SPRAINED BACK!

Sprains, Strains and Injuries of the Back often cause Kidney Trouble.

DOAN'S KIDNEY PILLS THE CURE.

Here is the proof:—

Mrs. S. Horning, Glasgow Street, Guelph, Ont., says: "Doan's Kidney Pills are grand. I have not been ill since taking them, which was over a year ago last winter, and can give them my warmest praise; for they restored me to health after 25 years of suffering. Twenty-five years ago I sprained my back severely, and ever since my kidneys have been in a very bad state. The doctors told me that my left kidney especially was in a very bad condition. A terrible burning pain was always present, and I suffered terribly from lam-bago and pain in the small of my back, together with other painful and distressing symptoms, common in kidney complaints. I could not sleep, and suffered much from salt rheum.

"When I first commenced taking Doan's Kidney Pills I had little or no faith in them, but I thought I would try them; and it proved the best experiment I ever made. I had only taken two boxes when the pain left my back entirely. Three boxes more, or five in all, made a complete cure.

"After 25 years of suffering from kidney disease I am now healthy and strong again, and will be pleased to substantiate what I have said, should anyone wish to enquire."

Laxa-Liver Pills are the most perfect remedy known for the cure of Constipation, Dyspepsia, Biliousness and Sick Headache. They work without a gripe or pain, do not sicken or weaken or leave any bad after effects.

DISASTROUS STORMS.

TALLAHASSEE, Fla., Aug. 3.—The town of Carabelle, a prosperous port on the Gulf of Mexico, southwest of this city, is reported almost completely destroyed by a terrific wind and rain storm, which raged in this section all yesterday and until late last night. Many boats in the harbor have been wrecked, and most of long wharf is gone, together with large quantities of naval stores. A passenger train on the Carabelle, Tallahassee and Gulf road thirty-five miles below Tallahassee, was badly wrecked, but no one is reported killed or injured. The turpentine interests of this section are greatly damaged, and much injury has been done to the crops. A new trestle over the Ochlocknee river at McIntyre was blown away. A wrecking train which went out to-day in the storm-devastated territory found over two hundred trees on the track in a run of thirty miles. There are many reports of loss of life.

NEW YORK, Aug. 2.—Elizabeth, N. J., was visited by a form of tornado this afternoon which cut a swath about one thousand feet wide through the centre of the city, causing great damage to buildings and property, but, strange to say, not a person was killed and no one was seriously injured. The wind attained a velocity of eighty miles an hour. The path of the tornado included many of the prominent church buildings and other structures, and no other course could have been taken through the city where the possibilities of damage were as great. The towers of the First Presbyterian, Third Presbyterian and Central Baptist churches were blown down. The Lyceum theatre was totally unroofed. The Star theatre's roof was ripped off and hurled two blocks away. Scores of dwelling houses in the path of the storm were unroofed. Trees and electric poles went down before the gale. The roof was lifted off the home of Councilman Reinhardt and carried two blocks and then crashed into another house, breaking in the side. In many cases the wind, after unroofing houses, whipped all the furniture out of the upper stories and scattered it through the streets and yards many blocks distant.

At the First Presbyterian church, when the tower crashed down, it fell upon the graves in the churchyard. This caused an upheaval of the earth and brought to the surface skeletons and skulls that had long lain underground. Old trees in the churchyard were uprooted and these brought up in their roots other skeletons and skulls. The streets are almost impassable with debris.

It took about ten minutes for the tornado to pass through the city, and then rain fell in torrents, flooding everything. Just ahead of the cloud-storm itself there was a severe shower of hailstones.

Many persons were slightly injured by being struck by flying debris. The greatest excitement prevailed. Firemen and police were placed on duty in the wrecked section.

The police and firemen say the loss will be close to a quarter of a million, but this estimate is believed to be excessive, perhaps three times the actual loss.

It has been unofficially announced that steps have been taken by Toronto University authorities in the direction of the abolition of the university residence, an institution which has been for many years an important adjunct of the Ontario seat of learning.

Mr. Chas. Johnson, Bear River, U. S. writes: "I was troubled with hoarseness and sore throat, and after taking three bottles of Dr. Wood's Norway Pine Syrup I was entirely cured."

THE NEW SPEAKER.

MR. THOMAS BAIN THE UNANIMOUS CHOICE.

OTTAWA, Aug. 2.—The house of commons assembled at 3 o'clock yesterday to elect a speaker. As the proceedings are the first of the kind that has ever taken place in Canada they are of particular interest.

Sir Wilfrid Laurier—The governor general having been informed of the death of Sir James Edgar is pleased to give leave to the house to proceed to the choice of a speaker. He then addressed the House as follows, the clerk (Sir John Bourinot) presiding:—The melancholy event which we had to deplore yesterday now brings us to the duty of selecting a new speaker to preside over the deliberations of this house. He expatiated upon the qualifications of a speaker, and then referred to Mr. Thomas Bain, M. P. for South Wentworth, who had entered parliament at a time when parliamentary science was represented on the floor of this house by such men as Sir John McDonald, Sir A. A. Dorion, Hon. Edward Blake, Sir Alexander Galt and Sir John Abbott. A man who has been trained in such a school must have acquired a great deal of knowledge which must stand him in good stead in the chair. Apart from this, I appeal to the judgment of every one in this house that the member for Wentworth being often called on to preside over the committee of the whole has given signal evidence of his fairness of mind and impartiality and soundness of judgment. He closed by nominating Mr. Bain.

Sir Charles Tupper, for the opposition expressed their support of the choice and said: I am sure that everyone who has had the privilege of sitting in this house with the member for South Wentworth, agrees in the statement that whether as a member of this house, frequently occupying the position of chairman of committees or occasionally occupying the position temporarily of speaker, his duties have been performed in an independent, able and impartial manner that commends him entirely to the approval of this side of the house. (Applause.) I have much pleasure in seconding the motion.

Sir James Bourinot put the motion, which was carried without a dissentient voice. He then said, "I declare Mr. Thomas Bain unanimously elected to the chair of the speaker of this house."

During the applause which followed this official declaration, Mr. Bain rose from his seat, and was conducted to the chair by Sir Wilfrid Laurier and Hon. W. S. Fielding. As Mr. Speaker took the chair there was a renewal of the applause and cheers which lasted some little time.

After the new Speaker had expressed his thanks to the house and especially to the opposition leader for his kindly remarks, the Speaker was escorted to the Senate by the members and presented to His Excellency the governor general.

Mr. McDonald, of Kings, P. E. I., asked if a county court judge had yet been appointed the vacancy there caused by the death of Judge Alley.

The premier replied that the appointment would have been made yesterday but for the unfortunate illness of Sir Louis Davies, and it would certainly be made to-day.

Following up their attack on all kinds of labor legislation, the opposition to-day devoted the whole session in attacking Dr. Borden for giving to workmen the advantages, in his militia clothing contracts, anti-sweating clauses.

They advocated the retention of those principles upon which sweating is carried on. A few days ago they made a similar attack on day labor and at this morning's railway committee Sir Charles Tupper, adhering to the same policy of starvation wages to workmen and all modern improvements to lighten the burden of employes, fought against Hon. Mr. Blair's railway bill.

On the militia estimates Lieut.-Col. Domville scored importations of the major general's from the old country, as there was abundant material in this country. One general wanted buttons, another did not, and each, in his turn, upset what the other one did. They cost the country a terrible amount of money and rendered no service in return.

"You May Bend the Sapling but Not the Tree."

When disease has become chronic and deep-seated it is often difficult to cure it. That is the reason why it is best to take Hood's Sarsaparilla when disease first shows itself—in pimples, headaches, indigestion, or other troubles which tell of poor blood, weak stomach or disordered liver or kidneys. This great medicine regulates the whole system. It never disappoints.

Hood's Pills are the favorite family cathartic.

Admiral Sampson says that the best training for a naval life is "hard work from the very start." This was his own lot, for his father was a day laborer, who sawed wood from house to house near Palmyra, N. Y., and the son began life by splitting and piling the wood his father sawed.

COOK'S SURE COUGH CURE.

CARE OF THE HAIR.

If a woman wants to have beautiful hair she should take care of the scalp. Unless it is kept perfectly clean and in a healthy condition the hair will not grow. In summer the head should be washed often if it is at all inclined to be oily.

The hair in a healthy scalp grows at least eight or ten inches a year. It grows faster in summer than in winter, and it will stretch in wet weather, and shrink in dry weather, which accounts for artificially curled hair coming out of curl in the rain or moist air.

When using curling irons one should supply the follicles with extra nourishment in the way of a brilliantine to make up for what the heat abstracts.

The following recipe is non-greasy and good: Lavender water, 1 oz.; glycerine, 1 oz.; clarified honey, 2 oz.; rectified spirits, 4 oz.

First mix the honey and glycerine together, then add the lavender water or eau-de-cologne and last of all the spirits. This second recipe is intended to give a more or less glossy appearance to the hair as well as to strengthen it:

Castor oil, 2 drms.; rectified spirits, 5 oz.; attar of roses to perfume, tincture of cochineal, 2 drms.

The best way to use this is to put a few drops on the palm of the hand and rub it over the bristles of a hairbrush.

All greasy preparations tend to darken the hair. Constant brushing will also do it. The white of an egg, so often advised, will darken blonde, auburn or chestnut hair. Borax, an even teaspoon to a cup of warm water, used once a month, is the best wash for light hair. The day after the application rinse first in warm water, then in cold water, and dry sun, if possible. Borax will tinge the hair yellow and should never be used for gray hair. A few drops of indigo in the rinsing water gives gray hair that clean silver appearance and will not injure the hair. —New York Tribune.

Confirmed by Mr. Tuttle.

A Brantford Man testifies that Dodd's Kidney Pills will cure Permanently.

Brantford, Aug. 7.—R. S. Tuttle, proprietor of the American Hotel here, received a letter lately from a Toronto gentleman, asking whether his cure of Bright's Disease by Dodd's Kidney Pills had been permanent or not. It seems the writer is especially interested in Kidney diseases and their cure and was anxious to ascertain if Dodd's Kidney Pills cured these complaints permanently.

Mr. Tuttle's reply read as follows: Brantford, May 31st, 1899. Dear Sir—Yours of the 25th received and in reply would say that Dodd's Kidney Pills have done me any amount of good. The cure has been entirely satisfactory.

Yours truly,

R. S. TUTTLE.

Mr. Tuttle had Bright's Disease for six years, and used five boxes of Dodd's Kidney Pills.

POMPADOUR PUFF IN VOGUE.

"It is the decree of fashion that the hair shall be dressed in some form or other of the pompadour puff. For years the tendency has been growing, and now the pretty, becoming style bids fair to be as popular as was the straight parting half a dozen years ago," writes Emily Wight, of "Newest Styles in Hairdressing," in the August Ladies' Home Journal. "From the fashion centres of Europe rumors are reaching us that the 'bang' is to be revived. It is to be hoped that in America women will not return to the slavery of trimming the hair and keeping it in such a way as to suit that most troublesome of all fashions."

The number of ladies who buy Magnetic Dyes all over Canada surprises even ourselves—of course they give splendid results.

Your word is your servant so long as you retain it, but it becomes your master when you suffer it to escape.
