FARR'S PART IN THE WEST HURON ELECTION.

DEPUTY RETURNING OFFICER, IN A SWORN STATEMENT, DECLARES POLL WAS FAIR-THOSE "THIRTEEN GOOD

> BALLOTS." (Montreal Herald.)

GODERICH, Aug. 16 .- - James Farr, a deputy returning officer in the West Huron bye-election held for the House of Commons on February 21, 1899, has made the following declaration before Henry W. Mickle, Toronto, a commissioner in the High Court of Justice:

(1) I am the James Farr who acted as deputy returning officer at No. 3 polling subdivision in the town of Goderich, at the bye-election held in West Huron on the 21st February, 1899.

(2) For eighteen years prior to the month of April last I was a resident of the town of Goderich, where I carried on business as a carpenter, and from about the year 1893 until the time I left Goderich I acted as deputy returning officer at the municipal elections for the same sec-tion of Goderich as the subdivision for which I acted as deputy returning officer a the 21st February, 1899.

(3) A postcard received by me from Mr. Lane, the election clerk, was the first intimation I had of being appointed deputy returning officer at the said election, and I had not been previously spoken to voted at my polling subdivision, and as by anyone about being appointed, though | most of them were personally well known on account of having acted as deputy re- to me, and as I had been in the habit of turning officer so frequently I fully ex- keeping a tally as to how I thought voters pected to be appointed.

(4) I appointed Henry Armstrong, a friend of mine, and a Conservative, as my the actual count, I remarked to Armpoll clerk.

AN EMPLOYE OF MCLEAN.

(5) During my residence in Goderich I had frequently done carpentering work for Robert McLean, the Conservative candidate at the said election, and had been well paid for it, and on account of my personal acquaintance with him and having been canvassed by him personally, and having promised him to do so, I fully intended voting for him at the said election. I took no part whatever in the Liberal campaign, and stated openly that I intend-

ed to vote for Mr. McLean. (6) I remember James Yates coming to me the night before the election and advising me to resign my position as deputy returning officer, and to return the ballot box papers, the reason given by him for asking me to do so being that I had been drinking and would not therefore be able I asked Mr. Horton to get me a bottle, to properly perform my duties, but I believed his real reason for asking me to resign was that he feared I was a supporter of Mr. McLean, and on that account I re-

ment then arrived at between us I, on the following day, when the said Mitchell came to the polling booth to vote, showed him my ballot, which was marked for Mc-Lean, and which I deposited in the ballot

box in his presence. (8) I had no conversation with anybody as to my duties as deputy returning officer, and received no instructions in refer- arrested, and their remarks on this head ence to the same from anyone, except the occasioned me a great deal of fear. printed instructions in the ballot box.

POLL FAIR AND IMPARTIAL.

(9) I conducted the poll in a fair and impartial manner, to the best of my judg. ment, and every ballot handed me by the voters was duly deposited in the ballot

(10) During the course of the day Robert Clark handed me a ballot which he said had been on the floor, and on looking at it and not recognizing the initials as mine, I tore it up, but in doing so I did not make the remark : "Oh, hell! There was lots of them around yesterday."

(11) The ballots furnished me for the said election were printed on very thin paper, and it was difficult to avoid handing out more than one at one time, and I am satisfied that the reason for the presence of the blank ballots in the ballot box is because I must have inadvertently on several occasions handed out more than one at the same time.

(12) I, like others in the polling booth, when no voters were in the booth, occasionally walked to the window as a mere diversion, and on one occasion I took the counterfoils out of my pocket and arranged them. but at no time during the said election day had I any ballots, except those which were handed to the regular voters, and I certainly did not examine them or any others at the window during the said day.

(13) On the day following the election I had a conversation with Abraham Smith, who asked me about the trouble in my polling subdivision. I informed him that there was no particular trouble up there, except as to the seven ballots, meaning thereby the five extra blank ballots and the two ballots destroyed at the opening of the poll, and that they had been workballots had been duly counted.

THOSE THIRTEEN BALLOTS.

(14) During the noon hour on said election day quite a number of the employes of the organ factory and bicycle works voted, with the view as a matter of curiosity of seeing how near I could come to strong the poll clerk, "that there were thirteen d—— good Holmes ballots went into the box a little while ago," meaning that there were that many of the employes of the organ factory and bicycle works known to me as sure Holmes voters who had voted.

(15) I never stated to James Nelson or Thomas Marshall that Mr. Holmes met me on the street in Goderich, and said: " will not forget you, Farr, for this." only remember meeting Mr. Holmes once and that was on the main street in Goderich, where I was standing with a numher of other people, and Mr. Holmesshook hands with us all, without making any particular remark to me.

(16) I had been drinking for several days before polling day, and on polling day had a bottle of whiskey with me in the booth, most of which I drank myself. and he promised to do so, but did not. TORE UP A BALLOT.

(18) At various times in subsequent conversations some of my fellow-employes and fellow-boarders informed me that for tearing up a ballot I was liable to be

(19) I first met James Vance, referred to in the evidence given at Ottawa, at my boarding-place, in the city of Toronto, when he introduced himself to me, and before that date the said Vance was not personally known to me. (20) On the occasion of the said inter-

view with Vance he discussed with me the reports which had appeared in the papers as to the irregularities at my polling subdivision at the said West Huron election, and asked me if there was any truth in the charges made, and I informed him that there was not. He asked me if I had any objection to going to Ottawa and giving my evidence, and, on my replying that I had not, he urged that I should go at once. But I informed him that I would wait to be subpoenaed, in order that I might get my expenses. This interview lasted only a few minutes.

(21) At the time of my interview with Mr. Vance above mentioned I fully intended going to Ottawa, but on account of the remarks made to me during the day or two succeeding the interview by some of my fellow-employes to the effect that I was liable to be arrested for tearing up a ballot I changed my mind and did not go.

(22) I had been thinking for some time of going to Dakota, where I have an uncle living, and told some of my friends that I intended going there, and on or about July 13 I purchased with my own money a ticket for Dakota, but before going I went to Goderich to consult with my wife, but as she strongly objected I returned to Toronto on the following day.

PROMISED TO GO TO OTTAWA.

(23) On my return to Toronto on July 15 I Let James Vance on Yonge street near the corner of King, and informed ed out all right, meaning thereby that the him that I had thought of going to Dakota, and he then said that I would have made a mistake if I had done so, and started that the best thing for me to do was to go to Ottawa and clear myself by giving my evidence, and I then told him that I would do so.

(24) On my returning to my boarding house late one night during the following week, I was informed by James Nelson, a fellow-boarder, that Mr. Vance had called to see me and wished me to go to his house as soon as I came in. I thereupon walked up to his house with Nelson, and had an interview with Vance, when he informed me he was going away in the morning and might be away for a few days, and wanted to know whether or not I was going to Ottawa. He informed me that if I did not go I would be subpoenaed and that it would be far better for me to go at once. I then told Vance that I would go the next night, but asked him if I was liable to get into trouble on account of the torn ballot, and was informed by him that he thought not, but that in any event it was far better for me to go down quickly cured of pains in the back and lady. and tell all I knew.

The said Marshall and Nelson have informed me since their return from Ottawa that they each got \$13.20 at Ottawa as witness fees, and as they were away ahead on the transaction they had each bought a new suit of clothes. Nelson

also said that it had been a Godsend for him, and he hoped he would get a chance to make another raise in the same way. He also told me that W. D. McPherson, just before bidding them good-hye at the train on the Sunday evening when leaving for Ottawa, had impressed upon them the necessity of telling a story that would look all right, and that if they did that he would not forget them,
