Suicide Epidemic.

NEW YORK, Oct. 1.—A wave of suicides which in one instance led to the destroying of the lives of four innocent children, passed over this city to-day.

The first of the series of suicides was reported from the Hotel Devonshire, Forty-second street, where Harmon S. Burt, a prominent church member and assistant superintendent of the Norwich, Conn., stove works, who had registered as E. W. Smith, Providence, poisoned himself. The disgrace of being arrested in a disorderly house which was raided last Sunday night in Norwich, is the only motive known here for his suicide.

Next a man over six feet tall, weighing 225 pounds, who had registered as "C. F. Kroyce, San Francisco, Cal.," was found asphyxiated by gas at the Grand Union Hotel. The stranger, who was well dressed, was apparently penniless. Only a collar button was found in his pocketbook. He had no papers.

This was followed by the finding of Mrs. Caroline Rivinius and her four children dead from gas at the West Shore Hotel. After breakfasting with his bride of a day at the Murray Hill Hotel on Park avenue, Dr. Robert M. Flagg, a prominent physician of Yonkers, N. Y., suddenly became a maniac and jumped out of a window, received injuries which later resulted in his death.

The other and minor suicides were those of Theodore Miller, a clothing cutter, who shot and killed himself on Seventh avenue; Rudolph Kenoch, who poisoned himself with carbolic acid on Fifty-eighth street, and Michael Walsh, who is believed to have drugged himself to death at the Fulton Hotel.

In the suburbs of the city several fatalities are also reported. One important event in this connection is the mysterious deaths of Frank Hawley and E. L. Hoffner

of South Norwalk, Conn., who conducted a shooting gallery range at the White Plains Fair. The men stopped at the Mathies Hotel. This morning they were found dead in bed, the room full of gas. It is believed that their deaths were the result of an accident, however.

The Cuban Situation.

NEW YORK, Oct. 4.—The Herald, this morning, prints a number of interviews with leading Cubans here on the situation in the island. The Cubans all declare that autonomy for the island is out of the question, but most of them are in favor of paying Spain a reasonable indemnity, providing she evacuates the island at once. The Estrada Palma representative of the Cuban provisional government said: "To the Cuban patriots it makes little difference whether a Liberal or Conservative ministry directs affairs in Spain. A change in government in Spain does not alter the case of the Cubans. They are now more determined than ever to push the fight until the absolute independence of Cuba is acknowledged. I believe the Cubans are willing to pay a reasonable indemnity to Spain, provided she withdraws her troops from Cuba before the island is completely ruined."

Enrique J. de Marona said: "Absolute independence is the aspiration of the immense majority of the Cuban people. Cuba needs a definite political regime. Spanish autonomy would not give it to the island. The only practical solution of the Cuban question is absolute independence."

The Pope's Condition.

LONDON, Oct. 1.—The Globe this afternoon, says it hears the Pope's weakness is increasing and that the church dignitaries are afraid he will not rally from the extreme feebleness and exhaustion he now betrays.

Industrial Work of Irish Nuns.

On Aug. 17th the Irish Textile Exhibition organized mainly by the Countess Cadogan was opened in Dublin. It is the most important display of women's industries ever held in Ireland and would do credit to any land.

The specimens of lace, linens, woollens, poplins and silks come principally from the Irish Convents. And even other exhibitors who purchase the Convent goods have the work of the nun's pupils on display. The Sisters have begun to promote almost every species of home industry. They teach linen weaving, woollen and silk weaving and the manufacture of dress and clothing therefrom. The manufacture of linen which was at one time exclusively confined to Ulster is now being spread in the South and West of Ireland by nuns.

The Skibbereen Convent was the first outside Ulster to revive this Irish industry. The farmers of Munster, up to a decade ago, used to grow their own flax, spin their own yarn, and weave a coarse linen, some of which exists and is worn to this day. That industry died out when cheap cotton goods were introduced, and the fine linens made in the factories in Belfast alone survived. The convents are now endeavoring to teach the youth in the south the weaving of fine linens. Skibbereen made the start, and now this industry is in full swing also in the Convents of Mercy in Gore and Carrick; in the Mercy and Presentation Convents Stradbally; in the Presentation Convent, Kilkenny, and in St. Camillus' Convent, Kilkenny; and a large number of girls find remunerative employment at this work. The yarn is obtained from Belfast and the work of the girls is purchased by Belfast firms, who highly prize the fine laws turned out in the schools. The Text Convent exhibits one of its linen weaving looms in the machinery section.

Other Convents also exhibit linen-made goods.

The convents are also in evidence with specimens of woollen goods. The famous Providence Technical Schools of the Sisters of Charity, Foxford, and the Mercy Convent, Skibbereen, have both fine displays in this branch. The Convent of the Good Shepherd, Limerick, has the best specimens of Irish lace. Many convents have beautiful exhibitions of table linen, handkerchiefs, towels and such articles. The Youngal Presentation Convent displays a piece of Youghal Point Lace valued at \$400 a yard. These few samples will give an idea of the great work that the Irish Sisters are doing. They are reviving the old industries and beating all competitors of the field.—Exchange.

Klondyke Gold

Is "not in it." If every man and woman in this fair Dominion ours would buy as much HIGGIN'S BRITISH LINIMENT as we believe would be best for their their own welfare we would not sell our interest in it for the best claim in the Klondyke region. "Distance lends enchantment," and we are liable to ignore the blessings that lie about our feet; hence we are urging you to buy "Higgin's British Liniment" while all the unknown terrors of the journey will not keep many of you from the Klondyke gold fields.

Buy a bottle and keep it by you and there will be money in it for us and many blessing for you. It speedily cures all troubles for which Liniments are generally used.

Read what people are writing to us about it:—Mrs. Robinson, Hopewell corner, writes.—Dear sir, I have used your British Liniment for one year and must say it surpasses all the Liniments I have ever used for Sore Throats, Lame Back, Pain in the Side, and all complaints for which a Liniment is needed. I had had a pain in my side, so bad that I had to give up work. I gave my side a good bathing with your Liniment and it gave me immediate relief, so that in twenty minutes I was able to go about my work.

Mrs. A. Hamilton, Brookfield, writes.—Dear Sir, I cannot speak too highly of your excellent Liniment. There was a lump growing on the inside of my eye for nearly two years; it grew as large as the end of my finger. I tried to drive it a way with iodine, to no purpose; the doctor said that their were no remedy but to cut it out. I told him that was the last alternative, as it would destroy my eye. I then tried the British Liniment; after applying it one month the lump entirely disappeared, so my eye is as well as ever. I have found it to surpass anything for croup and diarrhoea.

Captain Bishop, Hopewell, writes.—Dear Sir, I have suffered with a constant pain in my breast day and night for nine months. I tried every Liniment I could get, to no purpose. By three applications it was perfectly cured.
