Just received a new lot of picture moulding of different styles. Sashes and doors made to order and kept in stock. Frost & Wood's Farm Machinery kept on hand.

J. F. BLACK & SON.

Mr. G. O. ARCHIBALD'S CASE.

**Didn't Walk for 5 Months.
Doctors said Locomotor Ataxia.**

**Milburn's Heart and Nerve Pills
Cure a Disease hitherto regarded
as Incurable.**

The case of Mr. G. O. Archibald, of Hopewell Cape, N.B., (a cut of whom appears below), is one of the severest and most intractable that has ever been

reported from the eastern provinces, and his cure by Milburn's Heart and Nerve Pills the more remarkable from the fact that he was given up as incurable by worthy and respected physicians.

The disease, Locomotor Ataxia, with which Mr. Archibald was afflicted is considered the most obstinate and incurable disease of the nervous system known. When once it starts it gradually but surely progresses, paralyzing the lower extremities and rendering its victim helpless and hopeless, enduring the indescribable agony of seeing himself die by inches.

That Milburn's Heart and Nerve Pills can cure thoroughly and completely a disease of such severity ought to encourage those whose disorders are not so serious to try this remedy.

The following is Mr. Archibald's letter:

FARM HINTS.

Happy is the farmer, who walking about his premises this evening finds his woodshed filled to the roof with fuel ready for burning, his cellar walls and ceilings whitewashed and everything within that could breed vermin or evil odor removed, his stables purified and whitened, his wagons, carts, ploughs and harrows and all farm implements in perfect order, his fences and buildings of every kind in thorough repair and his premises from centre to circumference in such shape that he has nothing to divert his attention from the work that is pressing upon him. He has a free hand and is able to accomplish double the work in a day of another who has a harness or a plough to mend or cattle to chase from his half-fenced fields. There are very few farmers who have not had time to look after all these details the last two or three months; those who have not done so will be hampered and annoyed in their work all through the summer. There is a very intimate connection between muscle and mind, the man who is always glancing over his shoulder to see if the cattle are in the corn, or scrutinizing a cart-wheel wondering if it will collapse before the day is over, seldom whistles as he goes afield and rarely has a pleasant word for wife, children or neighbor. He has no time for such things; indeed, he has not time to plant and cultivate his crops. On the other hand, the farmer who has time to do these things, who has time to do the duties of each succeeding day; they are not perplexed by the things which should have been done that they have left undone, for they have kept abreast with their work, leaving nothing for tomorrow that might as well have been done to-day. They are not "poor farmers," they don't propose to join the "exodus," they don't talk of oppressions nor of laws that discriminate them, but with full barns and cellars and a stocking full of money, or better still, a good sum to their credit in the bank, live independently and happily, and the world is better and richer for their living. There is an old saying that the "woman who considers is lost," so is the farmer, and for that matter the man engaged in any other industrial occupation, who procrastinates. To neglect the renovation of a cellar until fever enters the house, the repair of a harness or a harrow until its immediate use is imperative, or of a fence until the growing crops invite an excursion from the cattle in the adjoining field, is sure to bring disquiet, disappointment and discredit.

DR. A. W. CHASE'S CATARRH CURE... 25c.
Is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

KILLED BY A BICYCLIST.

TORONTO, June 9.—Mrs. Elizabeth Smith, an aged woman, was knocked down by a young woman on a wheel tonight at ten o'clock on Yonge street. The wheel woman stopped and looked at the old lady on the ground for a moment, and then re-mounted and rode off. Mrs. Smith was taken to St. Michael's hospital where she was found to be suffering from a broken thigh. She died late to-night.

MESSRS. T. MILBURN & Co.—"I can assure you that my case was a very severe one, and had it not been for the use of Milburn's Heart and Nerve Pills I do not believe I would be alive to-day. I do not know, exactly, what was the cause of the disease, but it gradually affected my legs, until I was unable to walk hardly any for five months."

"I was under the care of Dr. Morse, of Melrose, who said I had Locomotor Ataxia, and gave me up as incurable."

"Dr. Solomon, a well-known physician of Boston, told me that nothing could be done for me. Every one who came to visit me thought I never could get better."

"I saw Milburn's Heart and Nerve Pills advertised and thought I would try them anyway, as they gave more promise of helping me than anything I knew of."

"If you had seen me when I started taking those wonderful pills—not able to get out of my room, and saw me now, working hard every day, you wouldn't know me."

"I am agent for P. O. Vickrey, of Augusta Maine, and have sold 300 subscribers in 80 days and won a fifty dollar prize."

"Nothing else in the world saved me but those pills, and I do not think they have an equal anywhere."

"The seven boxes I took have restored me the full use of my legs and given me strength and energy and better health than I have enjoyed in a long time."

G. O. ARCHIBALD.

Hopewell Cape, N. B.

In addition to the statement by Mr. Archibald, we have the endorsement of two well-known merchants of Hopewell Cape, N. B., viz.: Messrs. J. E. Dickson and F. J. Brewster, who certify to the genuineness and accuracy of the facts as given above.

Milburn's Heart and Nerve Pills are 50c. a box, or 3 for \$1.25, at all druggists, or sent by mail. T. Milburn & Co., Toronto, Ont.

SPANKED HER HUSBY.

AN EXTREME EXEMPLIFICATION OF WOMAN'S RIGHTS IN MT. VERNON.

MOUNT VERNON, N. Y., June 22.—Because his wife Mary, placed him over her knee and spanked him with a slipper, Dennis Anskey, of Port Chester, had her arrested to-day on a warrant charging assault.

Anskey is a carpenter. He told Judge Parker of Port Chester, that on Sunday afternoon his wife asked him to go down into the basement and get a scuttle of coal. He was reading a newspaper at the time and did not hear her at first. She repeated her request and Dennis became angry and swore.

"You will swear at me?" Mrs. Anskey angrily exclaimed, and seizing her husband, she gave him a thorough chastisement with her slipper, at the same time exclaiming:

"Take that, and that, for swearing at me!"

When she ceased she pushed him into a chair and went after the coal herself.

The neighbors heard Anskey's cries for help, while being spanked, and when they learned the cause they laughed so loudly and made so much fun of him that Anskey became angry and rushed down to Judge Baker's office on Main street.

"I want a warrant right away for my wife," he excitedly said. "She assaulted me. She spanked me. The neighbors are making fun of it."

Judge Barker issued the necessary paper and set the trial down for Tuesday afternoon. Mrs. Anskey is tall and muscular. Her husband is a small man, and he acknowledges he is no match for her, either in physical force or in will power.

Yellow will dye a splendid red. Try it with Magnetic Dyes—costs 10 cents a package and gives fine results.

NOVA SCOTIAN BUNCOED.

(Boston Advertiser.)

Thomas Mulcahey, of Yarmouth, was buncoed out of \$340 at Lewis wharf on Tuesday by a stranger whom he met there.

Mulcahey told the police that the stranger, who was a man of easy bearing and smooth and confident air, came up to him and said: "I'm going to Yarmouth and I have \$3,000 to take care of. How much have you?"

"I told him I had \$340," said Mulcahey, and he said, "Give me what you have got and we will put it together in a bundle."

"Here is \$5," continued the stranger. "Go and get some cigars for us to smoke on the way." I took the money and went for the cigars. When I went back he wasn't there, and nobody knew what became of him or anything about him.

"I was born and brought up in Yarmouth and I am not used to such people," went on the disappointed man, who had anticipated a very pleasant companionship with the man rich enough to carry \$3,000 with him in an unprotected package."

**Children Cry for
CASTORIA.**

No wind serves him who embarks on a voyage to no certain port.

GRAND ANSE

JUNE 23—His Lordship Bishop Rogers, of Chatham, was the guest of Rev. S. J. Doucet, the beloved parish priest of Grand Anse, Tuesday night. He held services in the Church Wednesday morning. His Lordship has not visited Grand Anse for the last fifteen years until Tuesday. Though the morning was wet there was a large congregation.

Rev. S. J. Doucet, P. P., spent two days with the Unionist Fathers at their College, Caraquet, this week.

Stewart Hinton, brakeman on the Caraquet Ry., is receiving the congratulations of his friends. The arrival is a daughter. Mr. Hinton resides on Bathurst Island.

Mr. and Mrs. Joseph Poirier, M. P. P., visited their several fishing stations along the shore between here and Mizanette, Tuesday.

Mrs. John O'Neill with her two children went to Tracadie last week on an extended visit. Miss Tessie O'Neill accompanied her.

Mr. and Mrs. John Salter spent Sunday visiting friends in Waterloo.

The meeting of the Grand Anse Agricultural Society Thursday evening was a thorough success. All the prominent farmers of Grand Anse and surrounding districts being in attendance; also a large proportion of the fair sex. The principal subject of discussion was, changes made necessary in farming by modern conditions. The necessity of farmers adopting the latest and best methods of improved farming and the benefits derived by farmers co-operating so as to secure the best prices for the products of the farm. The discussion was continued until a late hour and was taken part in by a good number, many of whom were fluent speakers.

In Grand Anse crops of all kinds are looking well. Reports from surrounding districts are. Wheat in nearly every instance is looking fine and a much larger acreage is sown than former years. Oats is also looking good. There is not very much of other kinds of grain sown here. Grass is backward but the fine growing weather lately is improving it some. A very large acreage of potatoes were planted here this spring, not much failure is noticed as yet.

Fish of all kinds are reported very scarce all along the coast at present.

SUMMER COUGHS are often the hardest to shake off. A bottle or two of Dr. Wood's Norway Pine Syrup, though, cures the severest coughs, colds, hoarseness or sore throat.

HINTS TO HOUSEWIVES.

The uses to which eggs may be put are many, aside from their employments in cooking.

A mustard plaster made with the white of an egg will not leave a blister.

The white skin that lines the shell of an egg is a useful application for a boil.

White of an egg beaten with loaf sugar and lemon relieves hoarseness—a teaspoonful taken once every hour.

An egg added to the morning cup of coffee makes a good tonic.

It is said that a raw egg swallowed at once when a fish bone is caught in the throat beyond the reach of the finger, will dislodge the bone and carry it down.

One of the best remedies in case of bowel troubles is a partly beaten egg taken at one swallow. It is healing to the inflamed stomach and intestines, and will relieve the feeling of distress. Four eggs taken in this manner in twenty-four hours will form the best kind of nourishment, as well as a medicine for the patient.

A raw egg is one of the most nutritious of foods, and may be taken very easily if the yolk is not broken. A little nutmeg grated upon the egg, a few drops of lemon juice added, some chopped parsley sprinkled over it, or some salt and a dash of cayenne pepper, vary the flavor, and tend to make it more palatable, when not taken as a medicine.

The steadily increasing demand for . . .
