SCOTT ACT IN CHATHAM—The police committee of the new town council in Chatham at a meeting recently instructed the police that for the future they should refuse to serve any Scott Act papers, also should refuse to assist the inspector in any searches for liquor or in any other way.

FURNITURE DISPOSED OF—Mrs. Fred Ferguson of Richibucto who has been in Dorchester for the last two weeks, in the interests of the disposing of the effects of the late Mrs. Peck, returned to her home Wednesday morning. In addition to the large quantity of furniture and fire-wood sold by auction sale, she took with her upwards of a carload of the better furniture, including piano, handsome parlor suits, large mirrors, hat rack, etc. It is Mrs. Ferguson's intention to allow the premises to remain unoccupied until next spring, which she will then endeavour to rent or sell. This is one of Dorchester's many beautiful residences.—Dorchester Spectator.

THANKSGIVING SERVICE—The Ladies Aid Society of Richibucto, gave the public a treat last Tuesday. Their Thanksgiving service which had been postponed on account of the mission services in the Episcopal church, was crowded. All the numbers on the programme were good and well rendered. The music was excellent. The addresses of Revs. H. A. Meek and W. Lawson were warmly received. The address of Miss Davis—"The story of the first Thanksgiving," was a new, happy and interesting feature of the service. A letter of regret from Rev. D. Fraser at not being able to attend was read by pastor Lawson. Mr. Lawson's (president of society) chairman was remarked by all to have been perfect.

TEMPERANCE LECTURE—On Tuesday evening, Rev. E. O. Taylor, the noted temperance orator, lectured in the Temperance Hall under the auspices of the W. C. T. U. A number of the prominent ladies of that organization occupied the platform. The lecturer was introduced by Mrs. H. A. Meek in a very neat and appropriate speech. The lecture, "That Boy of Yours," was highly instructive and entertaining. Although the reverend gentleman was in poor health, suffering from an attack of erysipelas in the face, he handled his subject with an ease that can only come from long practice. Yesterday evening the same gentleman delivered his lecture, "A Glass of Beer Analyzed." On both occasions large audiences were in attendance.

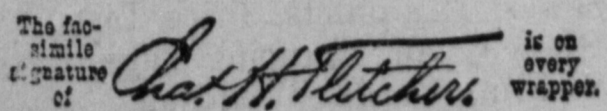

BURNED TO DEATH—About three o'clock Monday morning fire was discovered in the dwelling of Mr. Peter Poirier, farmer, St. Louis. Mr. Aimie LeBlanc was the first to discover the fire but by the time the alarm could be given and the neighbors summoned, the house was in flames. Mr. Poirier, who was 74 years old, lived alone, being unmarried. The charred trunk of the unfortunate man was found in the ruins after the fire had burned itself out. It is supposed that a defective flue caused the fire. It was at first suspected that Mr. Poirier had some money and that robbery and incendiaryism had been committed, but this could hardly have been the case, for Mr. Poirier was a poor man. Three old coins (Spanish silver dollars) were found in the ruins. On Monday morning Coroner Thos. J. Bourque held an inquest when the following jurymen were summoned: Mosie Barribeau, Dominic Babineau, P. L. Richard, Phil. Leger, Chas. Robicheaud, Levi Barribeau and Sylvain Breaux. A verdict of accidental death was rendered. The remains of the unfortunate man were interred at St. Louis on Tuesday.

—The smelt fishing has not been up to the average of other years. The fish are very small, scarcely more than one half being fit to pack. The weather is extremely mild and the ice is not strong enough to fish on. A few who are prepared with scows and rafts are catching good hauls. Two carloads have been shipped, one each by A. & R. Loggie and Richard O'Leary. The price here is 1½ cents.

—At a luncheon on board the Gallia, one of the steamships of the Bearer line, at St. John on Monday last a representative company of St. John citizens was present, and the speeches made by the manager of the line, Mr. Campbell, and others indicate that the winter port business of St. John is booming beyond the expectations of even the most sanguine. One hundred steamships of different lines will sail from St. John this season with full cargoes, and the prospects are that within five years five hundred steamers of the latest designs and capacity will be engaged in the trade. Already more western freight has been offered than the Beaver line can handle.

OTTAWA NEWS.

OTTAWA, Dec. 5.—Hon. Dr. Borden left for Montreal today en route for England. He sails from New York Wednesday. In addition to seeing the authorities of the war office in reference to the grant of long service medals to the Canadian militia he will endeavor to secure the extension of the principle of interchanging companies of the Canadian permanent force with the imperial regulars.

Hon. Mr. Mulock does not anticipate any trouble with the postal union authorities over the reduction of postage to points within the empire. He says it is purely a matter of domestic concern to Canada.

At Central Experimental farm oats ranged from 30 to 57 bushels to the acre, barley 35 to 54 bushels, wheat from 20 to 28 bushels.

The exports for October show an increase of \$3,600,000 and the imports an increase of \$770,000.

The long standing claim in the matter of the United Counties railway have been finally settled and the money paid. The claimants were the Portland Rolling Mills Co. and St. John Bolt and Nut Co. and some Montreal firms. A large portion of the subsidy was stopped in the railway department to provide for these claims, while the payment was resisted by the railway company and the bank of St. Hyacinthe. The claimants, however, have succeeded in getting the payment from the subsidy.

A mute who is able to speak has shown himself at Cremsaux, in the Arrondissement of Roane, on the Loire, France, to the great astonishment of neighbors. He is twenty-five years of age and, owing to an illness, has been mute since his second year, but recovered his speech by an accident a few weeks ago. The young man, whose name is Gaudard, was trying in vain to make his sister understand that he wanted a smoke and suddenly exclaimed "tabac." Since then he has spoken regularly. Gaudard, it seems, was only a mute, not a deaf mute, and had been at school, though he could not respond to any questions put to him. His mutism was probably the result of partial paralysis, which disappeared with age.

BABY'S SKIN

Freed from all Eruptions. Made Pure and White by DR. CHASE'S OINTMENT.

Mothers take a pride in having their infants' skin of that delicate pink and white—soft as velvet. When torturing and disfiguring eruptions seize upon the little body, they want a remedy that will not disappoint nor fail. Time and again Dr. Chase's Ointment has proven itself a specific for all skin diseases to which babies are peculiarly subject.

MRS. CHAS. K. MOSS of Berlin, Ont., had a little baby 6 months old, with itching sores on her body. Dr. Chase's Ointment cured her when everything else failed. Another mother who holds Dr. Chase's Ointment in high esteem is MRS. JAS. BROWN, Molesworth, Ont. Her baby boy was covered all over the face, sides and hips with Eczema. The first application of the Ointment stopped the itching, and 3 boxes effected a complete cure. These are but samples of the hundreds of mothers who are delighted with Dr. Chase's Ointment.

Price, 60 Cents a Box. Sold by all Dealers, or Edmanston, Bates & Co., Toronto, Ont.
