BUCTOUCHE NOTES.

APRIL 11.—We enjoy genuine spring weather here. The snow has been much reduced.

A great depth of ice is in the river; but it must soon yield to the attacks of spring.

Wild fowl are numerous outside the bay, and our sportsmen are making the hills and rocks ring with the reports of their death-dealing (?) pieces. I will advise them not to enter into any tame sport this season. It is too expensive, boys.

Mr. Andrew Hanagan sprained his knee in the overturning of his pug, when out driving.

The "grippe" victims are recovering.

Mr. Bowen Smith received news of his son in the Klondike. His partner, Mr. Harris, of Moncton, reports his serious illness from inflammatory rheumatism. He was hauled on a hand sled ten miles, to the hospital, and spent several weeks there; but was expected out in a few days from the date of Harris's letter. Mr. Smith and his son Harrison left for Alaska gold fields yesterday. A sympathetic and well-wishing gathering of friends saw them off.

IS THIS PLAIN ENOUGH?

If you have a nagging cough and are losing flesh, go to a drug store and get a bottle of Shiloh's Consumption Cure. Take two-thirds of it, and then, if you are not benefited, return the bottle to the druggist, and he will return you money. Isn't that fair. No one could ask more. 25 cts., 50 cts. and \$1.00 a bottle.

A POLICY OF OBSTRUCTION.

OTTAWA, April 11.—From a statement made by W. H. Bennett, M. P. for East Simcoe, last night at a Conservative meeting in this city, it is evident that obstruction to the address passing was a pre-arranged affair, and is done with a view of intimidating the government against bringing down the redistribution bill. Bennett said that the party would likely be summer residents of Ottawa, fighting the iniquitous franchise bill.

Mr. Braid, wholesale grocer, of Vancouver, B. C., formerly of Hamilton, arrived here last night to attend a meeting to-day of the Commercial Telegraph Company, which has obtained a charter to build a line from Vancouver to Dawson. Col. Domville, M. P., is connected with this company. There is about £20,000 worth of material such as wire, etc., on its way from England, to permit the company starting work, but the fact that the government is now building from Bennet to Dawson may interfere with the arrangements of the Commercial company. A meeting was held to-day to consider the whole matter.
