

EVERY MOTHER SHOULD
 Have it in the House
 To cure the common ailments that may occur in every family as long as life has woes.

JOHNSON'S ANODYNE LINIMENT
 has been used and indorsed since 1810. To relieve or cure every form of Pain and Inflammation. Is Safe, Soothing, Sure. Otherwise it could not have existed for almost a Century.

JOHNSON'S ANODYNE LINIMENT
 Is strictly a family remedy for internal as much as External use To cure Colds, Croup, Coughs, Catarrh Cramps and Colic it acts promptly.

ORIGINATED BY AN OLD FAMILY PHYSICIAN.

There is not a medicine in use which possesses the confidence of the public to a greater extent than Johnson's Anodyne Liniment. For almost a century it has stood upon its intrinsic merit, while generations after generations have used it. The best evidence of its virtue is the fact that in the state where it originated the sale is steadily increasing. You can safely trust what time has indorsed.

J. S. JOHNSON, Esq.—Fifty years ago this month, your father, Dr. Johnson, left me some Johnson's Anodyne Liniment. I have sold it ever since. I can most truly say that it has maintained its high standard and popularity from that time to the present.

JOHN B. RAND, North Waterford, Maine, January, 1891.

WONDERFUL LONGEVITY.

(Fredericton Herald.)

A rather remarkable case of longevity is furnished by the Charters family, of New Maryland. The family referred to consists of six brothers and sisters, whose ages average a fraction over 63 years. Here are the names, with the date of birth and present address of each:

Archibald Charters, born in Dumfries, Scotland, in 1806, now living in New Maryland.

Margaret Charters, born in Dumfries, Scotland, 14th April, 1811, wife of Peter Haining, of this city.

Isabella Charters, born in Dumfries, Scotland, 8th Dec. 1812, wife of John Edgar, of the parish of Kingsclear, York county.

Adam Charters, born in Dumfries, Scotland, Jan. 16, 1815, now living in New Maryland.

Agnes Charters, born in parish of New Maryland, York county, 1st Aug., 1822, wife of Thomas Moss, of New Maryland.

John Charters, born in parish of New Maryland, York county, April 25th, 1827, now living in St. John West.

The above name comprise the entire family of the late Margaret Gillespie, and William Charters, who came out from Dumfries, Scotland, to New Brunswick, in the year of 1819 and made a home for themselves and children in the unbroken forest of New Maryland.

Experience in England.

Diamond Dyes Have First Place in the Old Land.

A Hamilton Lady Says: "Diamond Dyes Are Far Above All Others."

Mrs. J. S. Burton, Hamilton, Ont., says: "While living in England I had considerable experience in home-dyeing work, and never had perfect success there till I used the Diamond Dyes. When I came to Canada I still used the Diamond Dyes, and am using them now, and will never have any other kind to do my work. Diamond Dyes are far above all others."

LADIES WHO WASH IN MUD.

The latest fad of fashionable ladies in search of beautiful complexion is mud—plain, dirty, sticky mud. The idea is by no means new, but it is the first time that society has accepted it as a skin beautifier.

Swamp mud, or the mud from the bed of a stream, is the best. The skin should be thoroughly cleansed and dried until it feels warm and the perspiration has started. Then apply the mud thickly, taking care to keep it from the eyes.

It is especially necessary that care be taken to cover all portions of the skin alike, as the smallest patch of uncovered skin is likely to stand out with disagreeable plainness the next morning.

The feeling of the mud on the face is not as unpleasant as one might at first suppose. It feels much as a coating of cold cream or vaseline would, and its beneficial results are much greater.—Pearson's Weekly.

NO COCAINE IN DR. A. W. CHASE'S CATARRH CURE.

Prof. Hays, Ont., School of Chemistry and Pharmacy, says:—"I have made an examination of Dr. Chase's Catarrh Cure for Cocaine and in all its compounds, from samples purchased in the open market, and find none present." We offer a reward of \$1,000, to be devoted to any charitable institution if any druggist or doctor can find the least trace of that deadly drug Cocaine contained in Dr. Chase's Catarrh Cure." Dr. Chase's Catarrh Cure, recommended by all dealers at 25cts., a box, blower included free.

The American Potteries Company, the name given to the proposed \$27,000,000 trust, to include the potteries of the United States, is dead. The projectors, it is said, spent \$250,000 in trying to effect an organization, but failed because of over-capitalization. They could not persuade investors to buy stock.

Honest 25c. bottles.

HARVEY MEDICINE CO. 424 ST. PAUL STREET, MONTREAL.

PROVINCIAL PARLIAMENT.

FREDERICTON, April 6.—Mr. Hazen moved his inquiry in the provincial legislature as to particulars in regard to the installation of an electric plant in the Provincial Lunatic Asylum.

Hon. Mr. Emmerson said, in reply, that the cost of the plant proper had been \$11,400, the work and wiring \$1,385 making a total cost of \$13,685. Other work had been performed by the officials and employes connected with the asylum, the details of which would appear in the public accounts. Tenders were not asked in the ordinary acceptance of the term for this work, but he (Emmerson) had himself visited several companies and the work was done based upon an offer made by G. M. Angier & Co. of Boston. The material supplied was all Canadian except the dynamo. Mr. Charles E. Jones of the city of St. John, was superintendent of the work and was paid at the rate of 5 per cent. for inspection and repair, specifications amounting to \$634.25. Harold R. Wilson was specially employed in connection with superintending the wiring. He now resides in Toronto, but was at that time residing in Sussex. He was a brother-in-law of Mr. Fowler, the late member and an electrician of standing and experience. He had received \$291.60 for his services. Mr. Jones was general superintendent and prepared the specifications on which the work was based.

He (Emmerson) in company with Mr. Jones had visited many of the institutions in Massachusetts of a like character and examined isolated plants and the one which nearest approached his ideal was the one followed, and he thought there was not an electric plant in the maritime provinces equal to that now possessed by the asylum.

NOTICE OF ENQUIRY.

Mr. Humphrey gave notice of inquiry for Saturday: Is it true that the Record foundry add machine shop have received a contract for putting on the superstructure of the bridge at Kingston, Kent Co? What is the weight of same and the price per pound, f. o. b. Moncton? Was the contract awarded with or without tender, and if by tender the names of the parties who tendered and the amount of each tender?

Mr. Humphrey gave notice of inquiry: How much was paid Henry Balsler for repairing the bridge near Dawson settlement, Albert Co? How much was paid for repairing the breakwater at Stoney Creek, Albert Co? How much was paid for stone filling and wood work at Fork Creek, Albert Co?

Hon. Mr. Tweedie submitted the report of the auditor general for the year 1898, and Hon. Mr. Emmerson the annual report of the chief commissioner of public works.

Mr. Hazen, second by Mr. Shaw, moved his motion for the appointment of a special committee of five members of the house to whom shall be referred all matters connected with contracting for and the construction of the superstructure of certain bridges. In proposing the motion which he had hoped to propose at an earlier date in the session, Mr. Hazen said that he felt he should give the house some reasons in view of the public discussion there had been on this matter, preceding, during and since the election, as to why it was desirable, in the interests of the county, that this committee should be appointed.

A POINT OF ORDER.

Hon. Mr. Tweedie—I rise to point of order, and in doing so would say that as the government has no desire to withhold from the house any information, or prevent a proper investigation of this matter, it will commend itself, I think, to the house that the proceedings should be carried on according to the rules of the house. This motion is out of order, because it proposes to lay before this special committee accounts and documents which are not in possession of the house, and which the house as yet has no control over. The house should know what documents are to be referred and should have possession of them.

Mr. Hazen said he had no doubt but that the government intended to block this enquiry.

Mr. Tweedie again arose to his point of order.

Mr. Hazen continued that the promise of an enquiry was put forward as an election dodge without any intention of fulfilling it.

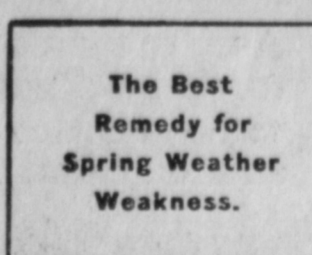

Hon. Mr. White said if the matter is to be investigated properly it must be investigated according to rule, and the initial steps should be regular. The hon. member knows quite well that he can have the papers brought before the house in the regular way. He knows that until the house has control of these papers it is impossible to appoint a committee to whom they shall be referred. The hon. member has simply brought in this motion in order that it might be ruled out.

The speaker after looking up the full authority ruled the motion out of order.

THE FISHERIES CASE.

Hon. Mr. Emmerson, by command of the lieutenant governor, laid on the table the report of the committee of the executive council to confer with the dominion government on the subject of "the fisheries case," and on his motion the report was read by the clerk.

B.B.B. Makes Rich Red Blood.

The Blood is the very essence of life. As it courses through the system it carries with it, if pure and rich, nutrition to every cell in the body. If impure, it spreads disease. If thin and watery, it fails to nourish, hence we have weakness, debility and decay.

It is the wonderful power B.B.B. has in purifying impure blood, making thin, watery blood rich and red, that is at the bottom of its marvellous success in curing disease.

Those who are pale, thin, weak, troubled with blotches, pimples or eruptions of any kind should take B.B.B. It makes the pale cheek rosy, the skin clear and smooth, and infuses new energy into weak, worn, run down, shattered constitutions.

Every "I beg to state I have used B.B.B. Burdock Blood Bitters for impure blood, pimples on the face, &c., and derived great benefit from it. My skin is now very clear and free from all eruptions. I only used four bottles of the B.B.B. and can strongly recommend it to any person suffering from impurities in the blood or eruptions of the skin." Mrs. G. R. HELMORE, Spence's Bridge, B.C.

Every "I have taken B.B.B. every Spring, spring now for some years, to purify my blood and keep my system in good order, and can honestly say that I do not know of its equal anywhere." Mrs. AGGIE BARNES, Lunenburg, N.S.

The committee consisting of Hon. Messrs. Emmerson, Tweedie and White went to Ottawa, arriving there on the 31st of December last, and two meetings were held. The minister of marine and fisheries at the first of these stated that it had been arranged between his colleagues in the dominion government and himself that the matters should be discussed by him on behalf of the dominion government with the committee.

Sir Louis Davis stated that until further consultation between the province and the dominion and until he had received the opinion of the minister of justice, he did not propose to grant any fixed location licenses, and that he would suggest that we should not grant any either, but that the whole matter should wait in abeyance until the minister of justice had an opportunity to give his opinion. It was agreed between the hon. minister and the committee that the negotiations with a view to an adjustment of the whole matter relating to the fisheries as between the province and the dominion should be resumed at the earliest period when it was found possible for a committee of this government to meet a committee of the dominion government for that purpose.

AUDITOR GENERAL'S REPORT.

Answering Mr. Hazen, Mr. Emmerson said copies of the auditor general's report would be immediately distributed, and that supply would not be entered upon until hon. members had every opportunity of examining the report.—Adopted.

Adjourned.

FREDERICTON, April 7.—Hon. Mr. Tweedie, in the legislature yesterday afternoon, submitted a return of the New Brunswick University for the last year.

Mr. Venoit, from the standing rules committee; Mr. Burchill, from the corporations committee, and Mr. McKown, from the municipalities committee, submitted reports.

Hon. Mr. Emmerson asked for an explanation of the bill recommended by the municipalities committee to legalize road assessment in St. Andrews district.

Several bills were introduced among them a bill relating to Moncton rural cemetery by Mr. Humphrey.

Mr. Melanson gave notice of inquiry: Has the government entered into a contract for the building of a bridge across Scoudie River, parish of Shediac at Westmorland? If so to whom has the contract been awarded? Were tenders for building said bridge advertised for? If so, names of tenderers and amount of each tender received. What kind of lumber is to be used, and when is the bridge to be completed?

Hon. Mr. Emmerson committed a bill to aid in the erection and maintenance of a bridge over the St. John river at Hartland—Mr. Wells chairman.

Mr. Hazen—As this bill was only recently introduced, perhaps it would be well for the chief commissioner to explain its provisions.

Hon. Mr. Emmerson said it was a bill enabling the residents of Hartland, a very
