GERMAN WOMAN IN ALABAMA MOTHER OF SEXTUPLETS.

MOBILE, Ala. Dec. 7 .- Mrs. John Karl, a German, living five miles from St. Elmo Ala., gave birth to six male children on Tuesday morning and three of them are now living. Her husband sent a letter to Sheriff McLean, as is the custom here when births occur in the country, apprising him of the fact. The letter said that each child weighed about five pounds. The mother is doing well.

The congregation was delighted when the news of her engagement to its rector was announced, and it was prepared for his decision to give up his pulpit.

HAVE YOU A CHRONIC PAIN.

This is an advertisement, and is not for thoroughly well and robust persons, but is intended for those who are suffering from a chronic pain or weak back who have difficulty in breathing, and who are sufferers from pain in the back, side or chest, such as overworked teachers, sales girls or housewives, or men who have had a sudden wrench, or long standing pain. Cook's Penetrating Porus Plaster, 25 cts. will give you instant relief.

A man called Mooney, from the mouth of the Nottawasaga River, was kicked by a horse at the Arlington Hotel, Collingwood, Ont. His skull was broken in at the eye. He cannot recover. It appears that he had been drinking, and foolishly pulled a horse's tail without giving the animal warning.

LIFE OF THE CANADIAN TROOPS ON SHIPBOARD.

Extracts from letters of Lieut. J. H. Kaye to relatives in St. John.

MID ATLANTIC, Nov. 5, 1899 .- We had a great send off in Quebec - must have been thousands and thousands of people -every available spot right up the cliff lined; the guns from the citadel were fired and all the steamers blew their whistles. Spells from which | Colonel Tucker was the last one I saw on they suffer are due the wharf. After the first day I was wotfully ill, elewed up in my bunk about The poisons that three days—the vessel rolls every which ought to be carried way; never saw such a boat. The last few days have managed to get on my feet but am not at all sure yet. The boat never cea.es rolling, and can only roll a little more even if it gets rough. Since leaving one of the men died and was buried Mrs. C. H. Gillespie, 204 Britain Street, next day.

We have three parsons on board, reporters, nurses, etc., so in all we are quite a crew. Every inch of the ship seems full of men. I think in a day or two I shall sleep on deck, as the cabins are getting Doan's Kidney Pills highly spoken of, I sleep on deck, as the cabins are getting began their use and in a short time found awfully close and the weather will be are just commencing winter and we sum. ance. Doan's Kidney Pills have rescued mer. Colonel Drury, an old St. John man is on board, also Forrester, who used to be in the bank of B. N. A. at St.

The food is very good. We have had milk so far. Don't know if they have a cow on board.

We have to work hard to keep the men comfortable. It is a new life for most of them. They all sleep on hammocks slung under decks and have very good food. I see a number of St. Jehn faces I know, including Adams and Coombs, also Stephenson and Atkin, of Fredericton, all in ranks. The men are getting used to walk-BRIDGEPORT, Dec. 4.—The Rev. It is getting too hot to sleep under decks. I am thinking we will soon have Mark Leavenworth died three years to take to the upper decks, as we have not reached the warmest latitudes yet. We sleep four in a cabin; rather close work, and bed clothes are unnecessary.

Saw a sail in the distance the other day away off on the horizon.

On board they think it will take us five The Rev. Mr. Sherman has really been pear to be going very slow I should not the hands of a mob."

It was 135 degrees in the engine room

The bakers on board have to keep busy

all the time to supply the men. The boat is beginning to rock again. don't like the teeling at all; wonder why I ever had such an easily upset inside. When the boat was rolling everything loose would roll from one side to the other; there was the greatest smashing and breaking, then the boat would roll to the other side and ditto repeato.

They seem to have sent all the cast off books in Canada on board. We have hard work to keep the ship clean with the books scattered about.

We have an awfully good-hearted priest We are out of the track of ships and

there is really no news. We have been going very slow, only

about 230 to 240 miles a day. See we have one of Ceaig's sons on board. He was in Cuba. One of the nurses were also there on the hospital

We have been getting the men's bayonets sharpened; looks like business. Wo have had regular parades; the men tumble about quite a bit in rough weather.

Nov. 12 .- We sighted the Cape Verde Islands this morning; so glad to see a bit of land. The islands are very pretty, at least something different from anything I have ever seen. Could not see a single tree. We could see three light houses and one large man-of-war. Just signalled.

Have not the faintest idea what they will do with us in Africa.

Nov. 14.-To-night it is so warm I can just sit and melt. You will hardly helieve that the water we pump in from the sea and use in the bath is scalding hot, so bot that one chap this morning in the bathroo:n when I passed complained that he could not get in, had burned his footit,s pretty hard to believe, but true. Most of the men stay on deck at night. We can't keep them below. I was on the watch all last night-always have three officers and a lot of men on. When we walked around the deck we had to pick our way to prevent treading on some one. The men now parade in bare feet and grey flannel shirts and find things warm

I have the old priest in the cabin opposite ours and with him is the Presbyterian. They seem to pull well. He is an Irishman from Quebec and is about sixty years of age.

Everybody seems to be pouring cold drinks down, the corks keeping popping all the time. We seem to have lots of oranges, pears and apples on board.

NO SUFFERING IN CAMP.

From Dread Catarrh-Dr. Agnew's Catarrhal Powder Kills the Disease Germs and Cures the Distressed Parts -- Relieves in Ten Minut s.

Alf. Leblanc, of St. Jerome. Quebec, says he used Dr. Agnew's Catarrhal Powder for an acute case of catarrh in the head and it cured him. He has 125 men working under him in the lumbering camps, and what it has done for him it has done for many of them. He buys it for camp use and pins his faith to it as the quickest reliever for colds in the head and surest cure for catarrh. Sold by Est. W. W. Short.

THE PHILIPPINE WAR.

MANILA, Dec. 8.—There was considerable relief in Manila when the news was received here to-day that Gcn. Young's small force had arrived safely at Vigan, province of South Iloilo, Dec. 6. Anxiety had been felt for Gen. Young and the garrison at Vigan since it was known that Gen. Tino had a large aggressive body of insurgents operating in the vicinity. Gen. Tino made a stand in the mountain passes between Narvacan and Sanquito. The natural strength of the position was augmented by trenches and pitfalls. The fight lasted five hours. Gen. Young ended the fight by charging and routing the enemy, who left 25 dead, several rifles and thousands of rounds of ammunition in the trenches. The enemy employed artillery; only one American was seriously wounded. The uprising in the Island of Negros was led by the police of La Cortalata district, where there is a small American garrison. The police inspired false reports of insurgent victories in Luzon and Panay. There are 250 native police in Negros, uniformed and armed with Springfield rifles.

In this city the action of the mob is universally approved, even enthusiastically, by women, who think that hereafter they will be safer in consequence. Some men deprecate mob law, but say this was an exception to all rules.

Late last night all that was left of the unfortunate negro was raked out of the embers and buried in Potter's field. It was only the skull and two or three charred bones. Perfect quiet reigns in the
