GOOD TRADE.

Is secured by high class work. Such can be obtained at Mrs. Haunay's, Kingston, as she has engaged a first class watchmaker.

SYDNEY COAL MINES.

THE CLOSING OF THE DOMINION COAL COMPANY'S COLLIERIES
North Sydney Herald.

The Dominion Coal Company has officially notified its employees at Port Morden and Victoria mines that the collieries at those places are to be permanently closed on the 15th of December. This official announcement, coming from the head office of the company in Boston and signed by the proper official, has created a sensation not only among the people of the districts directly interested but throughout the country. It has been the principal topic of conversation during the past eight days and in one of the districts—Victoria Mines—a meeting has been held protesting against the action of the company. Hon. Premier Murray at Halifax has been communicated with and the following is a copy of a message sent by him to the president of the company in Boston.

HALIFAX, N. S., Nov. 16, 1897.
H. M. Whitney, Esq.,
President Dominion Coal Co.,
Boston.

I understand that official notice has been given employees Victoria Mines, and also employees Gowrie Mines, that these mines are to be permanently closed. On behalf of the government of Nova Scotia I protest against such action on the part of the company. This involves great loss of public and private property. Before making a more pronounced protest I would ask you to suspend decision for a short time, as I understand you have no advisers experienced in peculiarities of these areas.

(Signed) G. H. Murray.

To the above telegram Mr. Whitney has replied in effect, that he has wired Mr. W. B. Ross, the solicitor of the company at Halifax to meet him (Premier Murray) and discuss the subject. Whether the government of this province can force the Dominion Coal Company to recede from the action taken with regard to the closing of the two important collieries above named remains to be seen.

JOIN HANDS

In Telling of the Curing Powers of Dr. Agnew's Cure for the Heart.

Mr. V. Thomas, of Stanley House, Kingston, writes: "Dr. Agnew's Cure for the Heart has proved a wonderful medicine in my case. I was a great sufferer from heart trouble. I found it a great health builder and have received great benefit. My wife also has used the Heart Cure and can bear equally as strong testimony of the wonderful benefit received." It relieves in 30 minutes. Sold by W. W. Short.

"Doctor, what do you regard as the surest hereditary trait—that is, what peculiarity is most likely to be inherited?"

"My observations lead me to believe that the desire to escape work is about the most common thing that people inherit."

"Remember, my boy, said the middle-aged gentleman, "that contentment is better than riches."

"Yes," replied the young man, who is something of a philosopher himself, "that is to say, it would be if there was any such thing."

Kittie—"I heard to-day you married your husband to reform him."

Sarah—"I did."

Kittie—"Why, I didn't know he had any bad habits."

Sarah—"He had one—he was a bachelor."

"Papa, you are the nicest man in the world."

"And you are the nicest boy in the world," said his father.

"Yes; I guess that's so. Isn't it queer how we both managed to get into the same family?"

FROM PERSONAL EXPERIENCE.

Many have tried for years to discover a remedy suitable to their own case for the Constipation, Biliousness, Indigestion, Headache, Kidney and Liver Complaints arising from Poor Digestion, Weak Stomach, and a Sordid Liver.

To those we say: Try the new medicine—

Laxo-Liver PILLS

Read what people say. Here it is. Miss S. Lawson, Moncton, N. B., says: "They cured me of constipation and sick headache." Mr. H. JAMES, St. Nicholas Hotel, Hamilton, Ont., says: "They are a pleasant, sure and quick cure for constipation, dyspepsia and sick headache." Mrs. M. E. HICKS, South Bay, Ont.: "Laxo-Liver Pills are excellent for sick-headache, causing no pain or griping." Mrs. JOHN TOMLINSON, Hamilton, Ont.: "They are a perfect cure for even the severest headache."

WOULD NOT CONSENT

To Be Operated On at the Hospital.

The Lady Uses Paine's Celery Compound and Is Cured.

Mrs. Saunders, of Bracondale, a suburb of Toronto, lay in the hospital suffering from a trouble quite common with many of her sex. At a critical time in her sickness the doctors deemed an operation necessary. Mrs. Saunders wisely refused to submit to the decision of the medical staff, and decided to try the virtues of Paine's Celery Compound.

After being blessed with a complete cure, Mrs. Saunders wrote as follows:

"It is with much pleasure that I testify to the value of your wonderful Paine's Celery Compound. I was a great sufferer from severe attacks of neuralgia in the left ovary. At times the attacks were so acute that I thought I would lose my reason."

"Several doctors treated me, and I was a patient in St. Joseph's Hospital, Hamilton. I obtained no relief from medical treatment. The doctors said unless I had the ovary taken away I could not be cured."

"Instead of submitting to the operation I used Paine's Celery Compound, and I am thankful your valuable medicine cured me. I feel like a new woman, and I would like all sufferers to know just what this great medicine has done for me."

ARTROCIOSUS NEWSPAPER FASHIONS.

(San Francisco Argonaut)

The daily papers are not content with plastering pictures over their pages, most of which are superfluous and all of which are bad. They have now devised all sorts of typographic freaks with which to disfigure the pages already defaced by poor pictures. It has become a matter of extreme difficulty to pursue the windings of an article in and out of the pictures and over to the inner pages where its ramifications generally terminate. For according to the "new journalism," it is necessary to begin all the news features on the first page with a whoop and a howl, allowing them to trickle out like stale treacle on the inside pages. But this desire to get everything "featured" on the first page has brought about the condition which makes the daily papers look like picture puzzles. As if to add to the confusion, some inspired editorial idiot has now devised a plan of inclosing in borders all sorts of stories, scraps of interest, sayings of individuals more or less obscure and the flotsam and jetsam generally of the news of the day. There is thus made up a sort of journalistic remnant-counter or newspaper rag-bag, which is surrounded with variegated black borders of varying degrees of hideousness and around which must coil and curl and convolute the genuine news of the day. The hapless purchaser of a newspaper is now forced to pick out the news not only from amid the pictures which deface the pages of the dailies, but from these typographical monstrosities as well.

The diseases cured by Hood's Sarsaparilla are many, because most ailments disappear as soon as the blood is enriched and purified by it.

ATTEMPTED SUICIDE.

ST. JOHN, Nov. 25.—Mrs. Frank Mullen, better known as Lizzie Slow, attempted suicide tonight by taking some carbolic acid. When found she was in a serious condition but early this morning was out of danger.

None So Excellent.

"I have been troubled with sick headache for over a year. Lately I have used Laxo-Liver Pills, and find that they help me more than any other medicine I have ever taken. They are an excellent pill, causing no pain or griping, and leaving no after ill effects."

MISS MARY ELLEN HICKS,
South Bay, Ont.

HAPPY THOUGHT.

Mrs. Youngish—"Oh, Bob, what shall I do? Baby is crying because I won't let him pull all the fur off my new muff." Mr. Youngish—"Well, that's all right. Give him the cat."—Tid-Bits.

Hagyard's Yellow Oil.

The great pain cure. Used externally cures rheumatism, swellings, sprains, bruises, stiffness, pain and soreness of every description. Internally used it cures croup, colic, sore throat, hoarseness, asthma, bronchitis, quinsy, etc. Price 25c., all druggists.

Captain Mayne Reid wrote thirty-four stories for boys, of which seventeen have been translated into French. He fought in the Mexican war, and is buried in Kensal Green cemetery, London.

THE WOMAN LAWYER INSISTED.

(New York Herald.)

The woman lawyer slammed a pile of briefs down before the judge, and said:

"I move to discharge this prisoner on the ground that the prosecution have not proved their case and that the evidence is irrelevant and immaterial."

"Motion granted," said the judge.

"No more dastardly outrage was ever perpetrated," began the lawyer, "than the incarceration of this, my innocent client. He was engaged in the pursuit of his daily vocation when the strong arm of the law descended upon him. He—"

"Madam," said the judge, "have I not already told you that your motion was granted? The prisoner is discharged."

"He was a man without guile," continued the fair counsellor. "He supported his family as best as he could. He was in the midst of his family circle when a minion of the law entered and demanded his immediate incarceration—"

"I have already decided in your favor, madam, as I have told you twice," drawled the judge. "What more do you want?"

"What more do I want, indeed?" cried the woman lawyer, her face flushing to a crimson hue. "Why, I want to argue this case. I stand upon my constitutional right as a woman to have the last word, and I mean to have it."

And she did.

GENERAL NEWS.

The great telescope now building for the Paris exposition of 1900, will bring the image of the moon within a mile of the earth. The general rule of optics in terrestrial affairs is that a person can be seen with the naked eye at the distance of a mile. Through that big glass one ought surely to see the man in the moon quite distinctly.

Houlton can lay claim to having the champion lady shooter of the Maine woods in the person of Mrs. S. A. Gray. She arrived home bringing as a trophy of her skill with the rifle the largest and handsomest deer ever brought to that town.

Maine is the great source of the Christmas trees used in Boston and New York, and already preparations for the annual trade have begun. Thomaston is a leading shipping point and from there a present of gum goes with every tree.

An English peer for some offence was called out by a politician, and promptly responded to the challenge. On arriving at home again after the duel his lordship gave a guinea to the coachman who had driven to and from the ground. The driver appears to have been an exceptionally honest, simple man. He was surprised at the largeness of the sum presented and said: "My lord I only took to—"

"Yes, yes; I know that. But the guinea is for bringing me back."

DIAMOND SET IN A TOOTH.

BALTIMORE, Nov. 21.—Miss Florence Hudson, of this city, has a front tooth from which flashes a half carat diamond. It is one of two which were put into the upper jaw by means of a golden bridge. The effect when she speaks or laughs is dazzling. The diamond is set right in the centre of the tooth, which is large, and occupies about half of its front surface.

Miss Hudson has gloried in a set of very large and white teeth, but when she found she must lose two she determined to substitute gold ones. Gold appeared to conventional, however, and she determined upon the diamond setting.

After Typhoid Fever.

"After I had typhoid fever kidney troubles ensued. I had terrible pains in my back, head and shoulders, and felt tired, drowsy, and dragged out and had annoying urinary troubles. I have grown daily better since I commenced using Doan's Kidney Pills. I have no pains of any kind, sleep well, feel rested, and the urinary troubles have completely disappeared. J. W. DOUGLAS, Port Hope.

BOY BREAKS HIS NECK.

MONTREAL, Nov. 24.—A sad accident took place yesterday afternoon on the play-ground of Mount St. Louis school, Sherbrooke street. It appears that the ten-year-old son of Mr. J. A. Denis, St. Lawrence street, while playing on the trapeze, fell to the ground head foremost and with such violence that the lad's neck was broken.

CASTORIA.
The famous signature of Dr. J. C. Ayer is on every wrapper.

Back-Ache, Face-Ache, Sciatic Pains, Neuralgic Pains, Pain in the Side, etc.; Promptly Relieved and Cured by
