

RAILROADS.
INTERCOLONIAL RAILWAY

On and after Monday, Oct. 16th, 1899
trains will run daily (Sunday excepted)
as follows:—

LEAVE KENT JUNCTION.

Accommodation for Moncton and St.
John.....12.17
Accommodation for Newcastle and
Campbellton.....13.04

Vestibule Sleeping and Dining Cars on
the Maritime Express between Montreal
and Halifax.

All trains are run by Eastern Standard
Time. Twenty-four Hour Notation.
D. POTTINGER,
General Manager.

Railway Office, Moncton, N. B. 12th
Oct. 1899.

MONCTON AND BUCTOUCHE
RAILWAY.

1899. WINTER TIME TABLE. 1900.

In effect Thursday, October 19th, 1899.

No. 1	STATIONS	No. 2
10.00	Arr. Moncton.....Dep.	15.30

THE REVIEW Office.

Bakers' Bad
Backs.

We little know the toil and
hardship that those who make
the "Staff of Life" undergo.
Long hours in superheated
and poorly ventilated work-
rooms is hard on the system,
gives the kidneys more work than they
can properly do, throws poison into the
system that should be carried off by these
delicate filters. Then the back gets bad—
Not much use applying liniments and
plasters. You must reach the kidneys to
cure the back. DOAN'S KIDNEY PILLS
cure all kinds of Backs by restoring the
kidneys to healthy action.

Mr. Walter Buchanan, who has con-
ducted a bakery in Sarnia, Ont., for the
past 15 years, says:
"For a number of years previous to taking
Doan's Kidney Pills I suffered a great deal from
acute pains across the small of my back, pains in
the back of my head, dizziness, weary feeling and
general debility. From the first few doses of
Doan's Kidney Pills I commenced to improve, and
I have continued until I am to-day a well man.
I have not got a pain or ache about me. My head is
clear; the urinary difficulties all gone; my sleep is
refreshing and my health is better now than for
years."

ITEMS IN ONIONS GROWING.

Several methods employed in the pro-
duction of bunching onions are mentioned
as follows by a writer on onion culture.
In the South the potato onion is largely
used, the bulbs being planted in the fall.
They are set in trenches four or five
inches deep and placed three to six inches
apart in the row. The bulbs increase and
divide during the growing season any may
be pulled and bunched very early in the
spring. Small sets of white or yellow
varieties are extensively used by some
market gardeners in the production of
bunching onions. Either fall or spring
planting may be practiced. The sets
should be planted one and a half or two
inches apart allowing a foot between the
rows. Seed is also largely used in raising
bunch onions. The earliest crop can be
secured by sowing in September or
October or sufficiently early for the seed-
ling to become firmly established before
the advent of cold weather. Fall sowing
is best adapted to the warmer sections of
the country. Seven or eight pounds per
acre should be sown, making the drills 10
or 12 inches apart. The Barleita variety
may be sown for early use.

SKIMMILK FOR MILK COWS.

J. Lindstrom, a Swedish farmer, has
conducted experiments with a view of
utilizing skimmilk as a food for milk,
says The Dairy of England. He recently
gave an interesting account of his experi-
ments and of the methods of procedure
followed in making the "skimmilk food,"
the main features of which are given be-
low pasteurized, or simply boiled, in
order to kill all bacteria which it may
contain. It is then cooled to 80 degrees,
rennet is added. This mass is mixed in a
tank or vat and left for two or three hours.
The whey not absorbed by the straw is
run off and the whole is left for 48 hours
when it will be fermented and ready to
feed. It is stated that enough of this food
may be fed to correspond to four kilos
(8.8 pounds) of whole milk per head per
day, and this will replace about 4½ pounds
of ordinary grain food. The method
appears to be simple and easy worked.
No doubt other coarse foods, also ground
oats, can be incorporated with curd in the
in the manner described.

In spite of the fact that "embalmed"
beef has caused so much adverse comment
it is claimed that considerable of the milk
and cream shipped to the large cities is
"embalmed" with various preservatives.

KEEP THE HENHOUSE DRY.

Build the poultry house so it will be
dry at all times. It is easy enough to
have a poultry house that is dry in the
middle of summer, but that is just the
time when the fowls are in it least and
are least affected by its condition. But
in the winter, when they must remain
indoors for days at a time, is when the
fowls need to have a place that is not
favorable to the increase of disease germs.
Wet and dirty houses are often the begin-
ning of epidemics of roup and other
equally fatal diseases.

To Cure Catarrh and Stay
Cured

You must use the most up-to-date and
most approved method of treatment.
This can only be had in Catarrhazone
which cures by inhalation and is sure to
reach the right spot. Treatments requir-
ing the use of sprays, douches, snuffs,
ointments, are a thing of the past, and the
medicated air treatment supercedes them
all. There is no danger or risk in using
Catarrhazone. It is both pleasant and ef-
fective to employ in any case of Irritable
Throat, Fetid Breath, Bronchitis, Catarrh
and Asthma. For sale at all druggists or
by mail, price \$1.00. For trial outfit
send 10c. in stamps to N. C. POLSON &
CO., Box 595, Kingston, Ont.

SUCCESSFUL STUDENTS.

Miss Lena G. Ferris, Milford, and Mr.
Robert J. Murphy are this week's gradu-
ates from the Saint John Business College.
The following is a partial list of those
who have recently obtained good situa-
tions. Several of whose employer's exact
address has not yet been obtained, and
others employed as clerks, etc., are not
included.

Mr. Herbert Gordon, city, with the
Bank of Nova Scotia, city.
Arthur L. Hoyt, McAdam, in the of-
fices of the C. P. R. at McAdam Junc-
tion.

Miss Annie Cox, Habitant, N. S., with
the R. Kinsman Co., Ltd., Canning, N.
S.

Miss Flora Russell, Lower Derby, with
James Russell, Lower Newcastle.
Lorne Grossett, city, with the Mispic
Pulp Mill Co.

Miss Grace Smith, Barronsfield, with K.
Bezanon, Moncton.

Wilson Dalton, city, with T. McAvity
& Sons, St. John.

Miss Bessie Carleton, city, with the St.
John Exhibition Association.

Harry Brown, city, with E. Hender-
shot, Manager Sun Life Association, St.
John.

Arthur Kerr, city, in the office of the
passenger department of the C. P. R., St.
John.

Arthur Mortimer, city, in the office of
the passenger department of the C. P. R.,
St. John.

Fred Reid, Riverside, A. Co., with
Messrs. Emerson & Fisher, St. John.

Miss Aileen Parks, city, with Messrs. D.
F. Brown & Co., St. John.

Edward Farry, Sutton Station, with
James Ready, brewer, St. John.

Frank Reid, Riverside, A. Co., with
Messrs. Daniel & Robertson, St. John.

Peter Cosman, Kingston, K. Co., with
H. L. & J. A. McGowan, St. John.

Miss Ella Darling, Apohaqui, with the
McLean Stamp Co., St. John.

Miss Mary Gallagher, Quispamsis, with
R. G. Murray, barrister, St. John.

Harold Sears, city, with Messrs. Mer-
ritt Bros., St. John.

Wm. E. Cooper, Point Wolfe, A. Co.,
with Chas. T. White & Co., Apple River,
N. S.

John C. Price, Havelock, N. B., with
S. H. White & Co., Sussex.

J. Frank Wilson, St. Stephen, with
Brantford Carriage Co., Truro, N. S.

Wm. A. Clarke, Newcastle, with Messrs.
Clarke & Co., Newcastle.

Miss L. Roberts, city, with Mr. Fen-
ton, manager National Life Insurance Co.,
St. John.

Miss Marie Connolly, Sussex, with the
Schofield Co., Ltd., St. John.

Miss Lena McIntyre, Loggieville,
teacher in St. Joseph's Convent, Chat-
ham.

Otto Nase, city, with Jos. A. Likely,
St. John.

Alfred Drowley, city, in accountants'
office of C. P. R., St. John.

Roland Carter, Kingston, Kings Co., in
New York office of the Esterbrook Steel
Pen Co.

Robert J. Murphy, city, with James
Murphy, St. John.—Sun.

Nov. 25th, 1899.

THE D. & L. MENTHOL PLASTER is the
most largely sold in Canada. For back-
ache and all muscular pains there's nothing
equal to it. Each plaster in an air-tight
tin, 25c. Davis & Lawrence Co., Ltd.,
makers.

GENERAL NEWS.

Montreal authorities are taking pre-
cautions against small pox.

Capitalists interested in nickel steel
plant have been in Hamilton, Ont., for
the last few days, and options have been
secured on more than 500 acres of land
east of the city.

Rev. Mr. Grant, a Presbyterian mission-
ary in China, writes to the head offices in
Toronto, reporting everything quiet in
his district, but an unusual peculiarity
has sprung up among the Celestial maid-
ens, who now follow the missionaries on
their tours, and innocently propose
marriage.

Trained Show Dogs.

"Considering the investment, trained
dogs are one of the most profitable
attractions in the vaudeville line," said
an old time showman, here with one of
the current theatrical companies. "I
suppose there are at least 12 or 15
troupes of them scattered over the
country," he continued, "and the good
ones easily average a couple of hundred
a week and expenses. As there are no
salaries to pay for the dogs and no hotel
bills for anybody except the proprietor
and one keeper the returns are rather
handsome. Nowadays they have the
business down to such a fine point that
the sudden death of any of the animals
can be readily remedied by telegraph-
ing to New York, where several men
make a specialty of keeping standard
trick dogs in stock.

"A dog troupe usually consists of
five performers, one of which is a star
the star probably costs \$150 and the
others about \$50 apiece. Mongrels of
no intrinsic worth are generally select-
ed for training purposes, because they
learn as quickly as the thoroughbreds
and if anything happens to them the
loss is so much lighter. There is a
standard series of tricks which they are
taught to do, so that one can easily re-
place another, and a little ingenuity on
the part of the showman supplies the
variety to the programme."—New Or-
leans Times-Democrat.

Ancient Chains.

In an interesting article on the sub-
ject of chains an English writer points
to the fact that notwithstanding the
frequent mention of chain in the Bible
the article is comparatively new. The
same author says

"Some authorities give the Britons
credit for originating the cable chain
because Julius Caesar is recorded as
having been unable to cut the cables of
the Gaul's vessels, as they were made
of iron. This may have been a chain in
the present acceptance of the term,
but it is doubtful, because the first pat-
ent for chainmaking was obtained in
England in 1634 by a blacksmith named
Philip White. The patent was, for 14
years, and in consideration of it White
had to pay £5 in lawful money yearly
at the Exchequer. Westminster, at the
Feast of the Blessed Virgin and Saint
Michael the Archangel by even and
anal process.

"His patent is described as follows:
"A way for the wearing of ships with
iron channes by finding out the true
heating (preparing and tempering of
lyron for that purpose and that he hath
nowe attayned to the true use of the
said channes and that the same wilbe
for the great saving of cordage and
safety of shippers and will redound to
good of our Common Wealth

Early French Theaters.

The French theater owes its origin to
the religious exhibitions given by the
pilgrims on their return from Palestine.
At these exhibitions the pilgrims gave
an account of the Holy Land and re-
cited their own adventures. They were
afterward imitated by those who had
never been to the Holy Land. To these
succeeded dramatic representations of
subjects taken from the new test-
ament, which being forbidden by the
priests of Paris, the priests of France
invited the king to be present at an exhibi-
tion to prove that they were calculated to
excite religious feelings.

The building in which those plays
were produced was divided into three
scaffolds—the highest represented
paradise, the second the world and the
lowest, which was in the form of a
dragon's head, represented hell. The
only entrance to the two upper scaffold-
ings was through the dragon's head.

The actors never left the stage, even
to change their dress, and the plays
were so long as to require several days
for their completion. At the close of
each evening the audience was invited
to return until the whole were finished
sometimes 40 nights.

The Power of a Cyclone.

Careful estimates of the force of a
cyclone and the energy required to keep
a full fledged hurricane in active opera-
tion reveal the presence of a power that
makes the mightiest efforts of
man appear as nothing in comparison.
A force fully equal to 473,000,000
horsepower was estimated as developed
in a West Indian cyclone. This is about
15 times the power that is creatable by
all the means within the range of man's
capabilities during the same time.

Were steam, water windmills and
the strength of all men and all animals
combined they could not at all approach
the tremendous force exerted by this
terrible storm.

A Barnum Surprise.

A good story of the late George Au-
gustus Sala and Barnum is told. It was
on the occasion of the last visit of the
famous showman to England, when a
public dinner was tendered to Mr. Bar-
num. Mr. Sala presided in the recep-
tion room, where all were waiting to
welcome the guest of the evening. Mr.
Barnum came in, beaming and, shak-
ing hands with the chairman, said:
"This is indeed a surprise to me."

"Did you hear that?" Mr. Sala whis-
pered. "Why he arranged for the din-
ner himself."

"ANOTHER FELLOW READY."

The opening two verses of a poem in
the Nelson Miner, "Here's Another Fel-
low Ready," are beyond doubt the best to
date in the way of Canadian Kiplingese.
More stanzas follow these, but they are
greatly inferior.

They say our old pal Tommy is a-getting
reg'lar beans,
From the Boers in the Transvaal far
away;

And, although he is outnumbered and the
big gun round him screams,
Bye-and-bye there's going to be the
deuce to pay.

Though defeat may start the scoring with
our true and trusted friend,
There's success to follow shortly in the
van;

And if England needs some helping hand
her old flag to defend,
Here's another fellow ready, if she
wants another man.

"Here's another fellow ready!" is to be
the battle cry.

By the men that live where'er the old
Jack flies;

If another man is wanted, there he is, to
do and die;
And he'll fight for king and country till
he dies.

You will find those fellows living 'neath
the sunny Southern Cross,
And from east to west in Canada you
can

Be sure to find all Britons with this vow
deep in their hearts;
"Here's another fellow ready, if she
wants another man!"

WAR TERRORS.

Pale Into Insignificance to the Man
Who is Tormented With Piles—Dr.
Agnew's Ointment Will Cure Them.

Of all flesh ailments the most distress-
ing is piles, blind, bleeding, itching or
ulcerating—and the remedy that will give
the quickest relief and the surest cure is
Dr. Agnew's Ointment. It holds
