> THE NEW PIANO, SUSTE MAR.

"We must have a new piano," Said the daughter dear, one day; "This organ is old-fashioned, We'll have it moved away." So they bought a new piano, And the change was quietly made;

But the mother's face was thoughtful, "Good bye to you, old organ, You are very dear to me, For faces that have vanished About you, now I see, And voices that are silent

Come to my ears once more, And in fancy I hear her singing Sweetly as in days of yore." "What a friend we have in Jesus," Sung the childish voice so clear, As she stood beside the organ,

With brother and sister dear. She's singing now in heaven, But loving memories cling About the dear old organ, Where my darling used to sing.

"Yes, darling little daughter. You've found that friend above, And I know you're safely resting In the Saviour's arms of love. The piano, grand, is handsome! But fondest memories cling About the dear old organ, Where Bertha used to sing."

OOM PAUL AT HOME.

STORIES OF HIS ADVENTURES ON THE AF-RICAN VELDT.

(Baltimore Sun.) Stephanus Johannes Paulus Kruger, President of the Transvaal, is an interesting public character. Upon being introduced you first conclude that he has been greatly overestimated. He seems nothing more than a shrewd old hunter, who, by constant contact with wild animals and savage kaffirs, has developed a wariness that makes him suspicious of everything and everyhody.

His legs are so short and slender that you wonder how they bear the weight of a heavy, thick and solid body. His head is big, and his neck is concealed by beard, hair and coat collar, so that you cannot determine whether or not be indulges in neckwear, At home he is usually puffing a short briar pipe, and as he handles this you notice that the thumb of his left I ad is missing. There is a story connaded with this that Kruger will tell you between puffs if he is in the mood. It gives an idea of the grit which is a characteristic of the old Boers.

When Kruger was a young man he was out hunting one day with a rifle which had not been used for a long time. While he was tinkering with a charge the gun exploded tearing his left thumb to shreds. Kruger's companions wanted to give up he nunt and hurry to the nearest surgeon, the interpid young Boer refused. Taking out his hunting knife, he placed the lacerated thumb on the stock of the rifle and amputated i himself. By tying about the stump a piece of rawhide he stopped the flow of blood, and winding around it his red handkerchief he continued the

Physical robustness and courage have contributed greatly to Kruger's success as the leader of a nation. He is absolutely fearless, though not reckless, and since boyhood has known how to act quickly in an emergency.

He gave the writer a short interview recently for publication with the understanding that the Boer side should be represented from his own view point, first enquiring if I were a spy from Cecil Rhodes. On being assured to the contrary by a number of Volksraad memby another customary question, asking:

"What is your religion?" These two enquiries give an insight into seems rather proud of the distinction. Kruger's life. His first day, he believes, is to God, and his second to guard against Rhodes, whom he detests like a poisonous reptile. But for Rhodes, Mr. Kruger says, all would be peace and quietness in the Transvaal. So long as this man is in South Africa there is no rest for the Boers, and their secret service agents may be found on every street in Johannesburg on the lookout for Outlander conspiracies.

HIS CALVINISTIC PIETY. From all outward appearances Oom Paul is intensely pious, and though some insist that it is all hyprocrisy, there is no proof that Kruger does not live in strict accordance to his preaching. He was confirmed in 1842 by Rev. Daniel Lindley, an American missionary, and from that day to this has led a severely Christian life after the precepts laid down by John Calvin. He can quote nearly the whole Bible, and this has served him well in a seculiar way, for he has learned from it to speak in parables, terse epigrams that are really interpreted by his followers and have more force than the most brilliant

rhetorical flights. Kruger, in addition to his own accomplishments, is by far the best preacher in the Transvaal, and the Dutch Reformed Church boasts of some capable men there. He occupies the pulpit in a modern brick edifice across the street from his home about once a month and always talks to standing room only. He uses no notes, but speaks offhand from a text and does not hesitate to sprinkle a little humor in the discourse. In his speeches before the Raad he quotes Scripture generously, and

But we have a law for bigamy in the Transvaal, and it is necessary for a man to put off his old love before taking on a new."

STORY OF THE BOERS.

Kruger related graphically the history of the Boers from the time they settled in Cape Colony, from which they were driven by the English, until they settled in the Transvaal. On this great trek they killed 6,000 lions, of which number Kruger himself killed 250. They fought their way step by step until they finally reached the long ridge known as the Witswatous of the nidden wealth.

"It seemed so poor," said Kruger, "that vocate.

even the English did not begrudge it. So we established a government, developed a constitution and laid the foundation for a nation. We built towns, cultivated the soil and were making great progress and living peacefully when gold was discovered. Then new and perplexing questions arose, and England immediately became avaricious, but we were not willing to give up the country which we had developed by the sweat of our brow, and so there was Majuba Hill. Here Kruger blinked slyly, and a laugh went around among the Boers.

"So, now," continued Oom Paul, taking up his pipe and dropping into parables, "the gold fields are like a beautiful rich young woman. Everybody wants her and when they cannot get her they do not want anybody else to possess her."

"Can the English starve you out?" "If the Lord wills it yes," he replied "If not, the English can build a wall around us as high as Jerico and we will live and prosper."

OOM PAUL IS NOW 76.

Kruger is now 76 years old and has been elected to the Presidency four times. His salary is \$35,000 a year. His life has certainly been a remarkable one, and at different stages he has been a farmer, herdsman, hunter, soldier, clergyman, ambas ador, financier and head of the army. In recent years he has bought and sold land a good deal and is reputated to be very wealthy. His habits and method of living are so simple, however, that he could years, which would give him a tidy for- night during a northwest hurricane and

(St John Globe.)

Moncron, Sept. 7 .- A portion of the western end of the city was threatened with destruction by fire which broke out at the corner of Steadman and St. George streets about 7.15 this morning, but thanks to the good work done by the fire department, the destructsve element was confined to the immediate section in which it began. The loss, however, is serious enough. James Flanagan's hand some dwelling, together with the outbuildings, are totally destroyed, while W. B. McKenzie's fine residence, just south of Flanagan's is badly gutted and J. McK. Thompson's two story house, at the corner of St. George and Steadman streets, also came in for a scorching.

The fire started in Mr. Flanagan's kitchen and spread with lightning rapidity. Several times the residences of Messrs. McKenzie and Thompson caught, but the fire was extinguished as quickly as pos-

DESTRUCTIVE STORM.

HURRICANE THAT CAUSED CONSIDERABLE DAMAGE TO SHIPPING.

HALIFAX, N. S., Sept. 7 .- A severe storm has prevailed for the past fortyeight hours on this coast. The wind is northwest and blowing almost at hurricane force. It is feared many disasters have occurred with heavy loss of property. The steamer Gaspesia is anchored two niles off Cape Bay, C B., disabled. She struck off Lingen this afternoon, but floated off in a disabled condition, and was obliged to anchor to prevent going ashore. A despatch from Glace Bay says the ship is in a perilous condition. The wind is blowing fifty miles an hour, and it will be very difficult, if not impossible, to send assistance until the storm abates. The Gaspesia is from St. John's N. F., bound for New York. She was imprisoned in the ice in the Gulf of St. Lawrence all winter and on her release was sold in Newfoundland to satisfy claims for salvage, etc.

The discovery was made tonight that two scows employed in trying to raise the sunken oil steamer Maverick in this harbor had been wrecked. One turned turtle and the other was driven ashore. Over \$3,000 worth of boilers, cranes, etc., were lost and two men on the overturned barge had a narrow escape with their lives. It is doubtful if the Maverick will now be

The Gertie will probably go to pieces. No lives were lost. The wind diction. reached a velocity of 62 miles an hour on the Cape Breton coast, sweeping in from the sea with terrific violence.

Two Caraquet fishing boats arrived at Alberton, P. E. I., to-day, the crews of which reported that two boats belonging to Caraquet, N. B., containing eight men, were broken up off Kildare Cape, P. E. I., by last night's gale, and the occupants drowned. Two of the bodies were recovered off Cahill's, South Kildare, not far from the shore, and were pounded to pieces by the breakers. The accident happened at four o'clock.

The sch. Jasper, Capt. Embree, went ashore off Flat River last night. The boat belonging to the schooner was lost and crew remained at the mercy of the waves until this morning when they were rescued by a boat from the shore. The schooner was from Chatham, N. B., and will probably be a total wreck. A very heavy lightning storm passed
