LEGAL NEWSPAPER DECISIONS.

1. Any person who takes a paper regularly from the Post Office—whether directed to his address or another, or whether he has subscribed or not—is responsible for the pay.  
 2. If any person orders his paper discontinued he must pay all arrears, or the publisher may continue to send it until payment is made and collect the whole amount, whether it is taken from the office or not.

RICHIBUCTO, N. B., OCT. 14, 1897.

THE COMING MUNICIPAL ELECTIONS.

In a few days the electors throughout the County will be called upon to select proper persons to fill the places of Councillors for each Parish. It would be well for those who exercise the franchise to use it most carefully so that they may not be drawn into cliques or parties whose only aim often, is to serve their own selfish purposes and further their own ends.

We think there never was a time when it was more necessary for the electors to be careful in their choice than at the present time. There are so many ways in times like the present, when the different Parishes may be benefited by a judicious selection of representatives at the Council Board. We have to congratulate those members of the present Board who were instrumental in getting so substantial and handsome a building as the Record Office. It was certainly a much needed improvement and does great credit to its promoters. We think there might be a great saving as well as improvement in the sentencing of short term prisoners if accommodations were provided for them enabling them to perform work which would lessen the expenses necessarily incurred, to the County. Judge Landry, in his address at the last sitting of the Supreme Court here, said, if the gaol had been in a fit condition, he would have sentenced the prisoner tried and convicted before him to a term in the common gaol of the county, but he said he had examined it and felt it would be as much as the man's life was worth to keep him there in its present state. He would prefer to send him to the penitentiary which he accordingly did. Our Sheriff has lately had three trips to the penitentiary with prisoners, causing a large outlay which might have been saved to the County if proper gaol accommodation had been furnished. There might also be a revenue derived from these short term prisoners if there were some means provided for their employment during their incarceration. We say this because we notice many of the Acts both of the Dominion as well as of the Province, often mention a period of so many months in the common gaol of the County to be kept at hard labour, evidently intending that these prisoners shall have the salutary effect which labour always has upon prisoners in any attempt at reforming them or doing them good. There is no doubt but that this is the humane view in reference to those prisoners because a term in the common gaol with all the necessary means of employment and usefulness takes away that stigma of approach which invariably rests upon prisoners who are sent to the penitentiary for a

shorter or longer term and would enable them, especially young men, to reform and become in the future, respectable citizens.

THE POTATO CROP.

Potato digging in this section is pretty well advanced, and the crop with the exception of rot in a few places is said to be excellent. A few shipments have been made to the United States. The prices paid here range from 20 to 25 cts. per bushel, which is considered a fair price at this time of year. On P. E. Island where the conditions are about the same as here, there is quite a trade between that province and the U. S. The Charlottetown Patriot says of the crop in the Island Province:

"Potato digging is now general, and the reports from all sections of the Island are that the quality has never been surpassed. The quantity, too, is fully up to the average, although a short crop is reported in some sections. All our surplus stock will find a market in the United States at fair prices, notwithstanding the duty of 25 cents per bushel which in this case at least will be largely paid by the consumer, although the duty at the same time curtails business and were it not for it island farmers would get higher prices. It is too early yet to speak with confidence as to the prices likely to rule in Boston; which place for various reasons will be the principal market of this province. We are glad to note, however, that potatoes are opening there fairly well, and we have heard of some parcels of whites which went by the last steamer and realized \$2.50 per barrel. A large number of vessels have been chartered to load at the various island ports for Boston, and Mr. E. M. Ely, the veteran buyer, is here again operating for New York. Whites and Hebrons are worth here 25 cents. This or a little over will probably be the ruling price here this season. There is some inquiry for our potatoes in the West Indies, but this business has not been sufficiently tested, although with large shipments from Nova Scotia ports to Havana, and other ports south, we do not see why island shippers should not find a good market there.

As the mackerel fishing here, as in other places, has been a partial failure, various theories have been set forth as to the reason of the scarcity. The New York Fishing Gazette gives a plausible explanation which we give below:

The mackerel season has been a complete failure wherever the fish are caught. No one seems to offer a good reason for it. Some advance the theory that the purse seines scare the fish, others that the enemies of the fish have driven them away, claiming that where blue-fish are plentiful mackerel are scarce. They do not realize that these fish go where they can get the best feeding, and if their usual feeding grounds give out it is natural for them to seek food elsewhere, and when they find it the fishermen may not think of looking for them. There is no doubt there are plenty of fish, mackerel, etc., it is only a question of finding them. When the fishermen fished with hook and line and threw thousands of barrels of bait, they got plenty of fish, but since that method was changed to seining, we find years of scarcity. It is possible that the practice of bringing to market thousands of tunks may have some effect on the scarcity, and this should be stopped, for in another season these small fish would be good-sized mackerel, bringing a good price.

CHURCH SERVICES.

PRESBYTERIAN CHURCH.—Services will be held on Sabbath first as follows: viz:—Kingston, at 11 a. m., Richibucto, 7 p. m.  
 METHODIST SERVICES.—Rev. Wm. Lawson Pastor. Preaching Sabbath next, as follows by pastor: Richibucto, 11 a. m., sermon to young men; Molus River, 3 p. m.; Kingston, 7 p. m., sermon to young men; Mill Creek, Friday 7 p. m.

Lieut. Governor McIntosh of the North-west Territories asks that a new ministry be formed. The writs for elections have been issued.

CORRESPONDENCE

To the Editor of The Review:

As my attention will be taken up with other things during the coming winter, I will not be able to offer my service in the coming Municipal contest. Therefore I have resigned in favor of Martin H. Daigle and will give my assistance in electing him.

Thanking the people of the Parish for their generous support to me in the past. I am

Yours Truly,  
 MAXIME H. DAIGLE.  
 Parish Carleton, Oct. 11th 1897.

Editor Review:

Mr. Barnes was here lately in connection with the "fake" bridge. Mr. B. let it slip that the bridge would not be built this fall, but might be repaired next summer. It has been suggested that "cedar" would be used in the repairs, who knows but he has completed another "cedar deal" Although a man of large stature his mental calibre seems to be totally inadequate for the position he holds, or in other words he is too small a man for the "job."

O. K.  
 Kouchibouguac, Oct. 12th, '97

CARD.

TO THE ELECTORS OF THE PARISH OF CARLETON:

Gentlemen—You know I will be a candidate for your suffrages in the coming municipal election, and if elected I will pledge myself to do everything in my power to advance my own personal interests. I will put in office only such men that will put to appropriate a part of their salary to my private use. I have been an office seeker myself for a number of years and will treat men of this class politely and with respect, I will confer special favors on every man that will hold my horse while I am out canvassing during the last days of this campaign. To every man that says he will not vote for me, I offer a pound of "well mixed" Union Blend Tea, two figs of black tobacco, half pound of candy and a tin pint, I will see that the county jail is thoroughly renovated lighted by gas and heated by electric and otherwise fitted up in the most approved style. I will have a post office at Tweedie Brook, a custom house at the beach, and a blueberry factory at Fountain's creek. Only men that vote for me will get employment on the bridge or on any other public work throughout the Province of New Brunswick. Trusting you will elect me by a majority of your votes, I have the honor to be your obedient servant.

MR. NEWBRIDGE.  
 Kouchibouguac, Oct. 5th '97

Fads in Medicine.

There are fads in medicine as in every thing else and a "new thing" frequently sells for a short time simply because it is new. But in medicine, as in nothing else the people demand and will be satisfied only with positive, absolute merit. The fact that Hood's Sarsaparilla has stood its ground against all competition, and its sales have never wavered but have remained steadily at the top, demonstrates, beyond any doubt, the intrinsic virtues of this medicine. The new things have come and gone but Hood's Sarsaparilla rests upon the solid foundation of absolute merit and its power to cure, and its sales continue to be the largest in the world.

ST. NICHOLAS RIVER RAKINGS.

Seeing no news from this place for some time I thought it would not be amiss to write some of the past week.

The weather has been exceedingly fine and has enabled most of the farmers to finish their harvest which is about the average crop.

Miss Minnie Clare, of Mill Branch is visiting relatives in this section.  
 Miss Sadie Masterson, teacher at Pine Ridge spent Sunday at home.

Mr. William Murray, of Boston who has been visiting friends in this locality returned home on Friday.

Mr. Fred Warman who has been in Charlo, N. B., for the past two years has returned home for a short visit.

Several of our young people attended the dance on the north side on Wednesday evening where an enjoyable time was spent, and as the ark was about to leave the shore, a young man was heard to say, "I wish my bike was built for two."

Our school children were entertained for a short while Friday morning by C. C. Carlyle and his phonograph.

Mrs. Robert Patterson and son paid a flying visit to this place one day last week.

Mr. William Irving's new house is fast nearing completion and when finished will be one of the finest in the vicinity.

HOODLUM.

When Baby was sick, we gave her Castoria.  
 When she was a Child, she cried for Castoria.  
 When she became Miss, she clung to Castoria.  
 When she had Children, she gave them Castoria.

THRILLING RESCUE.

A YOUNG LIFE SAVED IN A REMARKABLE MANNER.

Florence Sturdivant, of Grindstone Island Saved From an Untimely Death—Her Parents Saw Her Dangerous Predicament, But Were Helpless to Aid Her—How She Was Rescued.

Among the Thousand Islands is one called Grindstone. It is seven miles long and three wide. The inhabitants of this island are a well-informed class of people who devote their energies to farming and quarrying for a livelihood. In the home of one of these islanders, resides Florence J. Sturdivant, the four-year-old daughter of Mr and Mrs. William H. Sturdivant. In February, 1896, she was taken with scarlet fever, and after the usual run of the fever she was left with a weak back and gradually began to lose strength, until finally despite the best efforts of physicians her life hung in the balance. It was at this crisis, when all seemed darkest, that an angel of health appeared on the scene and released little Florence from pain and suffering and restored her to strength and health. This remarkable occurrence is best told in the words of the father.

FLORENCE J. STURDIVANT.

Mr. Sturdivant said: Florence was taken sick with scarlet fever and we immediately called a physician. He prescribed for her and we followed his directions closely, giving our little patient the best of care. After two weeks the fever subsided, but Florence was left with a very weak back. Severe pains were constantly in the back and stomach. We did all that possibly could be done to relieve our little sufferer, but to no avail. The difficulty seemed to baffle the efforts of the physician.

"Finally at the end of four months of treatment, we found our patient completely prostrated. At this time we called another physician, who agreed with the diagnosis of our own doctor, and said that the trouble resulted from the scarlet fever. He prescribed a course of treatment and we followed it faithfully for three months, but instead of improving, Florence failed.

"Mrs. Sturdivant and myself were completely discouraged. A brother of my wife, who was visiting us, advised us to use Dr. Williams' Pink Pills for Pale People, and I purchased a box of the pills and began to give them to Florence. This was in October 1896. After using the pills a short time we could see an improvement. Her strength began to return and she would sit up in bed. Her appetite was restored and she ate heartily. We also noticed a gradual brightness in her eyes.

"We eagerly purchased a further supply of pills and watched with delight the change for the better that was being wrought daily. From sitting up in bed at times during the day and at times standing on her feet, Florence finally became strong enough to walk a little. She gained in flesh and strength rapidly and the pains gradually left her. In a month's time she had recovered her health and strength.

"We cannot praise too highly the value of Dr. Williams' Pink Pills. I am positive that without their use our child would have been to-day in the same sad condition of her early sickness—a confirmed invalid—if indeed she had had the strength to withstand so long the ills of her affection."

(Signed) WILLIAM H. STURDIVANT.  
 Subscribed and sworn to before me this sixth day of April, 1897.

H. W. MORSE, Notary Public.

100 DROPS  
**CASTORIA**  
 A Vegetable Preparation for Assimilating the Food and Regulating the Stomachs and Bowels of  
**NEWBORN CHILDREN**  
 Promotes Digestion, Cheerfulness and Rest, Contains neither Opium, Morphine nor Mineral. NOT NARCOTIC.
