, advised an expenditure of \$100,000 for the purpose of applying the test slaughtering animals in diseased herds, disinfecting premises and compensating owners. Hon. Sidney Fisher, the Dominion Minister of Agriculture, took a different view, and one that ought to commend itself to the good judgment of the country. He preferred an educational process of accomplishing the desired result and encouraging stock breeders to have the test made voluntarily themselves. Public opinion is not ripe for a law involving general testing and slaughtering. We quite agree with the Minister that better and more permanent results can be secured, as he suggests, at much less cost and trouble. Hon. John Dryden, Minister of Agriculture for Ontario, who was also present, concurred in the foregoing view, stating that from the bacteriological department of the Agricultural College tuberculin was now being furnished free. Dr. McEachran said the Dominion Department also furnished tuberculin and explicit directions for administering the test which was now very simply done.

Now, there is little doubt that tuberculin in competent hands is a very accurate diagnostic agent, but the Farmer's Advocate believes that there is yet much to be learned regarding its use. We have it in pretty good authority that some very unscientific, slipshod work has been done by so-called "professional" cow testers. It is really not quite so simple a matter as it may appear to an old experienced authority like Dr. McEachran, and we are probably well within the mark in saying that even a good many veterinarians do not find themselves entirely prepared for the work. The whole subject presents an opportunity for careful educational work, otherwise we will have another case of "more hurry and less speed." In our view, the work of weeding out tuberculous cows should begin with the herds supplying cities and towns with milk, which are probably the most affected and where the conditions are such that the most harm might be done by using tuberculous milk.

In our Veterinary Department in this issue we give particulars as to how the test is conducted by the Veterinarian at the State Experiment Station of Minnesota where it has been made the subject of a long, careful and exhaustive investigation. —Farmer's Advocate.

Suicide at Ten

London June 3.—A despatch to Daily News from Berlin says that a ten year old boy had committed suicide there because a smaller piece of cake was given to him than was given to his sister.

A HUNTER'S STORY

EXPOSURE BROUGHT ON AN ATTACK OF RHEUMATISM.

Nervousness and Stomach Troubles Followed—Sleep at Times Was Impossible—Health Again Restored. From the Amherst, N. S., Sentinel.

The little village of Petitcodiac is situated in the south-easterly part of New Brunswick, on the line of the Intercolonial Railway. Mr. Herbert Yeomans, who resides there, follows the occupation of a hunter and trapper. His occupation requires him to endure a great deal of exposure and hardship, more especially when the snow lies thick and deep on the ground in our cold winters. A few years ago Mr. Yeomans tells our correspondent that he was seized with a severe bilious attack and a complication of diseases, such as sour stomach, sick headache and rheumatism. Mr. Yeomans' version of the

facts are:—"I became very ill and suffered the most excruciating pains in my arms, legs and shoulders, so much so that I could not rest in any position. I frequently could not sleep nights, and when I did I awoke with a tired feeling and very much depressed. My appetite was very poor, and if I ate anything at all, no matter how light the food was, it gave me a dull, heavy feeling in my stomach, which would be followed by vomiting. I suffered so intensely with pains in my arms and shoulders that I could scarcely raise my hands to my head. I tried different remedies, but all to no purpose. A neighbor came in one evening and asked "have you tried Dr. Williams' Pink Pills?" I had not but then determined to try them, and procured a box, and before the pills were all gone, I began to improve. This encouraged me to purchase more and in a few weeks the pains in my shoulders and arms were all gone and I was able to get a good night's rest. My appetite came back and the dull, listless feeling left me. I could eat a hearty meal and have no bad after effects and I felt strong and well enough as though I had taken a new lease of life. My old occupation became a pleasure to me and I think nothing of tramping eighteen or twenty miles a day. I know from experience and I fully appreciate the wonderful results of Dr. Williams' Pink Pills as a safe and sure cure and I would urge all those afflicted with rheumatism or any other ailment, to try Pink Pills as they create new vigor, build up the shattered nervous system and make a new being of you. The genuine Pink Pills are sold only in boxes, bearing the full trade mark, "Dr. Williams' Pink Pills for Pale People." Protect yourself from imposition by refusing any pill that does not bear the registered trade mark around the box.

Keeping His Coords in Tune. "I saw that German tenor drink about two gallons of beer last night."

"Nothing strange about that," replied the manager. "He is determined that his voice shall not lose its rich liquid quality."—Detroit Free Press.

In winter when you see the wild geese flying south, according to New England weather lore, expect cold weather. They fly south because the ponds to the north are frozen over. When the geese are seen flying north, warm weather is to be expected.

Buried Treasure. I wonder where Cap ain' Kidd, the famous pirate, buried his treasure. And so do you wonder, and lots of other people. Men have dug for it in many places, but haven't found a penny of it yet; nor will they until (with the odds dead against them) they happen to strike the right spot.

Ignorance is the mother of mistakes, blunders and bungles—the most expensive things in this foolish world. There are millions of poor persons who might have been rich but for blunders—their own or somebody else's; and other millions in churchyards who might have been alive and well.

"In the spring of 1875," says Mr. Lynn "my health began to fail me. I was low, heavy and weak, and could not account for it. I had no desire for food, and when it was placed before me I could seldom touch it. After every morsel I took I had pain at the chest and a gnawing at the pit of the stomach.

"I got little or no sleep, and never felt rested, feeling more tired in the morning than at night. Gradually I drooped until I was only a shadow of my former self. For over seven years I never knew what it was to have an appetite.

[Try to fancy that a hearty man who eat three full meals a day, without the sense of a stomach, then sleep like the dead till the break of day. But no; you can't fancy it.]

"Everyone thought," continues Mr. Lynn, "that I was in a consumption, and could not live. I saw doctor after doctor, who sounded my lungs but could find nothing wrong with them. They gave me medicines but I obtained no benefit from them.

"In June of 1882 a friend bought me a bottle of Mother Seigel's Curative Syrup, and asked me to try it. When I had taken half the bottle I felt so much better that I got back to my work. My appetite returned, and I could eat and enjoy my meals, having no pain after doing so. Soon I got up my strength, and was as strong and well as ever I was in my life.

"My recovery gave great surprise to all who knew me. I tell everyone that Mother Seigel's Syrup has saved my life, and hundreds of people have taken it on my recommendation. You can use this statement as you like, and refer any one to me. (Signed) Jonathan Lynn, 17, East Parade, Consett, near Durham, November 8th, 1895."

It is one of the most important discoveries of the closing years of this century that one of the commonest forms of dyspepsia so closely counterfeits, or simulates, consumption, that even expert medical men are sometimes led to mistake the one for the other. Mr. Lynn's doctors did not commit this error, yet seem to have been unable to overcome the real disease with which he suffered—chronic dyspepsia, with its complications.

In view of the close likeness between the symptoms of these two common diseases, may not further investigation in this direction be likely to develop valuable knowledge, both for the people and for their medical advisers?

Spanish Cabinet Troubles.

MADRID, June 6.—The resignation of the cabinet and the general state of political uneasiness absorb public attention. The retiring premier, Senor Canoyas del Castillo, in an interview is quoted as saying that not even the members of cabinet knew of his intention to resign until his resignation had been effected.

The published statement that the Spanish government has received a note from the government of United States disapproving of the retention of General Weyler as Capt. Gen. of Cuba is semi-officially denied.

LEMR PAINS.

Contract Rheumatism and You will Suffer Untold Agonies—Use South American Rheumatic Cure and You will Have Relief in a Few Minutes, and a Cure in Three Days—Testimony Proves it.

"I was for three years a great sufferer from rheumatism—pains in my limbs were particularly distressing. I had tried almost every known remedy, but received no benefit. I was advised to give South American Rheumatic Cure a trial. I purchased two bottles. When I had used one and a half bottles I was perfectly cured. I consider it a wonderful remedy and take pleasure in recommending it." F. Nugent, Niagara Falls, Ont. Sold by W. W. Short.

A Fatal Epidemic

PRETORIA SOUTH AFRICAN REPUBLIC. June 3.—The Volksraad has appointed a commission to revise the Krondweir, or fundamental law of Feb. 13 1858, especially in regard to the position of the high court of the South African republic.

An epidemic in the Sekunkunsi country is killing hundreds of natives.

Perfumed Butter.

Perfumed butter on the dinner table is the latest fad of some wealthy people in London, Eng. The dairies where this butter is made are as odorous as a florist's shop or the laboratory of a perfumer. In the first place, the butter is made in small pats like those in ordinary use. Each pat is wrapped in a bit of fine muslin and placed on a bed of rose leaves specially prepared in an earthen jar. On top another layer of the fresh and delicate rose leaves is placed before the jar is filled with a solid chunk of ice. Then the jar is placed in a refrigerator and allowed to remain there for ten hours, when the pats are ready for the customer.—Farmer and Stock Breeder.

Rapid Heart Beat.

Mrs. Jas. Grist, Blenheim, Ont., says: "I was troubled with rapid beating of the heart and a strange sinking feeling. I took Milburn's Heart and Nerve Pills and they have cured me. The heart weakness and throbbing, together with the nervousness which it caused, have completely disappeared, and I am now strong and well."

\$1,000,000 Falls to a Pauper of 71 Years of Age.

GREAT FALLS, Mont., June 3.—Old man Vance, aged 71 years, living on Log-ging Creek about three miles from here, who for years has been a pauper, has just received word that the Supreme Court of North Carolina has rendered a decision in a suit brought by his mother (now dead) years ago in favor of Mrs. Vance, handing down to him as next of kin, an estate valued at about \$4,000,000. During a recent illness he was cured for by Miss Alice Crossman, the 16 year old daughter of a Montana section boss. Upon the receipt of the news he proposed marriage to the girl, who accepted, and tomorrow they will be married.

X-Rays

Of severest trial and test prove in regard to Hood's Sarsaparilla

1st, Greatest Merit Secured by a peculiar Combination, Proportion and Process unknown to others—which naturally and actually produces

2d, Greatest Cures Shown by thousands of honest, voluntary testimonials—which naturally and actually produce

3d, Greatest Sales According to the statements of druggists all over the country. In these three points Hood's Sarsaparilla is peculiar to itself.

Hood's Sarsaparilla

Is the best—It is the One True Blood Purifier. Hood's Pills are the only pills to take with Hood's Sarsaparilla.

Paper Bags

Made from our well-known long-fibred Manila paper. Strong of texture. Finished in appearance. Send for samples. The E. B. EDDY CO. (LIMITED) HULL... Canada SCHOFIELD BROS., AGENTS, ST. JOHN, N. B.

WANTED.

FREE! 75 COMPLETE STORIES! Pack of goods worth \$2, and a Big 100p. Picture Book, that will surely put you on the road to a handsome fortune. Send 5c. silver, to pay postage. A. W. KINNEY, R. R. Yarmouth, N. S.

WANTED AT ONCE: Active agents for each county. Exclusive control and no risk. Will clear twelve to twenty-five hundred dollars a year. Enclose stamp for full particulars or 25 cents for \$1 sample. Big Rapids Mineral Water Co., Big Rapids, Michigan.

Agents wanting profitable employment through the summer can find it with us, as we have newest Russian varieties of Nursery stock, and new Seed Potatoes. Salary on commission. Write us at once for territory. Pelham Nursery Co., Toronto, Ontario. 3m
