GENERAL NEWS.

Adam F. Roney of Kingston, Ont., has failed with liabilities of \$15,900.

The New Zealand government has asked Canada for a supply of salmon eggs to plant in New Zealand waters.

A pair of dwarfs, Charles Morris, a widower, 36 inches in height, and Miss Goddard 36½ inches high were married at Bolton, Eng.

At a meeting of the general committee of the Gordon Memorial College it was announced that the subscriptions amounted to \$118,000.

By the explosion of the boiler in Ald Burns' ice house, Toronto, one man, Andrew McVey, engineer, was killed and several others painfully injured.

Lord Aberdeen has accepted the invitation of the Duke of Devonshire and the council of the British Empire League to become a vice president of the organization.

The Swedish Parliament opened yesterday. Count Douglas, Minister of Foreign Affairs, read the speech from the throne, which said Sweden must continually strengthen her defence.

The Ottawa branch of the Lord's Day Alliance will meet on Tuesday next to protest against the application to be made to the Provincial Legislature for the running of cars on Sunday.

The marine department has been notified that the mail carrier and his three assistants who were drifting seaward on flow ice from Bonaventure, have been drifted ashore in an exhausted condition.

The first gold brick produced by a British Columbia coast mine has reached Vancouver. It is said to be worth between \$6000 and \$7000, from about 4.00 tone of ore from the Dorothy Morton mine.

James Osbourne, assistant to Vice-President Shaughnessy, of the C. P. R. has been appointed general superintendent of the western division of the company system, with headquarters at Winnipeg.

Action has been taken by the Athabasca Coal and Railway Co., against McKenzie and Mann for one hundred thousand dollars alleged to be due for rails and rolling stock supplied in connection with the Crow's Nest Pass road.

Rather disappointing news awaited Sir Charles Tupper upon his arrival, at Ottawa. It is to the effect there will be no reduction in the ten per cent. royalty on the output of gold in the Yukon, but that the amount exempted from royalty is to be increased from \$2,500 to \$5,000.

In the Quebec legislature the minister of public works announced that the government would grant no bonuses to railways this year and would not carry out the promises made by the late government. Included in these promises is one of a bonus for the new Grand Trunk bridge to replace the Victoria bridge.

Toronto Telegram's special cable from London says Financial Times publishes an interview with Louis Coste, chief engineer of public works; Ottawa. Recently Miss Shaw, special correspondent, published statements with reference to the Yukon in the London Times. Now Mr. Coste says the evidence of Miss Shaw's informants is unreliable and not worth much.

Josiah Wood, Westmorland, senator; Herbert Mariner Wood, Sackville, clerk; Thos. Brown Calhoun, Calhoun Mills, lumberman; John Caldwell Calhoun, Albert, lumberman; Mariner George Teed, Dorchester, barrister-at-law, are applying at Ottawa for incorporation as "The Calhoun Lumber Company," with chief place of business at Calhoun. The Restigouche Boom Company is applying for incorporation.

It is anticipated that the revenue of the Toronto Crown Lands Department for 1899 will show a diminution of \$200,000 in the amount derived from timber dues, in consequence of the law requiring logs cut on Crown lands to be manufactured in the province. Last year United States holders of Ontario timber limits cut and shipped to the United States 200,000,000 feet of logs, upon which a stumpage rate of \$1 per thousand was paid.

Niagara Falls, Ont., has a water famine. Grand Trunk Telegraphers and the Company are arbitrating at Toronto.

Mrs. Louisa Antoine Lavoie, of River du Loup committed suicide with a razor Sunday.

An earthquake, lasting ten seconds, and the most severe in years, has occurred at Port Antonio, Jamaica.

Decorations for a hundred Turkish officers have been received at Constantinople from the Emperor of Germany.

Hon. Mr. Tarte has returned from Pasadena. He says the port is certainly accessible by ocean liners for ten months in the year.

During 1898 inquests were held in 2,490 cases in Philadelphia, 32 being murders, 183 suicides, 129 deaths on steam railroads, and 26 deaths by the trolley.

Richard Harding Davis is very ill at his home in New York. He has been attacked by a return of the fever contracted in the campaign at Santiago.

The public accounts of British Columbia show a net revenue of \$1,439,623 and an expenditure of \$2,001,031. The province's liabilities exceed its assets by \$4,845,410.

The Toronto Globe's special cable from London says:—There has been some renewal of talk here about the possibility of amalgamation between the Grand Trunk and Canadian Pacific railways. There is nothing in the report, so far as the near future is concerned.

Hon. Mr. Turner's motion condemning the action of the lieutenant governor in dismissing the late government was again postponed by the British Columbia legislature, as Hon. Mr. Turner has resigned owing to a breach of the election act. It is hardly likely the motion will be proceeded with. The public accounts were brought down yesterday and show a net revenue of \$1,439,623, and expenditure of \$1,001,031. The liabilities over assets of the province are \$4,845,413.

The steamer Danube has arrived at Vancouver, B. C., from the north bringing 50 passengers from Dawson and a number of others from the placer district of Atlin lake. Dawson passengers brought close on a half million dollars in gold. They report the sanitary condition of Dawson very bad and although the thermometer is down to 48 degrees below zero, typhoid fever is general. The hospitals are full and there are 600 cases in the city besides much other sickness.

During the past year just ended 509 mining companies were floated in London, Eng. with a total capitalization of £55,000,000. Of these 381 were formed to mine in British colonies and dependencies with a capitalization of \$36,000,000. Of these 122 were organized to operate in Canada, with a total capitalization of over \$11,000,000. Thus it will be seen that our country occupied a lot of attention in the British mining world—in fact more than any other country on earth.

A New Departure.

Dr. Marschand, the celebrated French physician, has at last opened his magnificent equipped laboratory in Windsor, Ont. There is a large staff of chemists and physicians at his command, and the men and women of Canada may now procure the advice of this famous specialist free of charge.

Dr. Marschand has a world-wide reputation for successfully treating all nervous diseases of men and women, and you have but to write the doctor to be convinced that your answer, when received, is from a man who is entitled to the high position he holds in the medical fraternity.

Why suffer in silence when you can secure the advice of this eminent physician free of charge.

All correspondence is strictly confidential and names are held as sacred. Answers to correspondents are mailed in plain envelopes.

You are not asked to pay any exorbitant price for medicines, in fact it rarely happens that a patient has expended over 50 cents to one dollar before he or she becomes a firm friend and admirer of the doctor.

A special staff of lady physicians assist Dr. Marschand in his treatment of female cases. Always inclose a three-cent stamp when you write and address The Dr. Marschand Chemical Co., Detroit, Mich., U. S. A.

When you write mention THE REVIEW.

WAS HE JEALOUS?

"What's the matter, Jack? You look as though you'd won a bet and couldn't find the man who held the stakes."

"That's enough to make a man feel jubilant compared to what I've been through this evening."

"And that was?"

"An amateur performance," said Jack. "Ever been to one?"

"No. What is it like?"

"It is hard to describe; even harder to describe than it is to witness."

"Was it a charity performance?"

"Well, the audience did the charity act. The actors brought them the tragical contribution."

"What time did it begin?"

"Any time. Amateur performers are not respecters of clocks—nor of persons. The first number was a song in a diluted soprano by a young lady who had never faced a cold and critical world under such trying conditions before. At first it struck me that they'd made a mistake and shoved on the deaf and dumb lady in a pantomime sketch, but after the tenth verse—"

"What?"

"You've never been to any amateur performance," said Jack enviously. "After the tenth verse I discovered that she was only entertaining a large delegation of stage fright."

"Next?"

"An encore, dittoing what I have just described. After that came a recitation by a young lady with a voice like a speaking tube—up six flights. She had all the light and airy grace of a ton of coal as to her actions, and her voice was clearly not on speaking terms with the rest of her senses. It evidently frightened the poor girl to listen to its awful tones, and I don't doubt she would gladly have sentenced it to six months in state prison had she had her way. After that came a lank gentleman with a long bass voice."

"Long?"

"Well, there was no end to his singing. He was the worst encore fiend in the bunch. If I had that fellow's lungs I'd save my telephone tolls by connecting direct. I heard the woman in front remark that the gentleman was a neighbor of hers. I suppose that's why she wore cotton in her ears."

MAY BE THE YOUNGEST GRAND-MOTHER.

(From the Cincinnati Enquirer.)

VINCENNES, Ind., Jan. 14.—Knox county lays claim to have the youngest grandmother in the State, if not in the United States. Her name is Mrs. Jas. Burhe and she is barely 33 years old. She lives at Deckers. Her daughter Bertha married John Midkiff two years ago, and to them a little daughter was born this week. The mother of the child is not quite 15 years old, while the father is but 19. The combined age of the father and mother is but one year older than the grandmother, and the combined ages of the grandfather, grandmother, mother, father and child is only 100 years, yet this represents three generations.

And now the bequest of the late Adolph Suto of a beautiful public park, a free library, and a ranch for a scientific school to San Francisco is held by the court to be invalid and they will all go to his relatives.

The Serbian Drum.

The men who play the big drums in the different regiments of the Serbian army must have an easier lot than the drummers of other lands, for they do not have to carry their own drums.

In nearly all cases instead of being slung in front of the man who plays it the instrument is put on a small two wheel cart drawn by a large dog. Of course the drummer must play as he marches, but the dog is so well trained that there is no difficulty in doing this.

The animal keeps his place even through the longest marches, and the drummer walks behind the cart, performing on his instrument as it goes along. Each regiment is provided with two or three big drums, but very few regiments have a band.—Youth's Companion.

DOUKHOBORS ON THE SICK LIST.

SEVEN HAVE BEEN DETAINED IN ST. JOHN'S—NOW AT THE HOSPITAL.

From various causes, such as old age, cold, or the results of a hard and long voyage, seven of the Doukhobors were detained in St. John and taken to the General Public Hospital, where they will remain until sufficiently recovered to join their compatriots. The sick list includes Wasy Berikow, a man of 86 years, who was compelled to come out to the new land since all the others in his village did so. He is very ill, but may recover sufficiently to get to Winnipeg. His relatives have all preceded him. Anastacia Groezyn a young married woman, is very ill with gastro-enteritis, which appears to be a fashionable complaint among the Doukhobors. She has a husband and three children. The husband has remained here with her, but the children have gone with their friends. Theodosia Gulajow, another sufferer from gastro-enteritis, will be all right in a day or two, as will also Alescin Pazinakow. A very sad case is that of Eudokia Larina, a young girl, who is dying of consumption. Malaza Larina, her grandmother, will remain with her till the end. The last on the sick list is Nichola Wajkin, who is ill with pneumonia. He is a very sick man, but being young, and having a sound constitution, will probably recover in a short time. Mr. Geniy, one of the interpreters, has remained with the sufferers. He is a very kind and pleasant mannered man, and has nothing but good to say of the way his patients are being taken care of by the hospital staff.

A number of Klondikers have been killed and three river steamers wrecked by the ice jams on the Yukon river. Late in November Henry Horsfall and wife, of Seattle, and John Dobbins, of Victoria, left Yukon for an Indian village thirty miles below in an open boat. The river froze hard the next day. They never reached their destination. Their boat was found imbedded in the ice. Others are believed to have perished in the same way. The steamers Tacoma, Seattle, and Robert Kerr are partly wrecked, and are certain of being ground to pieces during the spring break-up. The Tacoma's hull is broken, and ice is piled up to her smokestacks. The Kerr is stuck on a sandbar in mid-stream. All three are within a few miles of Circle City.

How interesting! Yes, it was the first time she had ever been on board a warship. "And this," the lieutenant went on to say, "is the quarter deck." "And that deck over yonder?" she exclaimed, indicating the fore-castle, with a pretty gesture. "Is that the five-cent deck or the ten-cent deck?"—Detroit Journal.

Lobster Fishery Bay of Fundy.

PUBLIC NOTICE is particularly directed to the following special Fishery Regulation approved by His Excellency the Governor General in Council, on the eighth day of July, 1898, fixing the legal size limit under which the capture of lobsters in the waters of the Bay of Fundy is prohibited.

"From and after the 1st day of January, 1899, on and along that part of the coast of the province of Nova Scotia and New Brunswick, extending from Capeable in a westerly and north-westerly direction, to, and including the whole coast of the Bay of Fundy and following that coast to the International Boundary Line between the province of New Brunswick and the State of Maine, and including also the coast of all the Islands lying in such Bay of Fundy and the waters of Canada in such Bay and between the above points, it shall be unlawful to fish for, catch, kill, buy, sell, can, cure, preserve, or have in possession for any purpose whatever, any lobster, or lobsters under 10½ inches in length, measured from head to tail exclusive of claws or feelers."

The above regulation does not come into force until the 1st January, 1899, but this notice is designed to furnish all persons interested with timely and ample information that on and after that date it will be rigidly enforced under the extreme penalties provided by the Fisheries Act, Chapter 55 Revised Statutes of Canada.

By order,

E. GOURDEAU, Deputy Minister of Marine and Fisheries, Ottawa, 1st August, 1898, Department of Marine and Fisheries.
