Pain-Killer advertisement with logo and text: ALWAYS KEEP ON HAND. THERE IS NO KIND OF PAIN OR AGUE, INTERNAL OR EXTERNAL, THAT PAIN-KILLER WILL NOT RELIEVE.

POINTED PARAGRAPHS.

When in doubt, the best thing to do is keep quiet.

Poets paint with words and painters speak with pencils.

The village minister's study is now to make both ends meet.

The snob always overrates himself and underrates other men.

A man invariably feels put out when he finds he has been taken in.

Science tunnels mountains while faith is figuring on moving them.

Nine times out of ten when a man talks grammatically he is tiresome.

Men admire women not because they are women, but because they are not men.

Many a brave man leads a woman to the altar and then resigns his leadership.

Sometimes the wages of sin look suspiciously like fat dividends on watered stock.

When some people talk we are reminded of a dictionary with the definitions left out.

It is easier to turn gold into anything else than it is to turn anything else into gold.

Salvation's free, but it's probably because the attention of the trust promoters has not been called to it.

WINTER MAIL SERVICE.

MONCTON, Oct. 19.—There seems to be some misapprehension as regards the winter mail service.

The report published that the contract had been given to the Elder-Dempster line is only partially true.

The proposition was made by the government to the Allen line and the Elder-Dempster line that the two years' contract be taken by the two companies jointly, as it was formerly held by the Dominion and Allen lines.

The Elder-Dempster line to supply three ships and the Allen line two this season, and the reverse next season, the understanding being that in case the Allens would not accept, the whole contract be given to the Elder-Dempster line.

The latter company have accepted their part of the agreement and are ready to put on the entire service should the Allens fail to sign.

On enquiry at the Allen line office this morning it was learned that no definite decision had yet been reached regarding their part of the contract.

They were awaiting word from the head office at Glasgow. The impression prevails, however, that the Allens will share the two years' contract with the Elder-Dempster line.

TRURO'S GLOBE TROTTER.

Interesting notes have come to Truro from Karl Creelman, written at Fernie, British Columbia, on Oct. 2nd. He says:

"I have passed the prairies and ranching countries, and am now in the Rockies; 38 miles West of the summit, Crow's Nest. I was three days coming from Crow's Nest Lake, 41 miles East. The road used during the construction of this railway, is all blocked and torn up, and has been swept by forest fires, so I have been walking the 'tie path,' or the railway tracks.

For quite a distance the track is not ballasted, and it is very rocky, so most of the way I had to carry my bike on my shoulder.

From the 'foot hills' until I took to the track, in one forenoon, I had to wade through ten swift streams, and carry my bike. There is plenty of snow on the hill tops, and on Saturday I encountered quite a snow storm on my route of travel.

AN INTERESTING ROMANCE.

NEW YORK, Oct. 20.—In the marriage of Mrs. Susan Emery, of Salt Lake, to E. F. Holmes, another chapter is added to an interesting romance.

Mrs. Emery is one of the wealthiest women in the Rocky Mountain region, and her husband is also prosperous. Mrs. Emery's wealth is estimated at \$2,000,000, yielding an annual income of \$150,000.

When her husband died, at Park City, a little Utah mining camp, five years ago, he left the young widow a lot of mining stocks of uncertain value. Since then the mines have developed into bonanzas, and the little mining camp widow leaped from obscurity into social leadership of the intermountain metropolis.

The public has been dazzled by the magnificence of her dress and equipages, and her suitors have been numbered by the scores. She had no family, and her home has been the most expensive suite of rooms at the most fashionable hotel in the city.

E. F. Holmes, the winner of Mrs. Emery's heart and fortune, has heavy mining interests in Utah, and it was while looking after these investments that he formed Mrs. Emery's acquaintance. He is reported to be worth \$5,000,000. He was the centre of sympathy in a tragedy at Chicago a few years ago, when his wife was murdered for her diamonds.

The announcement of Mrs. Emery's engagement to Mr. Holmes was made in a rather dramatic way at a dinner given in New York a couple of weeks ago, at which several of Mrs. Emery's friends, including Gov. Wells, of Utah, were present. The dinner was at Deimonico's, and the first course had hardly been served when Mr. Holmes, who was the host of the occasion, rose with his wine glass brimful. Raising it to the level of his shoulder he said, with a happy smile: "I wish to propose a toast to my fiancée, Mrs. Susan Emery."

The members of the party were taken by surprise and responded heartily to the toast.

CATARRAH HEADACHE.

May Be Your Experience as it was Mr. Spooner's—Dr. Agnew's Catarrhal Powder Will Positively Cure You.

"I have used Dr. Agnew's Catarrhal Powder for severe Catarrhal headache frequently, and with every application the relief has been almost instantaneous. I believe it to be the very best remedy for catarrh that is on the market to-day, and take pleasure in saying these words in commending it to all catarrh sufferers."

C. Spooner, Editor King's County News, Hampton, N. B. Sold at Est. W. W. Short.

TO STARCH SHIRTS.

After they have become "bone dry" put the shirts, collars and cuffs through a wheat starch made by pouring foaming hot water over a smooth batter obtained by stirring wheat flour and cold water together until it is the consistency of thin cake batter. This should be boiled slowly for two hours and then strained through a cheesecloth. Add to each quart of boiling starch a teaspoonful of white wax, such as is especially prepared for laundry use. The secret of a good, smooth finish to stiff starched clothes is in the methods of starching. This must be carefully done. Spread a shirt bosom over a clean board, and with a piece of thin cloth rub the starch into the bosom with strong, firm strokes. There should not be a wrinkle in the line after it is thoroughly wet and starched, and all superfluous starch is wiped off with a cloth. The wristbands and neckband are treated the same way, and the shirt is again hung out to dry. When it is thoroughly dry—"bone dry" again—the shirt and collars and cuffs are dipped for a moment in boiling water and quickly wrung through the wringer with the rollers pressed as tightly together as they can be turned. The pieces should now be left to stand for at least two hours before they are ironed.—Gentlewoman.

RHEUMATISM CAN'T EXIST

With salves, suppositories and ointments and dreading a surgical operation, scores and hundreds have turned to Dr. A. W. Chase's Ointment and found in it an absolute cure for piles. The first application brings relief from the terrible itching and it is very seldom that more than one box is required to effect a permanent cure.

A YOUTHFUL CLIMBER.

(Fredericton Herald.)

A few days ago a lady residing on King-street, left her sixteen months old baby boy, playing near the front door of her residence, while she went inside to attend to some household duties. Returning to the door a moment or two later she was surprised to find that the youngster had vacated the spot where she had left him, and was nowhere in sight. In searching for the lost one, she chanced to glance up at a ladder leaning against the side of the house, and imagine her intense astonishment, to observe the object of her search perched on one of the rungs, fully ten feet from the ground. He was holding on tight with both hands and seemed to be enjoying the novelty of his lofty situation. It is needless to say that the frightened mother lost no time in ascending the ladder and removing the youthful climber from his perilous position.

DOOD'S KIDNEY PILLS

are the only medicine that will cure Diabetes. Like Bright's Disease this disease is incurable until cured by Dood's Kidney Pills. Doctors themselves confess that without Dood's Kidney Pills they are powerless against Diabetes. Dood's Kidney Pills are the first medicine that ever cured Diabetes. Imitations—box, name and pill, are advertised to do so, but the medicine that does cure

Diabetes

is Dood's Kidney Pills. Dood's Kidney Pills are fifty cents a box at all druggists.

DOOD'S SOUCE COUGHE CURE

is Dood's Souce Coughe Cure. It is the only medicine that will cure Cough, Bronchitis, Whooping Cough, and all other Coughs. It is a safe and reliable remedy, and is sold at all druggists.

Two Stratford Ladies

Tell How Milburn's Heart and Nerve Pills Make Weak People Strong.

MRS. ELIZABETH BARTON, Britton St., says: "I speak a good word for Milburn's Heart and Nerve Pills with pleasure. They proved to me a most excellent remedy for nervousness, nervous debility and exhaustion, and I can heartily recommend them."

MRS. POLAND, Brunswick Street, says: "My husband suffered greatly with nervousness, complicated by heart troubles. Milburn's Heart and Nerve Pills have cured him, and he now is well and strong."

LAXA-LIVER PILLS.

Take one at night before retiring. It will work while you sleep without a grip or gripe, curing Biliousness, Sick Headache, Constipation and Dyspepsia, and make you feel better in the morning.

NEW INVENTIONS.

Patented in Canada by Canadian inventors.

Messrs. Marion & Marion, Solicitors of Patents, New York Life Building, Montreal, furnish us the following list of Canadian patents recently granted to their clients.

Nos. 63,999—Gottlieb Von Alma, Kilworthy, Ont., Fruit picker. 64,009—Wellington, Baie Verte, N. S. Washing machine. 64,010—A. E. Quintal, Montreal, P. Q. Washing machine. 64,012—Mederic Perrault, St. Thomas de Joliette, P. Q., Washing machine. 64,014—Andrew Robertson, Metcalfe, Ont., Land roller and seed drill combined. 64,017—W. A. Clarendon, Carman, Man., (2 patents) Nut lock. 64,020—Julius Emden, Hamburg, Germany, Improvements in safety vans for railway trains. 64,062—Gaspard Daignault, fils, St. Chrysostome, P. Q., Wash board. 64,068—J. Howie, St. Johns, P. Q. Milk cooler and aerator. 64,084—Jos. Yllie, Tragarva, N. W. T. Wood Cutter. 64,085—Arthur Chalifour, Ste. Cune-gonde, P. Q., Folding clothes brier.

The amount of milk received by the Cheese and Butter Co., at their factory here for this year has surpassed that of former years, both in quantity and quality. One patron for the past month has been furnishing milk which tested on an average of 4.7, which will give him an average price of 98 cents per hundred pounds. The milk received during the past month has been exceptionally good and consequently it will net the patrons a good price. The total amount of milk received for September was 131,353 lbs., from which was made 5,120 lbs. of butter and 2,100 lbs. of cheese. The average price of milk per 100 lbs. to patrons will be 84c. with the average price of 21 cents per lb. for butter fat. The prospects are now, that the price next month will be much better.—Sussex Record.

SHOOTING AT MILLSTREAM.

Mr. Rankine, of Millstream, Kings Co., who is close to 60 years of age, claims that on Wednesday evening his step-son Rainsford Ryder, who had been out quite late came into the room where his mother and step-father were sleeping, aroused them by his loud talking.

Mrs. Rankine asked her son to withdraw, but he gave her a short answer and stayed. Mr. Rankine then expostulated with the young man, who thereupon drew a revolver and pointed it at his step-father pulled the trigger.

The pistol went off but the older man, who was in bed, knocked it up with his hand and the bullet went wide of its intended mark. Ryder then hit him across the face with the butt of the weapon and left the room.

The injured man tells a pretty straight story and evidently means business. He shows a cut on the upper lip which he claims was caused by the blow from the revolver. He has taken out a warrant.

KILLED ON HIS WEDDING DAY.

KINGSTON, N. Y., Oct. 19.—While hurrying home to dress for his wedding, Augustus Balzar, a young man, was killed. He was riding a bicycle between the tracks and became confused when two trains were approaching and fell in front of a locomotive.

MARRIED ON BOAT ADRIFT.

NEW YORK COUPLE INTERRUPTS A JERSEY PREACHER'S FISHING.

RAHWAY, N. J., Oct. 21.—A marriage that would have been ridiculous had it not been so serious took place, or rather "occurred," on Milton Lake.

The Rev. Maurice Leonard was fishing and had just hooked a large black bass, when a man and a pretty young woman, both in cycle costume, rode up hurriedly in a bateau and said they wanted to get married.

They gave their name as James Seymour and Jeannette Lewis, of Sixth avenue, New York.

The preacher let the fish go and started to pull up his anchor, but the couple insisted that the wedding take place right there. So all parties stood up in their boats and called upon a man on shore to be witness.

The bridal pair had no anchor and during the ceremony their boat drifted away from the boat of the preacher, so that the responses became louder and louder, and finally were shouted across the waves.

As the bride made the final response the boat gave a lurch and she was plunged headlong into the water when her husband cried "I do!" at the preacher and grabbed her.

After that all rowed ashore and the newly married couple rode away on a tandem.

TO REMOVE STAINS.

Coffee—Lay the stained portion of the cloth over a bowl and pour boiling water through it.

Tea—Soak in cold water, then treat like coffee stains.

Fruit—Boiling water as above; if ineffectual, rub with a solution of oxalic acid and rinse in warm water.

Claret and wine—Boiling water as above; if possible, cover when first stained with dry salt, then dip in the boiling water.

Grease—Moisten with strong ammonia water; lay blotting paper over and iron dry; if silk, use chloroform to restore color, or cover with powdered French chalk and iron.

Iron rust—Lemon juice and salt, then thorough rinsing. Or wet with a little water, sprinkle or rub muriatic acid, rubbing until stains disappear, then rinse thoroughly, using a little ammonia in first water to counteract acid.

Ink—Dip in boiling water, rub with salts of sorrel and rinse well.

Copying and marking inks—Use strong solution of bleaching powder; rinse with a little clear water; rub with oxalic acid solution, and rinse again.

Scorch—Dip in soap suds and lay in sun; if fibres are not much injured dip repeatedly in saturated solution of borax and rinse.

Egg—Soak well in cold water and rinse until stain disappears.

Grass—If fresh, use alcohol and rinse; or use Javel water and rinse thoroughly.

Paint—Turpentine for coarse goods benzine or naphtha for fine.

Mildew—Wet with soap suds, lay in sun; spread with a paste of soft soap and powdered chalk and sun it; soak in buttermilk and sun.

Blood—Soak in cold water. For ticking and thick goods make a thick paste of starch and water; leave till dry, and brush off.

Tar—Soak in buttermilk and rinse in soapy water; saturate and rub with turpentine.

CANADIANS IN THE FIGHTING LINE.

TORONTO, Oct. 21.—When the Royal Dublin Fusiliers charged the Boer position at Glenco yesterday, Canada was bravely represented by three former cadets of the Royal Military College, Kingston. They were Captain H. Carrington Smith, Lieut. George Norton Corey and Capt. E. A. Hensley.

The man in charge of the fortifications at Mafeking, to whom is due the credit for the trap into which the Boer forces were led, resulting in heavy losses to the burghers, is Lieut. Duncan Sayer MacInnes, R. E. He is a graduate of the Royal Military College class of 1891.

Another R. M. C. graduate well known in Canada, who will soon be fighting in South Africa is Lieutenant and Assistant Adjutant J. Woodburn Osborne, who was recently appointed A. D. C. to Sir John Woodburn governor of Bombay. He cabled his resignation of the position and rejoined his regiment, the Scottish Rifles, sailing from England for the Cape on Thursday last.

Plans have been quietly maturing for some weeks, looking to the consolidation of all the paper manufactures of the United States, grouped in those now independent mills, which manufacture wood pulp board, paper pulp board, and strawboard. All told, some one hundred or more mills are interested in the projected consolidation scheme, and the amount of capital involved is about \$50,000,000.

Lady Aberdeen arrived at Hamilton, Ont., Wednesday evening to attend the annual meeting of the National Council of Women. The board held a meeting yesterday, but regular sessions will not open until to-morrow. A large number of delegates are present for the meeting. The Maritime provinces are well represented.

THE HONEST PHARMACIST

Will Tell You That

Paine's Celery Compound

Is a Wonderful Medicine.

Hundreds of Druggists Know of Cures wrought by the Great Medicine.

Amongst the thousands of professional and business men who speak plainly and strongly in favor of Paine's Celery Compound there are none more sincere or outspoken in their praise than the druggists of Canada.

Our druggists, who are thoroughly acquainted with every prepared remedy, are the special champions of Paine's Celery Compound. Why? Because no other medicine gives such universal satisfaction and health-giving results to ailing and sick men and women, and as a consequence the sales are larger than that of all other combined remedies.

There are hundreds of druggists in Canada who can vouch for marvellous cures effected by Paine's Celery Compound. No stronger or better testimony can be asked for, as these druggists have supplied the medicine and watched its effects.

If rheumatism, neuralgia, kidney trouble, liver complaint, blood diseases or dyspepsia are making life a misery, go to your druggist without delay for a bottle of Paine's Celery Compound. If you have doubts about its efficacy or power, your able and honest druggist will give you the assurance that Paine's Celery Compound will make you well.

BATTLE WITH SHARKS.

Probably the most desperate fight which has ever been witnessed between a couple of sharks and a human being took place at Havana some time ago.

Several fruit peddlers had boarded a large mailboat, and among them was a swarthy, bare legged young chap noted among his comrades as a clever swimmer. The purser of the vessel was standing by the gangway, holding his child in his arms, watching a couple of sharks that were hanging about the ship. Accidentally the child fell out of its father's grasp into the water. The father immediately jumped overboard and seized his child, and in a moment the sharks were making for the pair.

Seeing the predicament, the bare legged young buccaner dropped his fruit basket and went over the rail like a flash.

As the first shark turned on its back—the inevitable prelude to biting its victim—the young fruit seller rose to the surface, and, with a long, keen edged knife, fairly disemboweled it.

The other was not nearly so easily disposed of. The shark seemed to realize that in the fruit seller he had a dangerous foe and apparently spared for an opening. Several men on board the vessel blazed away at the monster with revolvers, but the young fellow begged the men to desist, being unnerved by the firing. Fish and man dived alternately, and when the fish did make for its foe the plucky boy dived and plunged the knife in its side.

The water was crimson with blood when the three were hauled safe and sound to the deck of the vessel, and a handsome sum of money was collected for the victor.

BROKEN DOWN MAN.

Stomach Rebellious—Digestion Gone—Wroth—Nerves Shattered—But South American Nerve Made a New Man out of a Broken Down One.

When the system is all run down nature needs help to bring it back to a good healthy normal condition. Whether in springtime, summertime, autumn or winter, South American Nerve is in power in restoring wasted nerve force; in toning up digestive organs; dispelling the impurities from the blood which are accountable for so much disease and suffering. H. H. Darrock, of Mount Forest, Ont., says he has all run down, weak, languid, had no appetite, nerves shattered; he took South American Nerve, and to use his own words, "I am O. K. again; my appetite is big and hearty. I think it the best medicine in the world to make a new man out of a broken down one." Sold at Est. W. W. Short.

"There's one thing about the north pole," asserted the returned explorer emphatically.

The crowd leaned eagerly forward to learn the result of his investigations.

"Yes," repeated the returned explorer, lighting his cigar with great deliberation.

"Er—what did we understand"—it was the man with the inquisitive nose who spoke—"you say it is, professor?"

The returned explorer threw away his match.

"It is the ice," he explained kindly.

Children Cry for CASTORIA.

"Miss Gwendolen," said he, as they sat on the beach in the moonlight, "will you marry me?"

"This is so sudden," she cried.

"My love!" he asked.

"No," she replied. "Your nerve."

CURE ALL YOUR PAINS WITH Pain-Killer. A Medicine Chest in Itself. Simple, Safe and Quick Cure for CRAMPS, DIARRHOEA, COUGHS, COLDS, RHEUMATISM, NEURALGIA. 25 and 50 cent Bottles. BEWARE OF IMITATIONS. BUY ONLY THE GENUINE. PERRY DAVIS
